Harker,1982-01-01      The Edwardian Picture Postcard as a Communications Revolution Julia Gillen,2023-07-13 This monograph offers a novel investigation of the Edwardian picture postcard as an innovative form of multimodal communication revealing much about the creativity concerns and lives of those who used postcards as an almost

**Victorian and Edwardian Responses to the Italian Renaissance** John E.

Law, Lene Østermark-Johansen, 2017-03-02 The historiography of the Italian Renaissance has been much studied but generally in the context of a few key figures Much less appreciated is the extent of the enthusiasm for the subject in the 19th and early 20th centuries when the subject was discovered by travellers and men and women of letters historians artists architects and photographers and by collectors on both sides of the Atlantic The essays in Victorian and Edwardian Responses to the Italian Renaissance explore the breadth of the responses stimulated by the encounter between the British the Americans and the Italians of the Renaissance The volume approaches the subject from an interdisciplinary perspective While recognising the abiding importance of the familiar great names it seeks to draw attention to a wider cast of people many of whom led colourful energetic lives knew Italy well and wrote eloquently about the country and its Renaissance Several essays show that Renaissance studies became a field in which female historians could explore areas of relevance to the New Woman Other chapters examine the aims and politics of collecting and the place of the collector in literature and in the rediscovery of Renaissance artists The contribution of teachers and other less formal champions of the Italian Renaissance is explored as is the role of photographers who re framed and re viewed Florence the Renaissance city for Victorian and later eyes

**Victorian and Edwardian Country Life from Old Photographs** John S. Creasey, 1977

Depictions and Images of War in Edwardian Newspapers, 1899-1914 G. Wilkinson, 2002-12-13 Through a detailed examination of newspaper coverage from 1899-1914 this book seeks to understand the vicarious experience of warfare held by Edwardians at the outset of the First World War. The attitudes towards and perceptions of war held by those who participated in it or encouraged others to do so are crucial to our understanding of the origins of the First World War. Taking into account media history, cultural studies and military history, Wilkinson argues that the press depicted war as distant and safe, beneficial and desirable and even as some kind of sport or game. We are cautioned to avoid the same misconceptions of war in our own contemporary discussions of armed conflict.

*Dance and Dancers in the Victorian and Edwardian Music Hall Ballet* Alexandra Carter, 2017-11-28 First published in 2005 The Victorian and Edwardian music hall ballet has been a neglected facet of dance historiography, falling prey principally to the misguided assumption that any ballet not performed at the Opera House or legitimate theatre necessarily meant it was of low cultural and artistic merit. Here Alexandra Carter identifies the traditional marginalization of the working class female participants in ballet historiography and moves on to reinstate the lost period of the music hall ballet and to apply a critical account of that period. Carter examines the working conditions of the dancers, the identities and professional lives of the ballet girls and the ways in which the ballet of the music hall embodied the sexual psyche of the period, particularly in its representations of the ballet girl and the ballerina. By drawing on newspapers, journals, theatre programmes, contemporary fiction, poetry and autobiography, Carter firmly locates the period in its social, economic and artistic context. The book culminates in the argument that there are direct links between the music hall ballet and what has been termed the birth of British ballet in the 1930s, a link so long ignored by dance historians. This work will appeal not only to those interested in nineteenth century studies but also to those working in the fields of dance studies, gender studies, cultural studies and the performing arts.

**Britain's Working Coast in Victorian and Edwardian Times** John Hannavy, 2011-11-20 The coastline of Victorian and Edwardian Britain provided beauty, entertainment and the venue for most people's holidays. But it was also a thriving centre of industry, shipbuilding and fishing, plus the numerous trades associated with dockyards, coastal transport and the leisure industry. This book travels around Britain's coast clockwise from London looking at the industries that could be found at many of the cities and towns en route.

Illustrated with an amazing collection of coloured postcards and other early photographs, the working coast of Britain is brought to life in all its bustling detail.

Electric Edwardians Vanessa Toulmin, 2019-07-25 Electric Edwardians presents a stunning visual record of the films of Sagar Mitchell and James Kenyon combined with an illuminating discussion of the films and the social context of their production by Vanessa Toulmin, a leading authority on the collection. Advertised as local films for local people, the films of Mitchell and Kenyon were commissioned by travelling exhibitors in the early twentieth century for screening in town halls, village fetes and local fairs. Audiences paid to see their neighbours, families and themselves on the screen, glimpsed at work and at play. This attractive volume includes over 200 illustrations drawn from the Mitchell and

Kenyon collection as well as contemporary posters and handbills from the National Fairground Archive Vanessa Toulmin's lucid accompanying text provides an introduction to the work of the M K company the showmen who commissioned their films and their place in early British cinema Focusing on major themes such as Leisure and Recreation Sport Industry the Boer War and the City Toulmin explores how the M K collection deepens our understanding of these key aspects of Edwardian life

**Victorian and Edwardian Norfolk from Old Photographs**, 1972    *Realism, Form, and Representation in the Edwardian Novel* Charlotte Jones, 2021-01-07 The real represents to my perception the things that we cannot possibly not know sooner or later in one way or another wrote Henry James in 1907 This description riven with double negatives hesitation and uncertainty encapsulates the epistemological difficulties of realism for underlying its narrative and descriptive apparatus as an aesthetic mode lies a philosophical quandary What grounds the real of the realist novel What kind of perception is required to validate the experience of reality How does the realist novel represent the difficulty of knowing What comes to the fore in James's account as in so many is how the forms of realism are constituted by a relation to unknowing absence and ineffability Realism Form and Representation in the Edwardian Novel recovers a neglected literary history centred on the intricate relationship between fictional representation and philosophical commitment It asks how or if we can conceptualize realist novels when the objects of their representational intentions are realities that might exist beyond what is empirically verifiable by sense data or analytically verifiable by logic and are thus irreducible to conceptual schemes or linguistic practices a formulation Charlotte Jones refers to as synthetic realism In new readings of Edwardian novels including Conrad's *Nostromo* and *The Secret Agent* Wells's *Tono Bungay* and Ford's *The Good Soldier* this volume revises and reconsiders key elements of realist novel theory metaphor and metonymy character interiority the insignificant detail omniscient narration and free indirect discourse causal linearity to uncover the representational strategies by which realist writers grapple with the recalcitrance of reality as a referential anchor and seek to give form to the force opacity and uncertain scope of realities that may lie beyond the material In restoring a metaphysical dimension to the realist novel's imaginary Realism Form and Representation in the Edwardian Novel offers a new conceptualization of realism both within early twentieth century literary culture and as a transhistorical mode of representation

**The Dreadnought and the Edwardian Age** Andrew Lambert, 2016-12-05 HMS Dreadnought 1906 is closely associated with the age of empire the Anglo German antagonism and the naval arms race before the First World War Yet it was also linked with a range of other contexts political and cultural national and international that were central to the Edwardian period The chapters in this volume investigate these contexts and their intersection in this symbolically charged icon of the Edwardian age In reassessing the most famous warship of the period this collection not only considers the strategic and operational impact of this all big gun battleship but also explores the many meanings Dreadnought had in politics and culture including national and imperial sentiment gender relations and concepts of masculinity public spectacle and images of technology and ideas about modernity

and decline. The volume brings together historians from different backgrounds working on naval and technological history, politics and international relations as well as culture and gender. This diverse approach to the subject ensures that the book offers a timely revision of the Dreadnought and the Edwardian Age. *Reimagining Dinosaurs in Late Victorian and Edwardian Literature*. Richard Fallon, 2021-11-04. Reimagining Dinosaurs argues that transatlantic popular literature was critical for transforming the dinosaur into a cultural icon between 1880 and 1920.
