Effective Environmental Regulation Learning From Polands Experience:

Effective Environmental Regulation David P. Angel, Halina Szejnwald Brown, Patrick G. Derr, 2000-07-30 Challenging views prevalent among Western and Polish scholars this book explains Poland's surprising success in developing effective environmental and occupational regulatory systems while achieving remarkable socioeconomic growth despite the toxic legacy of the Communist era. It offers rich insights into the questions of how one can achieve both economic growth and improved environmental and safety protection and of the extent to which regulatory systems can be transferred across national and cultural boundaries. The authors develop a theoretical framework for assessing regulatory success then use it to analyze Poland's recent experience. Grounded in five case studies of recently privatized firms, the analysis also presents a new survey of privately owned firms, extensive policy and data analysis, and interviews with key policy leaders, entrepreneurs, and intellectuals. The book points to case-specific decision making and information richness as key dimensions of an effective regulatory system and considers in depth the extent to which information richness is culturally dependent and hence its portability as a policy tool. Addressing regulatory issues that are specific to both the United States and the international development community, the book makes a significant contribution to advancing the theoretical and conceptual frameworks used to explain the success or lack of success of regulatory systems. Government Anti-Corruption Strategies Yahong

Zhang, Cecilia Lavena, 2015-06-17 This book is designed to help students, researchers, and practitioners understand public corruption and anti-corruption practices from an international perspective. It describes the problems governments face in dealing with public corruption, outlines strategies that have and have not been implemented by the government, and explains why some countries have achieved great success with handling corruption and why others still struggle to do so. It contains useful knowledge about public corruption and strategic approaches to preventing, reducing, and combating corruption.

Environmental Protection in Transition John Clark, Daniel H. Cole, 2017-07-05 Clark and Cole provide an interdisciplinary look at environmental protection during Poland's transition to market democracy. The contributors are recognised experts in their fields, making this an authoritative volume combining the perspectives of economists, legal scholars, political scientists, and sociologists. **The Wiley-Blackwell Companion to Economic Geography** Trevor J. Barnes, Jamie Peck, Eric Sheppard, 2016-09-26 The Wiley-Blackwell Companion to Economic Geography presents students and researchers with a comprehensive overview of the field, put together by a prestigious editorial team with contributions from an international cast of prominent scholars. Offers a fully revised, expanded, and up-to-date overview following the successful and highly regarded Companion to Economic Geography published by Blackwell a decade earlier, providing a comprehensive assessment of the field. Takes a prospective as well as retrospective look at the field, reviewing recent developments, recurrent challenges, and emerging agendas. Incorporates diverse perspectives in terms of specialty, demography, and geography of up and coming scholars, going beyond a focus on Anglo-American research. Encourages authors and researchers to engage with

and contextualize their situated perspectives Explores areas of overlap dialogues and potential engagement between economic geography and cognate disciplines

Change and Continuity in Poland's Environmental Policy

Restoring Cursed Earth Matthew R. Auer, 2005-11 Among the most costly and complicated chapters in the former Eastern bloc countries transitions to democracy is the clean up and restoration of the environment Even as Communist era environmental problems fade in significance such as pollution from heavy industry new threats have emerged Urban sprawl increasing pollution from mobile sources and other problems familiar to Western European citizens now plague the East These problems are compounded by the lack of transparency and accountability in former Eastern bloc environmental regulatory institutions and the general weakness of environmental authorities and nongovernmental organizations vis vis powerful pro development interests Restoring Cursed Earth considers how rule making sanctions incentives and programs shape environmental protection efforts and whether and to what extent these emerging policy structures are promoting environmental well being for citizens in Russia the Czech Republic Hungary Romania and Estonia In addition informal institutions such as illegal and corrupt acts language and ties of affection between family and friends are explored as key determinants of environmental reforms

The Theory and Practice of Command and Control in Environmental Policy Peter Berck, 2018-01-12 This title was first published in 2003 Economists have had increasing success in arguing the merits of market based approaches to environmental problems By making polluting expensive market based approaches provide polluters with incentives to clean up rather than mandates to stop polluting These approaches include pollution taxes transferable emissions permits and subsidies for pollution abatement The purpose

of this volume is to explore the situations where Command and Control CAC may not be all bad and in fact might even have some advantages over market based instruments MBI

Europeanization of Environmental Policy in the New Europe
Mats Braun, 2016-04-22 Prior to the European Union EU 2004 2007 enlargement there were several predictions that this event would hamper progressive decision making within the EU on environmental policy It was believed that the new member states had adopted EU rules as a consequence of the EU s conditionality and consequently they would rather slow down the reform speed in the field after accession In this book Mats Braun offers an up to date account of how post communist member states have handled policy initiatives in the field of environmental policy after accession Using detailed case studies of how Bulgaria the Czech Republic Poland and Romania dealt with two different EU policy initiatives REACH and the Climate Energy Package he explores whether social norms and the process of socialization can help us understand why the track record of new member states in the area of environmental policy is more varied than was originally envisaged prior to enlargement

Poland
Gordon Hughes, Julia Bucknall, 1999 The prospect of joining the European Union defines much of Poland s current policy agenda The political and economic consensus in favor of joining the EU as quickly as possible is very strong and indeed most of the adjustments required are likely to be in Poland s immediate interest However the changes required to comply with EU directives in the environment sector involve sustained high levels of investment and significant uncertainty about the timing and nature of the associated benefits The European Commission s Opinion on Poland s application for EU membership acknowledges the severity of the environmental problems in Poland and comments on the challenges the country will have to face especially in the areas of wastewater treatment and air pollution The Opinion concludes that while full transposition of the environmental acquis in Poland could be expected in the medium term effective compliance with a number of pieces of legislation would require sustained high levels of investment and considerable administrative effort Full compliance in areas

such as drinking water and certain aspects of waste management could be achieved only in the long term and will necessitate increased levels of public and private investment This paper aims to address some of the issues involved in planning compliance with EU environmental directives The paper has three principal objectives Highlight major issues that Poland is likely to face in implementing the requirements Estimate the total costs of compliance for the public sector in certain key sectors and outline possible options for reducing those costs and Assess where the burden of those costs is likely to fall and the options for financing the investments
