CARE AND EDUCATION Dr. Rakheebrita Biswas, Dr. Sreeparna Chowdhury, Dr. Pranay Pandey, Dr. Sourav Kumar Roy, 2025-09-13 *Lives on the Boundary* Mike Rose, 2005-07-26 The award-winning account of how America's educational system fails its students and what can be done about it. Remedial, illiterate, intellectually deficient—these are the stigmas that define America's educationally underprepared. Having grown up poor and been labeled this way, nationally acclaimed educator and author Mike Rose takes us into classrooms and communities to reveal what really lies behind the labels and test scores. With rich detail, Rose demonstrates innovative methods to initiate problem students into the world of language, literature, and written expression. This book challenges educators, policymakers, and parents to re-examine their assumptions about the capacities of a wide range of students. Already a classic, *Lives on the Boundary* offers a truly democratic vision, one that should be heeded by anyone concerned with America's future. A mirror to the many lacking perfect grammar and spelling, who may see their dreams translated into reality after all. Los Angeles Times Book Review. Vividly written, tears apart all of society's prejudices about the academic abilities of the underprivileged. New York Times. **Grassroots Social Action**

Charles V. Willie, Steven Ridini, David Willard, 2008 Willie and his colleagues analyze social action from the bottom up. The focus is on how people outside the traditional circuits of authority exercise power and how their actions relate to bureaucratic social action from the top down. Leveling the Playing Field David Marc, 2015-07-22 Leveling the Playing Field tells the story of the African American members of the 1969 70 Syracuse University football team who petitioned for racial equality on their team The petition had four demands access to the same academic tutoring made available to their white teammates better medical care for all team members starting assignments based on merit rather than race and a discernible effort to racially integrate the coaching staff which had been all white since 1898 The players charges of racial disparity were fiercely contested by many of the white players on the team and the debate spilled into the newspapers and drew protests from around the country Mistakenly called the Syracuse 8 by media reports in the 1970s the nine players who signed the petition did not receive a response allowing or even acknowledging their demands They boycotted the spring 1970 practice and Coach Ben Schwartzwalder a deeply beloved figure on campus and a Hall of Fame football coach nearing retirement banned seven of the players from the team As tensions escalated white players staged a day long walkout in support of the coaching staff and an enhanced police presence was required at home games Extensive interviews with each player offer a firsthand account of their decision to stand their ground while knowing it would jeopardize their professional football career They discuss with candor the ways in which the boycott profoundly changed the course of their lives In Leveling the Playing Field Marc chronicles this contentious moment in Syracuse University s history and tells the story through the eyes of the players who demanded change for themselves and for those who would follow them

Sharpes, 2020-09-10 The preparation of suitably qualified teachers is vital for political social and economic growth in developing countries Some major problems have been caused by the enormous growth in primary enrolment and by the need to train more teachers without reducing standards exacerbated by the fact that in many cases the structure of teacher education is still in its formative stages However these problems can lead to innovative options and solutions Originally published in 1988 this book reports on research and practice in teacher education around the world It examines for example what happens to teacher education at times of great social change or political unrest as in South Africa or Cyprus how programmes in for example Nigeria or China

approach minority education and how teachers are prepared for the teaching of indigenous populations such as the Saskatchewan Indians in Canada. These examples of international teacher education practice are presented within a specific national, regional, and cultural context and provide important perspectives on the traditional views of how teachers are and should be prepared and professionally maintained. The book will be of interest to all involved in teacher education, adult education, and curriculum design, as well as to students of development studies.

The Limits of Law-Based School Reform Todd A. DeMitchell, Richard Fossey, 1997. A confusing and contentious debate often surrounds law-based school reforms, lawsuits, regulations, statutes, and collective bargaining provisions. DeMitchell and Fossey argue that law-based reforms have not changed the fundamental character of the nation's schools. Although hundreds of law-based initiatives have been introduced, most have had little effect on learning. Law-based reform is an important and necessary strategy, but by itself, it is not enough to change the way children are schooled. Rational decision-making, which undergirds most law-based reform, can take us only part way to the schools our children deserve.
