Effective Schooling For Pupils With Emotional And Behavioural Difficulties:

Effective Schooling for Pupils with Emotional and Behavioural Difficulties John Visser, 2013-10-23 First Published in 1998 Increasing pressure and new demands on LEAs schools and their staff have led to an overall reduction in the number of special schools for children with EBD and a questioning of their place within the range of provision for these pupils Recent attention has also been drawn by HMCI to the number of these schools which have failed to pass the OFSTED inspection process This book is based on a national examination of special schools providing for pupils with EBD The authors identify factors associated with good practice and offer advice on how schools can become more effective in providing for the country's most troubled and challenging pupils They also highlight aspects of successful provision which can be applied in mainstream schools and pupil referral units

The Routledge International Companion to Emotional and Behavioural Difficulties Ted Cole, Harry Daniels, John Visser, 2012-10-12 Responding to disruptive or troubled pupils with emotional and behavioural difficulties EBD remains a highly topical issue The challenges these children present relate to wider issues of continuing political concern the perceived declining discipline in schools school and social exclusion the limits to inclusion for children with special needs increasing mental health difficulties in children youth crime and parenting skills It's little wonder that the EBD often known as BESD or SEBD category is one of the most common forms of SEN around the world This topical and exhaustively researched Companion examines the difficulties of defining EBD and the dangers of allocating this imprecise label to children Bringing together the work of contributors from fifteen countries and across four continents this book features the research of leading experts in the global field of EBD who discuss and debate educators' key concerns by looking at the overlaps between EBD ADHD and mental health difficulties outlining the types of appropriate schooling for children with EBD urging readers to look beyond pupils' challenging behaviour in order to understand and respond to the social biological and psychological causation

considering the key areas of assessment whole school and targeted approaches that help pupils with EBD in mainstream and in special settings outlining helpful work with families the crucial contribution of effective multi agency working and the importance of supporting and developing teachers who work with challenging pupils Containing contrasting views on controversial topics this Companion s approachable style makes it an essential reference book for academics policy makers practitioners educators and students who are working towards a higher degree in education
