study of the remains of the native religious literature of ancient Egypt which have come down to us has revealed the fact that the belief in magic that is to say in the power of magical names and spells and enchantments and formul and pictures and figures and amulets and in the performance of ceremonies accompanied by the utterance of words of power to produce supernatural results formed a large and important part of the Egyptian religion And it is certain that notwithstanding the continuous progress which the Egyptians made in civilization and the high intellectual development to which they eventually attained this belief influenced their minds and from the earliest to the latest period of their history shaped their views concerning things temporal as well as spiritual in a manner which at this stage in the history of the world is very difficult to understand **Egyptian Magic (Illustrated)** E.A.
