El Salvador, who Speaks for the People? Mario Gómez-Zimmerman, 1989      *Shattered Voices* Teresa Godwin Phelps, 2010-11-24 Following periods of mass atrocity and oppression states are faced with a question of critical importance in the transition to democracy how to offer redress to victims of the old regime without perpetuating cycles of revenge Traditionally balance has been restored through arrests trials and punishment but in the last three decades more than twenty countries have opted to have a truth commission investigate the crimes of the prior regime and publish a report about the investigation often incorporating accounts from victims Although many praise the work of truth commissions for empowering and healing through words rather than violence some condemn the practice as a poor substitute for traditional justice achieved through trials and punishment There has been until now little analysis of the unarticulated claim that underlies the truth commissions very existence that language in this case narrative stories can substitute for violence Acknowledging revenge as a real and deep human need *Shattered Voices* explores the benefits and problems inherent when a fragile country seeks to heal its victims without risking its own future In developing a theory about the role of language in retribution Teresa Godwin Phelps takes an interdisciplinary approach delving into sources from Greek tragedy to Hamlet from Kant to contemporary theories about retribution from the Babylonian law codes to the South African Truth and Reconciliation Report She argues that given the historical and psychological evidence about revenge starting afresh by drawing a bright line between past crimes and a new government is both unrealistic and unwise When grievous harm happens a rebalancing is bound to occur whether it is orderly and lawful or disorderly and unlawful *Shattered Voices* contends that language is requisite to any adequate balancing and that a solution is viable only if it provides an atmosphere in which storytelling and subsequent dialogue can flourish In the developing culture of ubiquitous truth reports Phelps argues that we must become attentive to the form these reports take the narrative structure the use of victims stories and the way a political message is conveyed to the citizens of the emerging democracy By looking concretely at the work and responsibilities of truth commissions *Shattered Voices* offers an important and thoughtful analysis of the efficacy of the ways human rights abuses are addressed      Congressional Record United States. Language and peace are in themselves incredibly complex concepts. They are simultaneously interpersonal in their function and effect as well as intimately personal in their experience. From everyday communication to the pragmatics of world diplomacy from embracing a foreign culture to embarking upon a journey of self awareness language and peace are inseparably intertwined. To reveal their myriad interconnections in local and global contexts is a limitless task nevertheless we attempt to bring you a few glimpses from far corners of the world. It is also a linguistic and postcolonial mission of this society and the book series to publish the voices of non native speakers of English. Decolonizing the academic enterprise is part of our commitment to diversity.
