The Agony of Argentine Capitalism Paul H. Lewis, 2009-06-22 This diagnostic history of Argentina's economic prostration is full of timely lessons for readers in the United States about how an irresponsible capitalist elite and cynical politicians can lead a wealthy nation to throw it all away. They say those who do not learn from history are bound to repeat it. Thus the importance of this book. The Agony of Argentine Capitalism From Menem to the Kirchners is the capstone of a magisterial trilogy exploring the reasons for Argentina's shocking reversal of development. In the early 20th century Argentina was a rising star. It was one of the world's ten richest countries on course to a place among the most advanced and prosperous liberal democracies in the world. Then in 1929 Argentina fell into an economic coma from which no political or military shock treatment has been able to rouse it. The collapse of Argentina's capitalist class has been so devastating that little support remains for free enterprise or free trade. Her fate poses an intellectual challenge for First World capitalist countries. As famed economist Paul Samuelson warned Argentina is the pattern no modern capitalist may face without crossing himself and saying There but for the grace of God.

**The United States and Argentina** Deborah Norden, Roberto Guillermo Russell, 2013-10-08 Historically Argentina has been one of the strongest most independent countries of Latin America. It seems odd then that Argentina should develop a foreign policy during the post Cold War period characterized by a strong allegiance to the United States. However the end of the bilateral world left the U.S. foreign policy much less focused at the same time that Argentine foreign policy became much more focused. For Argentina domestic changes especially economic and political instability encouraged the government to redefine U.S. Argentine relations from prior patterns of conflict and distrust in order to

improve the country's international image and attract foreign support Covering two decades of history this book seeks to explain for the first time the reasons for the emergence of a strong friendship between the United States and Argentina Beginning with the history of U S Argentine relations up until the end of the Cold War the text then considers changes in The international political system The nature of domestic politics and their influence on foreign policy making in both countries Recent issues in U S Argentine relations The United States and Argentina sets out to explore the nature of U S Argentinean relations by concentrating on the issues which have shaped and stood out in the dialogue between the two countries and how this shifting relationship has been played out in international institutions This will be the fourth in our Contemporary Inter American Relations Series

Enforcing the Rule of Law Enrique Peruzzotti, Catalina Smulovitz, 2006-04-07 Reports of scandal and corruption have led to the downfall of numerous political leaders in Latin America in recent years What conditions have developed that allow for the exposure of wrongdoing and the accountability of leaders Enforcing the Rule of Law examines how elected officials in Latin American democracies have come under scrutiny from new forms of political control and how these social accountability mechanisms have been successful in counteracting corruption and the limitations of established institutions This volume reveals how legal claims media interventions civic organizations citizen committees electoral observation panels and other watchdog groups have become effective tools for monitoring political authorities Their actions have been instrumental in exposing government crime bringing new issues to the public agenda and influencing or even reversing policy decisions Enforcing the Rule of Law presents compelling accounts of the emergence of civic action movements and their increasing political influence in Latin America and sheds new light on the state of democracy in the region

Alfonsín. Mitos y verdades del padre de la democracia Óscar Muño, 2013-09-30 Mitos y verdades del padre de la democracia Puntero y estadista a la vez tipificar a Raúl Alfonsín es tan difícil y fascinante como el mismo personaje Podrá tanto dialogar en pie de igualdad con Bill Clinton o con Felipe González como involucrarse en la conformación de una lista partidaria en el distrito más pequeño de la provincia de Buenos Aires Quienes lo conocieron revelan en este libro un hombre en la intimidad familiar y en el ruedo político Descuidado con las

finanzas domésticas audaz a la hora de trazar su propio camino partidario decidido en la defensa del régimen democrático comprometido en la protección de los derechos humanos durante la dictadura. Tras levantar su voz para rechazar la recuperación de las islas Malvinas y exigir la restauración democrática luego de la caída de Puerto Argentino derrotado por primera vez al peronismo en las urnas. Valiéndose de numerosos diálogos y testimonios de amigos familiares conocidos y adversarios el periodista Oscar Muiro reconstruye la personalidad de un líder decisivo en la Argentina de las últimas décadas del siglo pasado cuya influencia sigue presente aun años después de su muerte.

*Party Brands in Crisis* Noam Lupu, 2016-01-15 *Party Brands in Crisis* offers a new way of thinking about how the behavior of political parties affects voters attachments.

*Mobilizing Resources in Latin America* O. Sanchez, 2011-07-04 This book seeks to expand analytically on standard institutionalist accounts of taxation by bringing into the explanatory framework the importance of institutional strength not just design as well as informal institutions in addition to formal ones for policy reform.

Crítica de las ideas políticas argentinas Juan José Sebreli, 2011-04-01 Sebreli enfrenta en este libro temas como el liberalismo conservador el nacionalismo y el Che Guevara. Analiza cada uno de ellos con una fervorosa neutralidad intelectual y logra por lo tanto inventariar y evaluar un complejo conjunto de avances y regresos de decisiones e inercias de moderados éxitos y apabullantes fracasos que llevan siglos. Sebreli traza un panorama completo de las ideas del siglo XX en la Argentina y descubre as continuidades y rupturas que otros intelectuales y otras escuelas de pensamiento han pasado por alto. Interroga ideas personajes estilos y circunstancias políticas e históricas y produce un efecto a la vez torrencial y definitivo. El país promisorio que llega hasta los treinta y la nación decadente que desde entonces empieza a hacerle sombra tienen el mismo origen y el mismo destino. La compleja red de arrogancia e inconclusiones que empuja al discurso y frustra los más fervorosos anhelos también. Estamos ante un fenómeno que solo un observador acostumbrado a ciertas falsas singularidades y ciertas imperceptibles semejanzas puede detectar.

Camino al colapso Julián Zicari, 2020-05-15 Qué significó el año 2001 para la Argentina. Cómo se desató ese gigantesco vendaval. Estas son algunas de las preguntas centrales que se intentan responder en *Camino al colapso*, una radiografía exhaustiva de la mayor crisis argentina de la historia. Este libro analiza los diferentes conflictos sociopolíticos ocurridos durante los últimos años de la convertibilidad. Estudia cómo operaron las disputas entre actores, agentes e instituciones. Indaga sobre las dinámicas partidarias y los liderazgos al interior del peronismo, el Frepaso, el radicalismo y la Alianza. Repasa las luchas de las clases populares concentrando la atención especialmente en los grupos piqueteros. Y evalúa las contradicciones económicas del uno a uno que culminaron en el antagonismo dolarización/devaluación. En suma, se trata de una tesis sobre un orden social en decadencia que hizo del país una sociedad estallada. *Camino al colapso* es entonces el trabajo más completo sobre la crisis del 2001 al combinar un abordaje histórico económico político y sociológico. Y como tal va camino a convertirse en un clásico.

*Desarticulación y hegemonía* Patricia Bullrich, 2014 El sistema político argentino presenta un panorama atípico y plagado de interrogantes. Sin embargo, un análisis pormenorizado

permite aprehender actitudes y prácticas que se reiteran con una sistematicidad sorprendente El correcto diagnóstico de estas particularidades constituye un requisito indispensable para resolver los problemas que enfrenta la sociedad Para comprender a un nivel profundo este paradigma de poder que se reproduce a sí mismo la autora se remonta a la estructura de partidos desde principios del siglo XX para luego concentrarse en el período 1999-2007

**Las penas y las vaquitas** Teresa Raccolin, María Inés Fernández, Horacio Gaggero, Hugo Quinterno, 2012 Este libro estudia la ganadería vacuna argentina entre 1974 y 2007 un segmento de nuestra historia en que más allá de la existencia de años de crecimiento la visión de largo plazo sobre el desempeño de la economía nacional deja un signo general negativo El objetivo de esta obra no es discutir acerca de esa declinación sino inscribir en ella un retroceso del sector bovino que no solo acompaña la mala performance de los demás factores productivos sino que incluso lo hizo a un ritmo más acelerado En el período examinado la ganadería bovina sufrió un marcado retraimiento un desplazamiento territorial de la actividad cambios tecnológicos y productivos transformaciones en los mercados mundiales y competencias externas e internas que presionan sobre la actividad Hoy se produce más carne por hectáreas en tierras menos fértiles pero las existencias vacunas no llegan a los niveles de cuatro décadas atrás su principal enemigo continúa siendo una baja tasa de extracción de sus rodeos Asimismo el consumo nacional de carne vacuna bajó un 40% mientras creció el de carnes sustitutas el valor de sus exportaciones representan en la actualidad menos del 5% del ingreso obtenido por las exportaciones de soja y su aporte al PBI se ubica en un reducido 0,5%
