Latin American Writers on Gay and Lesbian Themes David William Foster, 1994-11-07 Gay and lesbian themes in Latin American literature have been largely ignored This reference fills this gap by providing more than a hundred alphabetically arranged entries for Latin American authors who have treated gay or lesbian material in their works Each entry explores the significance of gay and lesbian themes in a particular author's writings and closes with a bibliography of primary and secondary sources The figures included have a professed gay identity or have written on gay or lesbian themes in either a positive or negative way or have authored works in which a gay sensibility can be identified The volume pays particular attention to the difficulty of ascribing North American critical perspectives to Latin American authors and studies these authors within the larger context of Latin American culture The book includes entries for men and women and for authors from Latin American countries as well as Latino writers from the United States The entries are written by roughly 60 expert contributors from Latin America the U S and Europe

Ciudad, género e imaginarios urbanos en la narrativa latinoamericana Lucía Guerra, 2014 No obstante el orden implementado en la ciudad por su diseño geométrico en ella transitan y fermentan los signos de la dispersión heterogénea En una contigüidad que burla todo intento de sistematización coexisten diversas temporalidades y diferencias de carácter social y genérico La ciudad en su trama densa y compleja se niega a ser dicha y aquellos que la habitan la redicen y contradicen desde su propia subjetividad en una red rica urbana que fragmenta y modifica la cartografía oficial Para una perspectiva masculina la ciudad es alegoría de la nación con sus centros y periferias de la pobreza mientras una subjetividad homosexual hace de los lugares convencionales escenarios del deseo Por otra parte la casa en el imaginario de las mujeres es sitio de transgresión y lugar de una historia otra en los márgenes de la historia oficial Dentro de un contexto histórico que va de la ciudad colonial a la ciudad posmoderna en este libro se analizan imaginarios urbanos que ponen en evidencia no sólo la importancia del factor genérico sino también el valor referencial de la ciudad con respecto a la nación y a la memoria
