El Porvenir De Una Revuelta:

El Porvenir de la Revuelta Julia Kristeva, 2001-10 La revuelta en el sentido etimológico y proustiano del término constituye el eje de las reflexiones desarrolladas en este libro que se refieren a la visión psicoanalítica de la libertad al matricidio implicado por el abandono de la lengua natal y al extranjero como traductor Asimismo la autora efectúa aclaraciones respecto de algunos temas de su obra la intertextualidad la distinción entre lo semiótico y lo simbólico lo abyecto y la abyección y la extraeza

Representaciones críticas en el sistema sexo/género. Entre lo transnacional y lo local Martínez Carrasco, Robert, Villanueva Jordán, Iván Alejandro, 2023-03-01 El presente volumen monográfico surge de una iniciativa por recuperar la noción del género como un hecho semiótico y material vivido y encajado mediante sistemas y tecnologías de representación A través de sus contribuciones y bajo un prisma optimista el volumen propone que la crítica académica tiene todavía espacios de acción en la exploración e interpretación de diversos artefactos culturales En esta exploración se hace uso de muchos alternativas que permiten pensar las identidades locales y globalizadas negociar la propia identidad y habilitar espacios de recepción que cuestionen el statu quo Las once contribuciones reunidas por tanto se nutren de metodologías críticas feministas y queer metodologías bastardas y tecnologías de la subversión para explorar e investigar la realidad social y cultural respecto al sistema sexo género entendiendo la igualdad de género objeto último de la colección EMIG como un espacio sociohistórico atravesado por lo lingüístico lo económico y lo político Un espacio en definitiva que es de todo menos inocuo si tenemos en cuenta las consecuencias que las tecnologías del género pueden llegar a tener en quienes somos y en nuestra vida diaria

Cognitive Psychotherapy Toward a New Millennium Tullio Scrimali, Liria Grimaldi, 2012-02-02 In the roughly two decades since Aaron T Beck published the now classic Cognitive Therapy of Depression and Michael J Mahoney declared the Cognitive Revolution much has happened What was proposed as the cognitive revolution has now become the zeitgeist and Cognitive Therapy CT has grown exponentially with each passing year A treatment model that was once seen as different strange or even alien is now commonplace In fact many people have allied themselves with CT claiming that they have always done CT Even my psychoanalytic colleagues have claimed that they often use CT After all they say Psychoanalysis is a cognitive therapy Cognitive Therapy or Cognitive Psychotherapy has become a kaleidoscope model of treatment with influences coming from many sources Some of these contributory streams have been information processing behavior therapy Constructivist psychology and dynamic psychotherapy Each of these sources have added color shading and depth to the CT model What was originally uni-dimensional in terms of the CT focus on depression has become multidimensional as the CT model has been applied to virtually every patient population treatment setting and therapy context CT must now be seen as a general model of psychotherapy that with modifications can be applied to the broad range of clinical problems and syndromes What has tied these various applications of CT together is the emphasis on a strong grounding in cognitive theory a commitment to empirical support and a dedication to broadening the model

Fernando Vallejo y la autoficción.

Coordenadas de un nuevo género narrativo Diaconu, Diana, 2014-12-04 En este trabajo magistral Diana Diaconu descifra la apuesta del escritor antioqueño Fernando Vallejo por el género de la autoficción como una toma de posición central en el campo literario colombiano de la década del ochenta A diferencia de los análisis usuales sobre la obra de Vallejo Diaconu concibe la dimensión provocadora de su escritura como el rasgo definitorio de su toma de posición como una reacción crítica frente a la modernidad que dialoga con la tradición del pensamiento heterodoxo de la Antigüedad clásica y representa una postura crítica y política En su análisis la obra y la vida de Fernando Vallejo lo sitúan en una larga y sólida tradición del pensamiento crítico antiidealista constituido a contracorriente del discurso oficial **Alteridades de la feminidad**

Translating Asymmetry - Rewriting Power Ovidi Carbonell i Cortés, Esther Monzó-Nebot, 2021-08-15 The relevance of translation has never been greater The challenges of the 21st century are truly global and societies are required to manage diversities like never before Cultural and linguistic diversities cut across ideological systems those carefully crafted to uphold prevailing hierarchies of power making asymmetries inescapable Translation and interpreting studies have left behind neutrality and have put forward challenging new approaches that provide a starting point for researching translation as a cultural and historical product in a global and asymmetrical world This book addresses issues arising from the power vested in and arrogated by translation and interpreting either as instruments of change or as tools to sustain dominant structures It presents new perspectives and cutting edge research findings on how asymmetries are fashioned woven upheld experienced confronted resisted and rewritten through and in translation This volume is useful for scholars looking for tools to raise awareness as to the challenges posed by the pervasiveness of power relations in mediated communication It will further help practitioners understand how asymmetries shape their experiences when translating and interpreting

Postcapital Iván de la Nuez, 2022-12-01 Las críticas que aparecen en Postcapital Crítica del futuro fueron publicadas por Iván de la Nuez durante unos seis años y recorren el tránsito entre el siglo XX y el siglo XXI Aparecidas en el suplemento libros de El Periódico de Catalunya interrogan las diferentes alternativas del pensamiento contemporáneo y se desplazan desde el impacto causado por el derribo del muro de Berlín hasta el cambio suscitado por el atentado a las Torres Gemelas El recorrido que traza Postcapital involucra pues conceptos como poscomunismo terror nuevas tecnologías nuevo orden económico la era del

imperio la clonación nuevas formas poscoloniales la renovación de la antropología urbana o la tercera vía El espectro de los pensadores visitados en Postcapital cubre casi todas las variables políticas de la poca global Y si en algo coinciden estos escritores es en la conclusión de que el futuro ha llegado es una dimensión que ya está con nosotros El porvenir despierta por igual ilusión y desasosiego esperanza y temor Por eso mismo además de desearlo o temerlo merece también alojar su crítica entre otras cosas porque que esa crítica incluye al presente que lo construye La imagen justa Ana María Amado,2009

Escaramuzas Fernando Castro Flórez,2003 Tras los atentados del 11 de septiembre de 2001 las consideraciones excursivas sobre la violencia la neomilitarización lo vomitivo o la dominación en que se produce el sujeto intentan asediar la conflictividad del arte contemporáneo sometido a un proceso de bunkerización frente al que podría desplegarse la concepción del arte como una cripta en la que puede protegerse un bloque de realidad *Más acá, o más allá: del cambio, lo nuevo y la alternatividad en la teoría de los saberes sociales* Rodolfo Masías Núñez,2017-11-01 Este libro gira en torno a tres problemas esenciales no solo para los directamente interesados en la teoría sino también y sin lugar a dudas para todas las ciencias sociales y los más recientes proyectos cognitivo políticos que encarnan los estudios culturales los estudios poscoloniales y el giro descolonial además de la propuesta de Boaventura de Sousa Santos Entre sus capítulos están en juego el cambio teórico y sus límites que comprende otras cuestiones como la innovación y la necesidad de la renovación teórica el problema de la diferenciación teórica es decir el de la aparición de otras teorías distintas a las existentes en un momento dado y el revivido tema de lo alternativo y la alternatividad como respuesta a unos regímenes de hegemonía teórica que se darán en el mundo de la teoría Frente a estos como grupo de reflexión e investigación nos interesa desarrollar un punto de vista una especie de diagnóstico sobre el acontecer de la teoría no solo sobre el sector de las canónicas ciencias sociales sino sobre esos otros proyectos como los ya mencionados No dimos por hecho que no estaba pasando nada en las teorías y los teóricos impresiona que se fortaleció una vez que indagamos y discutimos más a fondo **Cartografías de género en la expresión artística**

contemporánea Cintia Gutiérrez Reyes,2024-08-02 Las cartografías compiladas en esta publicación abordan la cuestión de género desde prismas que evidencian la complejidad del panorama artístico cultural y social actual **Palabras en el cuerpo**

Laura Scarano,2007 **Corriente alterna** Octavio Paz,2000 Un libro de ensayos estructurado como este con una trabazón y una continuidad extremadas solo puede ser debido a la preocupación del autor por los acontecimientos de un presente que como el de hoy no deja que las raíces del futuro sean evidentes y por lo tanto hay que buscarlas y examinarlo todo paso a paso cosa a cosa pensamiento a pensamiento *Estética Posfundacional* , La pregunta por la potencia política del arte recorre los Siglos XX y XXI ES político el arte Pueden las artes alterar nuestras condiciones de experiencia articular una alternativa al imaginario capitalista alentar el cambio social A veces incómoda y a veces esperanzada la obstinada pregunta por la política del arte supone siempre un desafío filosófico fascinante pensar cómo interviene el régimen estético de las artes en la transformación de los cimientos de la esfera pública Este volumen recoge un conjunto de ensayos filosóficos que aspira a

definir este desafío bajo el nombre de estética posfundacional En la estela del pensamiento de Oliver Marchart las autoras y autores aquí reunidos abordan cuestiones como anarquía el disenso la función curatorial o el activismo artístico para comprender la potencia revolucionaria del arte En cuanto comprendemos que los fundamentos políticos de nuestras sociedades son históricos y materiales la reflexión estética es clave para cuestionar la violencia que subyace a nuestros sistemas políticos e imaginar una alternativa Todavía hoy el arte puede despertar conciencias y encarnar la vocación más poderosa que conocemos el deseo de cambiarlo todo *Teorizando desde los pequeños lugares* Almanza Hernández, Roberto, Pacheco Chávez, Víctor Hugo, 2020-09-30 Los pequeños lugares a los que nos referimos no son geográficos a pesar de que partan de una territorialidad dada sino que son ante todo políticos lugares desde los cuales se constituye una subjetividad intersubjetividad una identidad histórica no substancialista Son lugares donde el fondo histórico de la memoria actúa en el presente como elemento pedagógico y como herramienta de liberación En este libro y tratando de generar un diálogo simétrico desde los pequeños lugares o como dijeran otros desde los surcos globales hemos seleccionado a autores latinos y americanos que están pensando los temas de la raza la clase la discriminación la violencia la exclusión o las mismas maneras de pensar o de estructurar nuestro conocimiento **Entre el cuerpo (social) y las cuestiones de la carne** Alejandra Gabriele, 2025-01-28 Este libro trata sobre las condiciones históricas de producción de conocimientos científicos sociales en la Argentina de principios del siglo XX Considera en particular una de las tensiones que forman parte del conjunto de conflictos de la época aquella que se desencadena entre el movimiento positivista preocupado por producir conocimientos sobre las problemáticas sociales como parte de un proyecto que busca ordenar el espacio social en vistas de la organización nacional y la resistencia a ese orden identificada en esta ocasión con las acciones del movimiento anarquista tal como aparecen manifiestos en el conocimiento científico que colma las páginas de la revista *Archivos de Psiquiatría y Criminología* desde su primer número en 1902 hasta 1910 tres años de que dejara de publicarse Para ello se ha procedido a construir categorías teórico metodológicas dando lugar a una mirada epistemológica singular una visión epistemológica con sus procedimientos metodológicos propios que busca captar una experiencia del orden del instante tanto en la producción de conocimientos científicos sociales a principios del siglo XX como en el mismo proceso de producción de esta obra
