Knight, 2018-04-13 Who needs this book Anyone installing electrical wiring in a residence is required to comply with electrical Code rules to ensure safe and legal installation If the installation will be inspected technically all electrical installations of any size are required to be inspected it must pass inspection or the installer may need to rewire some of their job and pay for a re inspection This additional expense is often more than three times the cost of this book Electrical Code Simplified is the only book that can help you meet this tough standard Clear Straightforward Instruction This book speaks clearly to the point The legalese used in the Code is replaced with easily understandable explanations Never dry this instruction book is actually enjoyable to read Reliable and Proven With this book you will follow time proven instructions developed over many years by electrical contractors Electrical Code Simplified has been in publication for 50 years with a million copies in print Fast Answers An exhaustive index helps you to quickly find answers to technical questions and relevant Code rules Full Coverage Every step for partial wiring or whole home wiring is clearly indicated Starting with the basics like service size the book walks the reader through each step in wiring installation Code rules are also given beside each instruction so that every detail is clearly supported in regulations A large number of illustrations are used for clarity Code Regulations Instruction books which do not reference the appropriate Code standards can be misleading and dangerous Instructions within such books cannot be easily verified to ensure they are in fact safe or legal Electrical Code Simplified books have always provided Code rule references to ensure that your installation is safe legal and fully approvable on inspection **Electrical Code Simplified** P.S. Knight, 2015-03-01 Practical Interpretations and Applications of Electrical Code Rules Our Canadian Electrical Code is divided into five parts as follows Part 1 This is most familiar to us because it is the set of Rules we are required to apply daily in all our electrical work This is the standard normally adopted in part or in whole by the provincial authority in each province Once this set of Rules has been adopted it becomes the legal document which must be complied with and which cannot be altered by bulletin or directive Part II This is the minimum standard manufacturers of all electrical items must comply with in order to obtain a certification mark on their product The process of obtaining a certification mark is described in Section 2 page 5 We who install electrical wiring are always concerned and look for that certification mark which is recognized in Canada but we as installers do not apply this mark If the equipment does not already have a valid certification mark we may not connect it Part III This is the set of rules used to regulate overhead

power line construction It is the standard adopted by Provincial Authority that regulates electrical line construction Part IV This standard deals with magnetic interference cause by electrical installations Part V This standard regulates electrical installations in mines and above ground wiring directly associated with the mine **Canadian Books in Print** ,2003
