Electronic Elephant:

Tom Swift and His Electric Rifle, Or, Daring Adventures in Elephant Land Victor Appleton, 1911 **Zimbabwean Transitions** Mbongeni Z. Malaba, Geoffrey V. Davis, 2007 This collection of essays on Zimbabwean literature brings together studies of both Rhodesian and Zimbabwean literature spanning different languages and genres It charts the at times painful process of the evolution of Rhodesian Zimbabwean identities that was shaped by pre colonial colonial and post colonial realities The hybrid nature of the society emerges as different writers endeavour to make sense of their world Two essays focus on the literature of the white settler The first distils the essence of white settlers alienation from the Africa they purport to civilize revealing the delusional fixations of the racist mindset that permeates the discourse of the white man s burden in imperial narratives The second takes up the theme of alienation found in settler discourse showing how the collapse of the white supremacists dream when southern African countries gained independence left many settlers caught up in a profound identity crisis Four essays are devoted to Ndebele writing They focus on the praise poetry composed for kings Mzilikazi and Lobengula the preponderance of historical themes in Ndebele literature the dilemma that lies at the heart of the modern Ndebele identity and the fossilized views on gender roles found in the works of leading Ndebele novelists both female and male The essays on English language writing chart the predominantly negative view of women found in the fiction of Stanley Nyamfukudza assess the destabilization of masculine identities in post colonial Zimbabwe evaluate the complex vision of life and reality in Charles Mungoshi s short stories as exemplified in the tragic isolation of many of his protagonists and explore Dambudzo Marechera s obsession with isolated threatened individuals in his hitherto generally neglected dramas The development of Shona writing is surveyed in two articles the first traces its development from its origins as a colonial educational tool to the more critical works of the post 1980 independence phase the second turns the spotlight on written drama from 1968 when plays seemed divorced from the everyday realities of people s lives to more recent work which engages with corruption and the perversion of the moral order The volume also includes an illuminating interview with Irene Staunton the former publisher of Baobab Books and now of Weaver Press **A new universal etymological technological, and pronouncing dictionary of the English language** John Craig (F.G.S.), 1848 The Elephant's Ball Evelyne Johnson, 1977-01-01 Elephant holds a real dress up ball for all her animal friends **The ^ALiving Elephants** Raman Sukumar, 2003-09-11 This book pulls together the available information on both Indian and African elephants synthesizing the biology ecology behavior evolution and conservation of elephants and covering the history of human interactions with elephants There is no other braod treatment of the subject **A New Universal Etymological, Technological and Pronouncing Dictionary of the English Language** John Craig (Lexicographer), 1849 The Secret Elephants Gareth Patterson, 2012-09-28 The elephants of the Knysna forest have long been the subject of mystery and conjecture Over the years they have taken on an almost mythical quality with many doubting whether they existed at all In

1994 the local forestry department maintained that there was only one surviving Knysna elephant the seldom seen female known as The Matriarch The Knysna elephant was thus described as functionally extinct This was the official stance until September 2000 when forest guard Wilfred Oraai encountered and photographed a young bull from a distance of some thirty metres The question arose who was its mother And indeed who was its father In 2001 Gareth Patterson began an independent study of the Knysna elephant For the next seven years he covered thousands of kilometres on foot following ancient elephant paths through the dense Afromontane forest and the surrounding mountain fynbos He found abundant signs to suggest that far from dying out the Knysna elephants are quietly and secretly holding their own Patterson s fieldwork and his dna research in collaboration with conservation geneticist Lori Eggert established that at least five young females exist lending support to Patterson s growing evidence that the Knysna forest and its surroundings are home to a small herd of young elephants The Secret Elephants is the story of these remarkable animals that fought their way back from the brink of extinction without any help from humankind *SEE & CONTROL DEMONS & PAINS* Rizwan Qureshi,2013-01-10 Rizwan Qureshi is from Columbus Texas USA He writes all his personal knowledge experiences and 100 percent true information about demons pains painless diseases and cancer infection insects He writes pure truth and only those things in this and book 1 whatever he was dealing and experiencing by himself His source of knowledge is purely his own experiences with dealing with supernatural invisible demons different kind of invisible pains and painless diseases According to him cancer is a very easily treatable and curable disease As he sees it thousands of demons are residing in our houses around us According to him demons cannot perform any physical activity by themselves He explains that by nature demons are very arrogant and extremely negative The author suggested several practical ideas procedures and theories for common people medical and modern science on how they can learn and handle demons pains painless diseases and insects responsible for cancer by themselves The author is 100 percent sure that after reading his books everyone will be aware and will be able to control the invisible parallel world around them In this book he writes clear instructions for individuals on how they can communicate and interact with the demons around them how to make demons around them their friends and how to ask demons to do some stuff for them Author describes in detail how much stuff we can expect our demon friends to do for us Author writes very clear and very easy instructions for an individual once someone decides to learn how to communicate with demons He advices everyone to start practicing Emergency Department Operations and Administration, An Issue of Emergency Medicine Clinics of North America Joshua Joseph,Benjamin White,2020-07-16 This issue of Emergency Medicine Clinics guest edited by Joshua Joseph and Benjamin White focuses on Emergency Department Operations and Administration Topics include Emergency Department Operations Overview Queuing Theory and Modeling ED Resource Utilization Factors Affecting ED Crowding Staffing and Provider Productivity in the ED Patient Assignment Models in the ED ED Layout and Organization Lean Processes in the ED ED Observation and Alternatives to Admission Quality Assurance in the ED
