

An artistic illustration of a city street. On the left, a tall, leafy green tree stands next to a multi-story building with a grid-like facade. On the right, another multi-story building with large windows is visible, partially obscured by more greenery. In the foreground, several stylized figures are walking along a path: a person in a white shirt, a child in a purple dress, and a person in a grey suit. A green circular logo with the text 'URBAN DESIGN LAB' is positioned in the center of the image. A dark green banner with the text 'EVERYDAY URBANISM' spans across the middle of the scene.

**Everyday Urbanism** John Chase, Margaret Crawford, John Kaliski, 1999 Essays and photographic studies presented at Los Angeles Forum for Architecture and Urban Design **Hijacking Sustainability** Adrian Parr, 2012-02-10 How the sustainability movement has been co opted from ecobranding by Wal Mart to the greening of the American military The idea of sustainability has gone mainstream Thanks to Prius driving movie stars it's even hip What began as a grassroots movement to promote responsible development has become a bullet point in corporate ecobranding strategies In *Hijacking Sustainability* Adrian Parr describes how this has happened how the goals of an environmental movement came to be mediated by corporate interests government and the military Parr argues that the more popular sustainable development becomes the more commodified it becomes the more mainstream culture embraces the sustainability movement's concern over global warming and poverty the more sustainability culture advances the profit maximizing values of corporate

capitalism And the more issues of sustainability are aligned with those of national security the more military values are conflated with the goals of sustainable development Parr looks closely at five examples of the hijacking of sustainability corporate image greening Hollywood activism gated communities the greening of the White House and the incongruous efforts to achieve a sustainable army Parr then examines key challenges to sustainability waste disposal disaster relief and environmental refugees slum development and poverty Sustainability Parr says offers an alternative narrative of the collective good an idea now compromised and endangered by corporate military and government interests

**The Unreal Estate Guide to Detroit** Andrew Herscher, 2012-11-14 Intense attention has been paid to Detroit as a site of urban crisis This crisis however has not only yielded the massive devaluation of real estate that has so often been noted it has also yielded an explosive production of seemingly valueless urban property that has facilitated the imagination and practice of alternative urbanisms The first sustained study of Detroit's alternative urban cultures The Unreal Estate Guide to Detroit initiates a new focus on Detroit as a site not only of urban crisis but also of urban possibility The Guide documents art and curatorial practices community and guerilla gardens urban farming and forestry cultural platforms living archives evangelical missions temporary public spaces intentional communities furtive monuments outsider architecture and other work made possible by the ready availability of urban space in Detroit The Guide poses these spaces as unreal estate urban territory that has slipped through the free market economy and entered other regimes of value other contexts of meaning and other systems of use The appropriation of this territory in Detroit the Guide suggests offers new perspectives on what a city is and can be especially in a time of urban crisis

**Participatory Theatre and the Urban Everyday in South Africa** Alexandra Halligey, 2019-12-06 This book explores theatre and performance as participatory research practices for exploring the everyday of the city Taking an inner city suburb of Johannesburg South Africa as its central case study the book considers how theatre and performance might be both useful practical tools in considering the everyday city as well as conceptual lenses for understanding it The author establishes an understanding of space as ever evolving and formed through the ongoing relationship between things human and non human and considers how theatre and performance offer useful paradigms for learning about and working with city spaces As ephemeral embodied material artistic practices theatre and performance mirror the nature of everyday life The book discusses theatre and performance games and placemaking processes as offering valuable ways of discovering daily acts of place making and providing insights that more conventional research methods may not allow Yet the book also considers how seeing daily city life as a kind of performance a kind of theatre in its own right helps to further understandings of city spaces as ever evolving through complex webs of relationships This book will be of interest to academics academic practitioners and post graduate students in the fields of theatre and performance studies urban studies and cultural geography

**EVERYDAY URBANISM - EXPERIENCE OF URBAN SPACE FROM WALKERS PERSPECTIVE, AN ALTERNATIVE APPROACH TO URBAN PUBLIC REALM** KAVITA KULKARNI ,2021-04-08 **Everyday Equalities** Ruth Fincher, Kurt Iveson, Helga Leitner, Valerie Preston, 2019-08-13 A timely new look at coexisting without assimilating in

multicultural cities If city life is a being together of strangers what forms of being together should we strive for in cities with ethnic and racial diversity Everyday Equalities seeks evidence of progressive political alternatives to racialized inequality that are emerging from everyday encounters in Los Angeles Melbourne Sydney and Toronto settler colonial cities that established through efforts to dispossess and eliminate indigenous societies have been destinations for waves of immigrants from across the globe ever since Everyday Equalities finds such alternatives being developed as people encounter one another in the process of making a home earning a living moving around the city and forming collective actions or communities Here four leading scholars in critical urban geography come together to deliver a powerful and cohesive message about the meaning of equality in contemporary cities Drawing on both theoretical reflection and urban ethnographic research they offer the formulation being together in difference as equals as a normative frame to reimagine the meaning and pursuit of equality in today s urban multicultures As the examples in Everyday Equalities indicate much emotional labor combined with a willingness to learn from each other negotiate across differences and agitate for change goes into constructing environments that foster being together in difference as equals Importantly the authors argue a commitment to equality is not only a hope for a future city but also a way of being together in the present

Counterpreservation Daniela Sandler, 2016-12-15 In Berlin decrepit structures do not always denote urban blight Decayed buildings are incorporated into everyday life as residences exhibition spaces shops offices and as leisure space As nodes of public dialogue they serve as platforms for dissenting views about the future and past of Berlin In this book Daniela Sandler introduces the concept of counterpreservation as a way to understand this intentional appropriation of decrepitude The embrace of decay is a sign of Berlin s iconoclastic rebelliousness but it has also been incorporated into the mainstream economy of tourism and development as part of the city s countercultural cachet Sandler presents the possibilities and shortcomings of counterpreservation as a dynamic force in Berlin and as a potential concept for other cities Counterpreservation is part of Berlin s fabric in the city s famed Hausprojekte living projects such as the K pi Tuntenhaus and KA 86 in cultural centers such as the Haus Schwarzenberg the Schokoladen and the legendary now defunct Tacheles in memorials and museums and even in commerce and residences The appropriation of ruins is a way of carving out affordable spaces for housing work and cultural activities It is also a visual statement against gentrification and a complex representation of history with the marks of different periods the nineteenth century World War II postwar division unification on display for all to see Counterpreservation exemplifies an everyday urbanism in which citizens shape private and public spaces with their own hands but it also influences more formal designs such as the Topography of Terror the Berlin Wall Memorial and Daniel Libeskind s unbuilt redevelopment proposal for a site peppered with ruins of Nazi barracks By featuring these examples Sandler questions conventional notions of architectural authorship and points toward the value of participatory environments

**The Everyday Life of Memorials** Andrew M. Shanken, 2022-10-04 A timely study erudite and exciting about the

ordinary and oftentimes unseen lives of memorials. Memorials are commonly studied as part of the commemorative infrastructure of modern society. Just as often they are understood as sites of political contestation where people battle over the meaning of events. But most of the time they are neither. Instead they take their rest as ordinary objects, part of the street furniture of urban life. Most memorials are turned on only on special days such as Memorial Day or at heated moments as in August 2017 when the Robert E Lee monument in Charlottesville was overtaken by a political maelstrom. The rest of the time they are turned off. This book is about the everyday life of memorials. It explores their relationship to the pulses of daily life, their meaning within this quotidian context and their place within the development of modern cities. Through Andrew Shanken's close historical readings of memorials, both well known and obscure, two distinct strands of scholarship are thus brought together: the study of the everyday and memory studies. From the introduction of modern memorials in the wake of the French Revolution through the recent destruction of Confederate monuments, memorials have oscillated between the everyday and the not everyday. In fact, memorials have been implicated in the very structure of these categories. *The Everyday Life of Memorials* explores how memorials end up where they are, grow invisible, fight with traffic, get moved, are assembled into memorial zones, and are drawn anew into commemorations and political maelstroms that their original sponsors never could have imagined. Finally, exploring how people behave at memorials and what memorials ask of people reveals just how strange the commemorative infrastructure of modernity is.

 George Lewis, Benjamin Piekut, 2016. V 1: Cognitions, v 2: Critical theories.

*Cities After Crisis* Carlos Vazquez, 2021-09-30  
*Cities After Crisis* shows how urbanism and urban design is redefining cities after the global health, economic, and environmental crises of the past decades. The book details how these crises have led to a new urban vision from avantgarde modern design to an artisan aesthetic that calls for simplicity and the everyday from the sustainable development paradigm to a resilient vision that defends de-growth and the re-wilding of cities from a homogenizing globalism to a new localism that values what is distinctive and nearby from the privatization of the public realm to the commoning and self-governance of urban resources and from top-down to bottom-up processes based on the engagement and empowerment of communities. Through examples from cities around the world and a detailed look at the London neighbourhood of Dalston, the book shows designers and planners how to incorporate residents into the decision-making process, design inclusive public spaces that can be permanently reconfigured, reimagine obsolete spaces to accommodate radically contemporary uses, and build gardens designed and maintained by the community among other projects.
