History of Everyday Life in Twentieth-Century Scotland Lynn Abrams, 2010-02-28 Over the twentieth century Scots lives changed in fast dramatic and culturally significant ways By examining their bodies homes working lives rituals beliefs and consumption this volume exposes how the very substance of everyday life was composed tracing both the intimate and the mass changes that the people endured Using novel perspectives and methods chapters range across the experiences of work art and death the way Scots conceived of themselves and their homes and the way the old Scotland of oppressive community rules broke down from mid century as the country reinvented its everyday life and culture

This volume brings together leading cultural historians of twentieth century Scotland to study the apparently mundane activities of people's lives traversing the key spaces where daily experience is composed to expose the controversial personal and national politics that ritual and practice can generate. Key features: Contains an overview of the material changes experienced by Scots in their everyday lives during the course of the century. Focuses on some of the key areas of change in everyday experience from the way Scots spent their Sundays to the homes in which they lived from the work they undertook to the culture they consumed and eventually the way they died. Pays particular attention to identity as well as experience. King Range National Conservation Area, 2004. *The History of Everyday Life* Alf Ludtke, 2018-11-20. Alltagsgeschichte or the history of everyday life emerged during the 1980s as the most interesting new field among West German historians and more recently their East German colleagues. Partly in reaction to the modernization theory pervading West German social history in the 1970s practitioners of Alltagsgeschichte stressed the complexities of popular experience paying particular attention for instance to the relationship of the German working class to Nazism. Now the first English translation of a key volume of essays *Alltagsgeschichte: Zur Rekonstruktion historischer Erfahrungen und Lebensweisen* presents this approach and shows how it cuts across the boundaries of established disciplines. The result is a work of great methodological, theoretical and historiographical significance as well as a substantive contribution to German studies. Introduced by Alf Ludtke the volume includes two empirical essays: one by Lutz Niethammer on life courses of East Germans after 1945 and one by Ludtke on modes of accepting fascism among German workers. The remaining five essays are theoretical. Hans Medick writes on ethnological ways of knowledge as a challenge to social history. Peter Schöttler on mentalities, ideologies and discourses and Alltagsgeschichte. Dorothee Wierling on gender relations and Alltagsgeschichte. Wolfgang Kaschuba on popular culture and workers culture as symbolic orders and Harald Dehne on the challenge Alltagsgeschichte posed for Marxist Leninist historiography in East Germany. Everyday Postsocialism in Eastern Europe Jill Massino, Markus Wien, 2024-09-15. The collapse of state socialism ushered in dramatic political and economic change producing new freedoms and opportunities but also new challenges and disappointments. Focusing on laborers, professionals, youth, women, sexual minorities, foreign students and emigrants *Everyday Postsocialism in Eastern Europe* explores these multifaceted changes and people's varied experiences of them. The featured narratives complicate hegemonic representations of transformation revealing ruptures and continuities, progress and reversals. Highlighting the multi-directionality of change over the last thirty years the book reappraises 1989 as an epochal event for all. **African History through Sources: Volume 1, Colonial Contexts and Everyday Experiences, c.1850-1946** Nancy J. Jacobs, 2014-06-16. *African History through Sources* recounts the history of colonial Africa through more than 100 primary sources produced by a variety of actors: ordinary men and women, the educated elite and colonial officials. Including official documents as well as interviews, memoirs, lyrics and photographs the book balances coverage of the state and economy with attention to daily life, family life.

and cultural change Entries are drawn from all around sub Saharan Africa and many have been translated into English for the first time Introductions to each source and chapter provide context and identify themes African History through Sources allows readers to analyze change understand perspectives and imagine everyday life during an extraordinary time *Crisis and the Everyday in Postsocialist Moscow* Olga Shevchenko,2008-12-17 In this ethnography of postsocialist Moscow in the late 1990s Olga Shevchenko draws on interviews with a cross section of Muscovites to describe how people made sense of the acute uncertainties of everyday life and the new identities and competencies that emerged in response to these challenges Ranging from consumption to daily rhetoric and from urban geography to health care this study illuminates the relationship between crisis and normality and adds a new dimension to the debates about postsocialist culture and politics

Everyday Phenomenology Derek Mitchell,2012-11-30 No one who reads this book will ever see the world the same again Derek Mitchell s aim is to pursue phenomenology and therefore appearances obliquely in a number of areas Predominantly these are the appearances of houses landscapes places people and history but these specific studies coalesce into a more general theory about appearances place and time and thereby provide a phenomenology of the everyday In this pursuit the author brings together works of philosophy literature history and art in order to circumvent the apparent paradox of the ubiquity and inaccessibility of the everyday This makes the work wide ranging and extensive but by the end a delicate coherence and unity emerges from allowing the coming together of these different avenues of approach to appearances Philosophically speaking the author s guides through all of this are Martin Heidegger Hans Georg Gadamer and Gaston Bachelard with assistance notably from Descartes Hume Kant Hegel and Sartre although Mitchell endeavours to add some insights of his own as the book progresses Other significant contributions come from the works of W G Sebald Dennis Severs Rainer Maria Rilke Irene Nemirovsky the writing of David Hockney and some Dutch artists Everyday Objects; Or, Picturesque Aspects of Natural History ...
