Everyday Life Painting:

American Genre Painting Elizabeth Johns, 1991-01-01 American genre painting flourished in the thirty years before the Civil War a period of rapid social change that followed the election of President Andrew Jackson It has long been assumed that these paintings of farmers western boatmen and trappers blacks both slave and free middle class women urban urchins and other everyday folk served as records of an innocent age reflecting a Jacksonian optimism and faith in the common man In this enlightening book Elizabeth Johns presents a different interpretation arguing that genre paintings had a social function that related in a more significant and less idealistic way to the political and cultural life of the time Analyzing works by William Sidney Mount George Caleb Bingham David Gilmore Blythe Lilly Martin Spencer and others Johns reveals the humor and cynicism in the paintings and places them in the context of stories about the American character that appeared in sources ranging from almanacs and newspapers to joke books and political caricature She compares the productions of American painters with those of earlier Dutch English and French genre artists showing the distinctive interests of American viewers Arguing that art is socially constructed to meet the interests of its patrons and viewers she demonstrates that the audience for American genre paintings consisted of New Yorkers with a highly developed ambition for political and social leadership who enjoyed setting up citizens of the new democracy as targets of satire or condescension to satisfy their need for superiority It was this network of social hierarchies and prejudices and not a blissful celebration of American democracy that informed the look and the richly ambiguous content of genre painting

American Encounters Peter John Brownlee, 2012 Genre painting flourished in the U S during the mid 19th century These narrative scenes depicting the everyday activities of stock or typed characters captivated American audiences Delineating distinctly American characters often through the exploration of racial regional or class differences genre painting like landscape was often called upon as a vehicle for expression of cultural nationalism Two paintings from the Louvre represent the Dutch and English schools key sources on which genre painters in the U S drew in developing their own idiom These rich genre paintings alongside three outstanding American examples enable the exploration of a variety of interrelated themes including the development of character types confrontations between them the spaces of their confrontations the role of the senses as well as music and narrative and the graphic reproduction and dissemination of genre paintings in the form of prints Genre Painting and Everyday Life accompanies the first of a series of focused exhibitions collaboratively organized by the Musee du Louvre the Crystal Bridges Museum of American Art the High Museum of Art and the Terra Foundation for American Art

American Stories Helene Barbara Weinberg, Carrie Rebora Barratt, 2009 They also consider the artists responses to foreign prototypes travel and training changing exhibition venues and audience expectations The persistence of certain themes childhood marriage the family and the community the attainment and reinforcement of citizenship attitudes toward race the frontier as reality and myth and the process and meaning of making art underscores evolving styles and standards of storytelling

Divided into four chronological sections the book begins with the years surrounding the American Revolution and the birth of the new republic when painters such as Copley Peale and Samuel F B Morse incorporated stories within the expressive bounds of portraiture During the Jacksonian and pre Civil War decades from about 1830 to 1860 Mount Bingham Lilly Martin Spencer and others painted genre scenes featuring lighthearted narratives that growing audiences for art could easily read and understand

Dutch Seventeenth-century Genre Painting Wayne E. Franits,2004-01-01 The appealing genre paintings of great seventeenth century Dutch artists Vermeer Steen de Hooch Dou and others have long enjoyed tremendous popularity This comprehensive book explores the evolution of genre painting throughout the Dutch Golden Age beginning in the early 1600s and continuing through the opening years of the next century Wayne Franits a well known scholar of Dutch genre painting offers a wealth of information about these works as well as about seventeenth century Dutch culture its predilections and its prejudices The author approaches genre paintings from a variety of perspectives examining their reception among contemporary audiences and setting the works in their political cultural and economic contexts The works emerge as distinctly conventional images Franits shows as genre artists continually replicated specific styles motifs and a surprisingly restricted number of themes over the course of several generations Luxuriously illustrated and with a full representation of the major artists and the cities where genre painting flourished this book will delight students scholars and general readers alike

Jurriëns,2023-04-24 This book analyses the intersections between contemporary art and environmental activism in Indonesia Exploring how the arts have promoted ecological awareness from the late 1960s to the early 2020s the book shows how the arts have contributed to societal change and public and political responses to environmental crises This period covers

Indonesia's rapid urban development under the totalitarian New Order regime 1967-1998 as well as the enhanced freedom of expression, alternative development models and environmental problems under the democratic governments since 1998. The book applies the concept of activism to refer to the vital role of art in activism. It seeks to identify and contextualise both the potential and limits of environmental activism in Indonesia, a country whose vibrant art scenes and monumental social transformations provide a productive laboratory for exploring the power of creativity as a social and political change agent. It provides a comprehensive overview of contemporary art from Indonesia with an in-depth analysis of artists who seek to address and find solutions for some of the most pressing environmental issues of our times. With its detailed empirical approach to environmental art from Southeast Asia, this project fills in an important gap in the literature on art and activism. It is aimed at academics, students, artists, curators, policymakers, activists, and general readers with an interest in the environment, art history, and Indonesian culture, society, and politics. *An Eye for Art*, National Gallery of Art, 2013-09-01

Lavishly illustrated with hundreds of full-color images, this family-oriented art resource introduces children to more than 50 great artists and their work with corresponding activities and explorations that inspire artistic development, focused looking, and creative writing. This treasure trove of artwork from the National Gallery of Art includes, among others, works by Raphael, Rembrandt, Georgia O'Keeffe, Henri Matisse, Chuck Close, Jacob Lawrence, Pablo Picasso, and Alexander Calder, representing a wide range of artistic styles and techniques. Written by museum educators with decades of hands-on experience in both art-making activities and making art relatable to children, the activities include sculpting a clay figure inspired by Edgar Degas, drawing an object from touch alone inspired by Joan Miró's experience as an art student, painting a double-sided portrait with one side reflecting physical traits and the other side personality traits inspired by Leonardo da Vinci's *Ginevra de' Benci*, and creating a story based on a Mary Cassatt painting. Educators, homeschoolers, and families alike will find their creativity sparked by this art extravaganza. *Survey of China Mainland Press*, United States, Consulate General (Hong Kong, China), 1962-07

Materials, Practices, and Politics of Shine in Modern Art and Popular Culture, Antje Krause-Wahl, Petra Löffler, Anne Söll, 2021-06-03. Shine allures and awakens desire. As a phenomenon of perception, shiny things and materials fascinate and tantalize. They are a formative element of material culture, promising luxury, social distinction, and the hope of limitless experience and excess. Since the early twentieth century, the mass production, dissemination, and popularization of synthetic materials that produce heretofore unknown effects of shine have increased. At the same time, shine is subjectified as glamor and made into a token of performative self-empowerment. The volume illuminates genealogical as well as systematic relationships between material phenomena of shine and cultural philosophical concepts of appearance, illusion, distraction, and glare, bringing together renowned scholars from various disciplines. *Fuzzy Logic and Technology, and Aggregation Operators*, Sebastia Massanet, Susana Montes, Daniel Ruiz-Aguilera, Manuel González-Hidalgo, 2023-08-20. Modernism Ástráður Eysteinnsson, Vivian Liska, 2007. The two volume work *Modernism* has been awarded the prestigious 2008 MSA Book Prize. *Modernism* has constituted one of the most prominent fields of literary studies for decades. While it was perhaps temporarily overshadowed by postmodernism, recent years have seen a resurgence of interest in modernism on both sides of the Atlantic. These volumes respond to a need for a collective and multifarious view of literary modernism in various genres, locations and languages. Asking and responding to a wealth of theoretical, aesthetic and historical questions, 65 scholars from several countries test the usefulness of the concept of modernism as they probe a variety of contexts from individual texts to national literatures, from specific critical issues to broad cross-cultural concerns. While the chief emphasis of these volumes is on literary modernism, literature is seen as entering into diverse cultural and social contexts. These range from inter-art conjunctions to philosophical, environmental, urban and political domains including issues of race and space, gender and fashion, popular culture and trauma, science and exile, all of which have an urgent bearing on the poetics of modernity.

The Virtues and Vices in the Arts Shawn R. Tucker, 2015-01-22. The seven deadly sins are pride, envy, anger, sloth, gluttony, greed, and lust. The seven virtues are prudence, fortitude, temperance, justice, faith, hope, and love. This book brings all of them together and for the first time lays out their history in a collection of the most important philosophical, religious, literary, and art historical works. Starting with the Greco-Roman and Judeo-Christian antecedents, this anthology of source documents traces the virtues and vices tradition through its cultural apex during the medieval era and then into their continued development and transformation from the Renaissance to the present. This anthology includes excerpts of Plato's *Republic*, the Bible, Dante's *Purgatorio*, and the writings of Friedrich Nietzsche and C. S. Lewis. Also included are artworks from medieval manuscripts, paintings by Giotto, Veronese, and Paul Cadmus, prints by Bruegel, and a photograph by Oscar Rejlander. What these works show is the vitality and richness of the virtues and vices in the arts from their origins to the present. You can continue this book's conversation by visiting <http://www.virtuesvicesinthearts.blogspot.com>. There you can join conversations, find out more, and meet other scholars and artists interested in this vibrant tradition.
