

The background of the book cover is a complex, dense pattern of Romanesque art. It features a central figure, possibly a seated woman or a religious figure, rendered in a greenish-brown hue. This figure is surrounded by intricate, swirling golden-brown lines and patterns that resemble stylized foliage or a tapestry. In the upper left, there is a small, stylized flower with a red center. The overall style is characteristic of Romanesque manuscript illumination or tapestry.

Saverio Tomaiuolo,2010-10-05 This book is devoted to Mary Elizabeth Braddon s complex relationship with the three main Victorian literary genres the Gothic the Detective and the Realist novel Using Braddon s bestselling sensation fiction Lady Audley s Secret as a paradigmatic novel and as a haunting textual presence across her literary career this study provides a fertile critical reading of a wide range of Braddon s novels and short stories Through an analysis of Braddon s negotiations with Victorian narrative ideological and cultural issues this monograph offers readers a refreshing view of gender female identity and subjectivity the treatment of insanity questions related to technology and progress the impact of evolutionism and Darwinism the intersemiotic dialogue between pictorial art and novel writing the role of the female writer in the new literary market and the changing notion of capital in an increasingly fluid social context Braddon s manipulation of Victorian literary codes and conventions proves that she was something more than a mere sensation writer and that her primary role in the nineteenth century literary scene has to be reaffirmed Drawing on a wide range of textual materials and literary sources the book foregrounds Braddon s constant and sometimes ambivalent dialogue with her times and with ours as well

Queer Impressions Elaine Pigeon, 2013-11-05 Beginning with *The Portrait of a Lady* this book shows how in developing his unique form of realism James highlights the tragic consequences of his American heroine's Romantic imagination in particular her Emersonian idealism In order to expose Emerson's blind spot a lacuna at the very centre of his New England Transcendentalism James draws on the Gothic effects of Nathaniel Hawthorne and Edgar Allan Poe thereby producing an intensification of Isabel Archer's psychological state and precipitating her awakening to a fuller heightened consciousness Thus Romanticism takes an aesthetic turn becoming distinctly Paterian and unleashing queer possibilities that are further developed in James's subsequent fiction This book follows the Paterian thread leading to *The Author of Beltraffio* and *Th ophile Gauthier* and thereby establishing an important connection with French culture Drawing on James's famous analogy between the art of fiction and the art of the painter the book explores a possible link to the Impressionist painters associated with the literary circle mile Zola dominated It then turns to *A New England Winter* a tale about an American Impressionist painter and finds traces leading back to James's initiation pr miere The book closes with an exploration of the possible sources of Kate Croy's unspeakable father in *The Wings of the Dove* and proposes a possible intertext one that provides direct insight into the Victorian closet

Decameron and the Philosophy of Storytelling Richard Kuhns, 2005-05-11 In this creative and engaging reading Richard Kuhns explores the ways in which Decameron's sexual themes lead into philosophical inquiry moral argument and aesthetic and literary criticism As he reveals the stories many philosophical insights and literary pleasures Kuhns also examines Decameron in the context of the nature of storytelling its relationship to other classic works of literature and the culture of trecento Italy Stories and storytelling are to be interpreted in terms of a wider cultural context that includes masks metamorphosis mythic themes and character analysis all of which Boccaccio explores with wit and subtlety As a storyteller Boccaccio represents himself as literary pimp conceiving the relationship between storyteller and audience in sexual terms within a tradition that goes back as far as Socrates' conversations with the young Athenians As a whole Boccaccio's great collection of stories creates a trenchant criticism of the ideas that dominated his social and cultural world Addressed as it is to women who were denied opportunities for education the author's stories create a university of wise and culturally observant texts He teaches that comic religious sexual and artistic themes can be seen to function as metaphors for hidden and often dangerous unorthodox thoughts Kuhns suggests that Decameron is one of the first self

conscious creations of what we today call a total work of art Throughout the stories Boccaccio creates a detailed picture of the Florentine trecento cultural world Giotto Buffalmacco and other great painters of Boccaccio's time appear in the stories Their works and the paintings that surround the characters as they prepare to leave the plague-ridden city with their representations of Dante Aquinas and other thinkers are essential to understanding the ways the stories work with other works of art and illuminate and enlarge interpretations of Boccaccio's book

The Sacred Neuron John Bowker, 2005-02-25

Why do we think that things happen in the way that they do Why do we think that some things are beautiful and other things ugly Why do we think that some things are good and other things evil Why do we think that some things are true and other things false These are old and traditional questions In the past they have been answered by separating our emotional from our rational responses But recent work in the neurosciences suggests that the questions now deserve very different answers In his fascinating and original new book John Bowker shows that reason and emotion work much more closely together in forming human opinions and judgements than has previously been supposed This discovery has stunning implications for the increasingly dangerous relationship between different religions and cultures and also for the human sense of God *The Sacred Neuron* is a masterful survey of some key topics in science and religion which will be sure to amaze and delight the author's many admirers Whether goodness will survive modernity is one of the most urgent questions of our age In this lucid and erudite work John Bowker discovers the surprising outlines of an answer

Bryan Appleyard author and journalist Never was a book more timely for the world Just when it seems that moral absolutes have either been swept away or have staged a frightening and unyielding comeback John Bowker steps forward to explain how we can find some sure footing in the world of aesthetic and moral ambiguities Citing the latest scientific research and drawing on cultural references that range from Stravinsky to Bertrand Russell and from George Orwell to John Betjeman he offers us new insights into how we can claim something is beautiful or something is good Then with meticulous scholarship he traces the origin of religions in the human community and explains how and why the need for them persists *The Sacred Neuron* is a seriously impressive book

Joan Bakewell writer and broadcaster Scholarship of this quality is so rare particularly in the domain of science and religion Bowker's discussion of truth and its relevance to an understanding of the world's religions and the animosities between them is replete with a poignant wisdom born of his great understanding of so many religious traditions *The Sacred Neuron* is an eloquent testimony to the value of informed interdisciplinary reflection

John Hedley Brooke Andreas Idreos Professor of Science and Religion University of Oxford *The Sacred Neuron* is a rare mixture of intellectual religious aesthetic and ethical history and theology all enhanced by John Bowker's special compound of meticulous scholarship and deep faith The book is brave and broad Reading it mingles fascination with pleasure

Peter Hennessy Attlee Professor of Contemporary History Queen Mary University of London *The Sacred Neuron* is one of the first books to take seriously the impact of modern neuroscience on how our perception of the external world must affect our understanding of emotion rationality ethics and

religion With great charm and humour and with extraordinary breadth of scholarship Bowker shows how religious experience might be said to have meaning in the twenty first century His book will become a classic Mark Williams Professor of Clinical Psychology University of Oxford 2024 Johannes Frimmel,Christine Haug,Carsten Wurm,2024-12-02 Das Archiv f r Geschichte des Buchwesens AGB ist eine zentrale wissenschaftliche Zeitschrift f r die Buch und Buchhandelsgeschichte Das Publikationsprofil des AGB bilden Abhandlungen Editionen und Berichte zu allen Themen der buchhistorischen Forschung im deutschsprachigen Bereich und dar ber hinaus Dazu geh ren medien kultur sozial und geistesgeschichtliche wie auch technikgeschichtliche Perspektiven Catalog of the Avery Memorial Architectural Library of Columbia University: Portl - Rodf Avery Library,1968 Academy; a Weekly Review of Literature, Learning, Science and Art ,1908 The Poetical gazette the official organ of the Poetry society and a review of poetical affairs nos 4 7 issued as supplements to the Academy v 79 Oct 15 Nov 5 Dec 3 and 31 1910
