Historians against history: the frontier thesis and the national covenant in American historical writing since 1830 David W. Noble, 1965-01-01 **Everyman His Own Historian** Carl L. Becker, 1987 **The Paradox of Progressive Thought**

David W. Noble, 1958-01-01 The Paradox of Progressive Thought was first published in 1958 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions This book describes and analyzes an important aspect of American intellectual history the climate of opinion in which nine leaders of progressive thought in America in the late nineteenth and early twentieth centuries were important creators and spokesmen By closely examining the central ideas of these men Professor Noble presents an illuminating view of a significant phase of the liberal tradition in America At the same time he questions many of the generally accepted views about the philosophical basis of traditional liberalism and demonstrates the paradox of progressive thought The social philosophers whose writings and teachings he scrutinizes are Herbert Croly long time editor of the New Republic James Mark Baldwin psychologist and philosopher Charles H Cooley author of Social Organization F H Johnson theologian whose name was linked with Darwinism Henry Demarest Lloyd reformer and newspaperman who attacked the evils of monopoly in his book Wealth and Commonwealth Richard T Ely economist and early advocate of Christian socialism Simon N Patten whose work The Premises of Political Economy lifted him to fame Thorstein Veblen whose Theory of the Leisure Class is a household word today and Walter Rauschenbusch the Baptist clergyman who wrote Christianity and the Social Crisis and Christianity and the Social Order In addition there is extensive consideration of the thought and influence of Carl L Becker the noted historian and analyst of thought and philosophy in action **The**

Conservative Century Gregory L. Schneider, 2009 This concise history focuses on the development of American conservatism in the twentieth century up to the present Gregory L Schneider traces the course of a once reactionary movement opposed to progressive reform and the New Deal and describes how it came to advance alternative policies and programs that revolutionized the shaping of domestic politics foreign policy and economic policy Along the way he profiles such influential thinkers as William F Buckley Frank Meyer Henry Regnery and Barry Goldwater He also details how the decline of liberalism after the 1960s helped conservatives gain political power and how their energized activism and organization culminated in the election of Ronald Reagan in 1980 Schneider also describes how the years since the Reagan Revolution have been decidedly mixed for American conservatives Literary Texts and the Roman Historian David Potter, 2005-07-22 Literary Texts and the Roman Historian looks at literary texts from the Roman Empire which depict actual events It examines the ways in which these texts were created disseminated and read Beside covering the major Roman

historical authors such as Livy and Tacitus he also considers the contributions of authors in other genres like Cicero Lucian Aulus Gellius Literary Texts and the Roman Historian provides an accessible and concise introduction to the complexities of Roman historiography *The Encarta Book of Quotations* Bill Swainson,2000-09-30 Here are 25 000 quotations drawn from the history politics literature religions science and popular culture of the world ranging from the earliest Chinese sages through Shakespeare to the present day

The Varieties of Historical Experience Stephan Palmié,Charles Stewart,2019-03-21 This book considers how history is not just objectively lived but subjectively experienced by people in the process of orienting their present toward the past It analyses affectivity in historical experience examines the digital mediation of history and assesses the current politics of competing historical genres The contributors explore the diverse ways in which the past may be activated and felt in the here and now juxtaposing the practices of professional historiography with popular modes of engaging the past from reenactments filmmaking viewing and historical fiction to museum collections and visits to historical sites By examining the divergent forms of historical experience that flourish in the shadow of historicism in the West this volume demonstrates how and how widely socially the understanding of the past exceeds the expectations and frameworks of professional historicism It makes the case that historians and the discipline of History could benefit from an ethnographic approach in order to assess the social reception of their practice now and into a near future increasingly conditioned by digital media and demands for experiential immediacy

Encyclopedia of Historians and Historical Writing Kelly Boyd,2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies

The Moving Image Peter B. Kaufman,2025-02-25 The definitive guidebook for using video in modern communication Video television film the moving image generally is today's most popular information medium Two thirds of the world's internet traffic is video Americans get their news and information more often from screens and speakers than through any other means The Moving Image is the first authoritative account of how we have arrived here together with the first definitive manual to help writers educators and publishers use video more effectively Drawing on decades as an educator publisher and producer MIT's Peter Kaufman presents new tools best practices and community resources for integrating film and sound into media that matters Kaufman describes video's vital role in politics law education and entertainment today only 130 years since the birth of film He explains how best to produce video distribute it

clear rights to it cite it and ultimately archive and preserve it With detailed guidance on producing and deploying video and sound for publication finding and using archival video and sound securing rights and permissions developing distribution strategies and addressing questions about citation preservation and storage across the broadest spectrum of platforms publications disciplines and formats *The Moving Image* equips readers for the medium's continued ascendance in education publishing and knowledge dissemination in the decades to come And modeled in part on Strunk and White's classic *The Elements of Style* it's also a highly enjoyable read

Utah Historians and the Reconstruction of Western History Gary Topping, 2003 Among historians of Utah and the American West few names have greater resonance than Bernard DeVoto Dale Morgan Juanita Brooks Wallace Stegner and Fawn Brodie Each of these writers made enduring contributions not only to our knowledge of the American West but also to our view of the region and its history In many ways their writing set the standard for scholarship and interpretation and their influence is still felt today Yet they were not flawless As Gary Topping explains in this the first comprehensive appraisal of their work each had serious shortcomings DeVoto and Stegner master storytellers distorted their histories with excessive use of literary and artistic techniques Morgan the thorough researcher failed to see larger contexts and interpretive possibilities Brooks courageous in finding damning new information on the Mountain Meadows massacre stopped short of drawing conclusions that might alienate her from her fellow Mormons and Brodie psychobiographer extraordinaire nonetheless succumbed to reading too much into the lives of her subjects based on her own emotions and conflicts All five writers experienced Mormon Utah in the formative stages of their lives and whether they wanted to or not fashioned their work on the American West under that indelible influence Topping shows ultimately how despite weaknesses each created exemplary models of diligent research and narrative elegance while establishing new traditions in western historical scholarship

Reconstructing History Elizabeth Fox-Genovese, Elisabeth Lasch-Quinn, 2019-10-25 In May 1997 a group of distinguished historians announced the formation of the Historical Society an organization that sought to be free of the jargon laden debates and political agendas that have come to characterize the profession Eugene Genovese President of the Society explained the commitment to form a new and genuinely diverse organization The Society extends from left to right and embraces people of every ideological and political tendency The Society promotes frank debate in an atmosphere of civility mutual respect and common courtesy All we require is that participants lay down plausible premises reason logically appeal to evidence and prepare to exchange criticism with those who hold different points of view Our goal to promote an integrated history accessible to the public From those beginnings the Society has grown to include hundreds of members from every level of the profession from Pulitzer prize winning scholars to graduate students across the ideological and political spectrum In this first book from the Historical Society several founding members explore central topics within the field the enduring value of the practice of history the sensitive use of historical records sources and archives the value of common standards and much more An engaging and challenging

work that will appeal to scholars students educators and the many public readers who have become lost in the culture wars
Reconstructing History is sure to generate the kind of civil reasoned debate that is a foundational goal of the Historical

Postmodern History Reader Keith Jenkins,1997 The Postmodern History Reader introduces students to the new points of
controversy in the study of history and provides a framework by which to understand postmodernism and a guide to explore
it further **The New Pragmatist Sociology** Neil L. Gross,Isaac Ariail Reed,Christopher Winship,2022-07-05 Pragmatist

thought is central to sociology However sociologists typically encounter pragmatism indirectly as a philosophy of science or
as an influence on canonical social scientists rather than as a vital source of theory research questions and methodological
reflection in sociology today In The New Pragmatist Sociology Neil Gross Isaac Ariail Reed and Christopher Winship
assemble a range of sociologists to address essential ideas in the field and their historical and theoretical connection to
classical pragmatism The book examines questions of methodology social interaction and politics across the broad themes of
inquiry agency and democracy Essays engage widely and deeply with topics that motivate both pragmatist philosophy and
sociology including rationality speech truth expertise and methodological pluralism Contributors include Natalie Aviles
Karida Brown Daniel Cefa Mazen Elfakhani Luis Flores Daniel Huebner Cayce C Hughes Paul Lichterman John Levi Martin
Ann Mische Vontrese D Pamphile Jeffrey N Parker Susan Sibley Daniel Silver Mario Small Iddo Tavory Stefan Timmermans
Luna White and Joshua Whitford **The Thinking Historian** Eric W. Sager,2025-01-27 What is history What are historians

doing when we create our histories The need for answers is more urgent than ever We live in an era when history is often
rejected or ignored and when all teachers of history confront formidable challenges In the culture of screen capitalism and
social media historical knowledge is evaded in an expanding present minded consciousness How can history be defended and
what is it that we are defending This book argues that history is a mode of thinking a form of imaginative reasoning with its
own informal logic In non technical language and using examples from important works of history the book defines core
elements in historical thinking These include contingency complexity temporality parts and wholes consilience perspectives
analogy and abduction These elements are subsumed into the concept of imaginative reasoning The overall argument echoes
the work of hermeneutic philosophers History is a disciplined imagination tempered and empowered by its forms of
reasoning It embraces ethical imperatives that the historian has a duty to declare Equipped with such understanding
historians may answer the many rejections of history and secure its place in our shared futures Selvages & Biases

Michael G. Kammen,1987 Winner of the 1973 Pulitzer Prize for history Kammen addresses three themes concerning the state

of historical inquiry in America Beginning with how history as a professional discipline has changed over the past century the book treats the relationship of the historian s craft to American nationalism the value of historical knowledge and the shifting attitudes of historians toward society Kammen appraises the significance of historiography as a measure of cultural change and shows how the past has been manipulated for social and ideological reasons and how memories of the national and regional past have conflicted with the realities of historical experience He also explains how traditional modes of interpreting the past have lost their cohesive force and why historians should pursue new approaches to the cultural history ISBN 0 8014 1924 7 24 95 Understanding Rosenstock-Huessy Norman Fiering, 2022-03-17 The contributions of Eugen Rosenstock Huessy 1888 1973 one of the most profound and original thinkers of the twentieth century span several disciplines in the humanities history philosophy sociology linguistics religion although his work is ultimately uncategorizable In 1933 immediately upon the ascent of Hitler he emigrated to the United States from Germany taught at Harvard for two years and then at Dartmouth College until 1957 His voice was prophetic urgent compelling and it remains relevant This collection of essays is by a retired professor of history who was a student of Rosenstock Huessy s in the 1950s and found his lecturing transformative It is not a nostalgic book however It is written with the conviction that Rosenstock Huessy still needs to be heard more urgently than ever for the betterment of humankind
