Everything That Rises Must Converge:

Everything That Rises Must Converge: Stories Flannery O'Connor, 1965-01-01 Flannery O'Connor was working on *Everything That Rises Must Converge* at the time of her death. This collection is an exquisite legacy from a genius of the American short story in which she scrutinizes territory familiar to her readers: race, faith, and morality. The stories encompass the comic and the tragic, the beautiful and the grotesque; each carries her highly individual stamp and could have been written by no one else. **Everything that Rises Must Converge**, 1984 **Everything That Rises Must Converge** Flannery O'Connor, 2020-06-02 *Flannery O'Connor's Everything that Rises Must Converge* Patricia Kane, 1965

Knapp, 2010-11-01 **A Reading of Flannery O'Connors "Everything that Rises Must Converge"**, 2013 Abstract *Everything that rises must converge* is a short story which without the aid of suspense that is often provoked in fiction by actions hanging on a bare thread in a whirling plot of intertwining and perhaps incredible events catches the readers' attention until the very last word. The plot of the story could not be any simpler: a young bachelor takes his overweight mother by bus to a reducing class, but before they reach the place, the mother changes her mind, heads back home, has a stroke, and is left by her helpless son dying or maybe dead as he goes to seek help. But parallel to the plot of events is a plot of revelation as the insignificantly banal happenings take place: an unfolding of character slowly emerges before the readers' eyes. The Body in Flannery O'Connor's Fiction Donald E. Hardy, 2007 This is a reading of physical obsession in O'Connor through linguistic and literary techniques. This work extends the innovative thesis that it is possible to grasp the central struggle between spirit and matter in O'Connor through a close quantitative examination of the interactions of grammatical voice and physical bodies in her texts. Bridging literary theory and linguistics, Hardy demonstrates that the many constructions in which the body parts of O'Connor's characters are foregrounded, either as subjects or objects, are grammatical manipulations of semantic variations on what linguists deem the middle voice, roughly indicating that the subject is acting upon himself or herself. Hardy combines computational and linguistic methodology to provide a productive approach to understanding O'Connor's use of the body and its parts in her explorations of the sacramental and the grotesque. Linguistic analysis of grammatical middle voice is coupled with quantitative analysis of body part words and the collocations in which they appear to present a new point of entrance to understanding O'Connor's stylistic manipulations of the body as central to

the rift between spirit and matter Through this method of reading O Connor Hardy makes a valuable contribution to the growing body of work that is introducing linguistic terminology and concepts into literary studies **Review of Everything that Rises Must Converge** James Franklin Farnham,1965 **Everything that Rises Must Converge** ,2012 *Novels and Arguments* Zahava Karl McKeon,1982 In this absorbing study the first comprehensive exploration of the rhetoric of the novel Zahava Karl McKeon investigates the complex interrelations of critical poetics grammars dialectics and rhetorics to devise a systematic means of dealing with the structure of prose works as communicative objects Using the vocabulary and conceptual resources of Aristotle and Cicero she pursues this exploration to discover the kinds of arguments that characterize novels to find a way of distinguishing novels from other discursive wholes and to discriminate different genres of the novel McKeon s arguments are supplemented by readings of a variety of texts including the novels and stories of Gunter Grass John Fowles Robert Coover and Flannery O Connor
