Cannon,2005 The author charts how Americans understanding of the pursuit of happiness has changed through the years as the nation itself has changed **Aging and the Meaning of Time** Susan McFadden,Robert Atchley,2006-05-03 As we confront our own mortality we might ask What has my long life meant and how have the years shaped me or How long must I suffer Such questions reflect time consciousness the focus of this classic volume The authors from diverse disciplines in gerontology act as guides in the exploration of the realms of time in later life and their meanings As they examine how the study of time can give new meanings to aging they also consider the religious and spiritual questions raised when human beings consider the temporal boundaries of life This volume honors Melvin Kimble's contributions to gerontology and represents a new direction
