

Breast self-exam

5 steps to know if Breast Cancer is lurking around.

- 1** Put your arms on the hips and examine your breasts in a mirror. Look for dimpling, puckering or bulging of the skin. Is there any redness, soreness, rash or swelling?
- 2** Raise your arms over your head and look for the same changes.
- 3** With your arms still over your head, look for any signs of fluid coming out of one of both nipples.
- 4** Lie down on your back. Use your right hand to feel your left breast. Keep your fingers flat and complete an outer circle. Then move in 1 inch toward the nipple and complete another circle. Keep repeating till you reach the nipple. You're looking for a lump. Repeat for the other breast.
- 5** Feel your breasts in the shower. It's easier when the skin is wet and slippery. Cover the same hand movements described in Step 4.

Found a lump or other breast changes? Don't panic. It could be many other things other than cancer. But it's best to check with your doctor without delay.
