debates about the sources or causes of a child killer's mindset. Some blame external triggers like video games, rock music, or pornography, while others argue the causes are deeper issues such as an underdeveloped brain, experiencing abuse, and neglect. The quest to uncover the causes of these crimes is ongoing, and how the American justice system should handle these young killers remains a controversy. This book assesses ten murder cases in modern American criminal history, examining the minds of the children who perpetrated them. Chapters compile decades of research on the psychology of child murderers in hopes of creating a more coherent understanding of why kids kill.

Murder Girl Lisa Renee Jones, L.R. Jones, 2018-07-20. It's Lilah Love's job to inhabit a killer's mind. The unapologetically tough FBI profiler is very comfortable there. But her latest case is making her head spin. It's a string of brutal assassinations carried out across the country, each tied to a mysterious tattoo. Body by body, she's followed the clues all the way back to her hometown. And every step of the way, the killer has been following her. Here, beneath the glamour of the privileged Hamptons community, is a secret long buried but never forgotten. It's bigger than Lilah. It's powerful enough to escape the reach of the FBI. And it's more personal than anyone can imagine. Because it's hiding in Lilah's own past. To fight it, she's forced to turn to her lethally tempting ex, Kane Mendez. He's an expert at bringing out Lilah's darkest impulses. If she plans to survive, she's going to need them.

Stop Teaching Our Kids To Kill, Revised and Updated Edition Lt. Col. Dave Grossman, Gloria DeGaetano, 2014-08-05. Completely revised and updated, a much needed call to action for every parent, teacher, and citizen to help our children and stop the wave of killing and violence gripping America's youth. Newtown, Aurora, Virginia Tech, Columbine. There is no bigger or more important issue in America than youth violence. Kids, some as young as ten years old, take up arms with the intention to murder. Why is this happening? Lt. Col. Dave Grossman and Gloria DeGaetano believe the root cause is the steady diet of violent entertainment kids see on TV in movies and in the video games they play, witnessing hundreds of violent images a day. Offering incontrovertible evidence based on recent scientific studies and research, they posit that this media is not just conditioning children to be violent and see killing as acceptable, but teaching them the mechanics of killing as well. *Stop Teaching Our Kids to Kill* supplies the statistics, interprets the copious research that exists on the subject, and suggests the many ways to make a difference in your home, at school, in your community, in the courts, and in the larger world. In using this book, parents, educators, social service workers, youth advocates, and anyone interested in the welfare of our children will have a solid foundation for effective action and prevention of future Columbines, Jonesboros, and Newtowns.
