Grant,2022-11-03 I must admit I am a people watcher I notice that out of all the cities and countries that I ve been to people basically do the same things The way things are done may be slightly different but the outcome is the same I notice that wherever you are in this world people will strive very hard to get whatever they want whether it is legal or not In other words please be ever so watchful Out of all things one thing to remember with people wherever you may go or may be know this you can t treat all people alike but you can treat all people right Chameleo Robert Guffey,2015-04-23 A mesmerizing mix of Charles Bukowski Hunter S Thompson and Philip K Dick Chameleo is a true account of what happened in a seedy Southern California town when an enthusiastic and unrepentant heroin addict named Dion Fuller sheltered a U S Marine who d stolen night vision goggles and perhaps a few top secret files from a nearby military base Dion found himself arrested under the ostensible auspices of The Patriot Act for conspiring with international terrorists to smuggle Top Secret military equipment out of Camp Pendleton The fact that Dion had absolutely nothing to do with international terrorists smuggling Top Secret military equipment or Camp Pendleton didn t seem to bother the military He was released from jail after a six day long Abu Ghraib style interrogation Subsequently he believed himself under intense government scrutiny and he suspected the subject of bizarre experimentation involving cloaking electro optical camouflage so extreme it renders observers practically invisible from a distance of some meters by the Department of Homeland Security Hallucination Perhaps except Robert Guffey an English teacher and Dion s friend tracked down and interviewed one of the scientists behind the project codenamed Chameleo experimental technology which appears to have been stolen by the U S Department of Defense and deployed on American soil More shocking still Guffey discovered that the DoD has been experimenting with its newest technologies on a number of American citizens A condensed version of this story was the cover feature of Fortean Times Magazine September 2013 **Into the Rabbit Hole** Michael Warren,2005-10 Ronald Reagan once said If anyone is afraid to stand up to clients the government and employers teachers or virtually any authority than know that all you are doing is feeding the crocodile hoping that he will eat you last Into The Rabbit Hole takes you on a journey into the state of your own mind and the mind of the beast that has deceived you Going in the hole your path will cross with the entities that

you have trusted in that guide your life Religious deception sacred bloodlines the cult mind secret societies government deception and our true origins as a species are recurring themes It is time that society awakens to the truth of their real existence and how they can escape from the hole Into The Rabbit Hole is your first step into the true reality you seek An intellectually challenging and stimulating read for all seekers of truth Once you have had a glimpse of what's in the hole the age old question of What Is Truth will be self evident

The Southern Rock Revival Jason T. Eastman, 2017-03-16 While some people find new opportunities in the postindustrial economy many working class men find their social and economic well being collapse as blue collar jobs are outsourced and offshored to the global labor market Faced with limited options to earn a living wage many of these blue collar workers are instead changing who they are embracing a deviant rebellious identity expressed by the contemporary southern rock revival musicians studied in this book Although loosely based in the traditional culture and lifestyle of the southeastern United States contemporary southernness has little to do with region but instead is a way to rebel from the very institutions blue collar men traditionally used as the basis of their masculine pride family education

employment military service and religion This contemporary form of southernness reflected in their music also involves deviance as many of these men adorn themselves with the highly controversial confederate flag binge drink alcohol brawl with one another and use drugs Combining interviews participant observation and a lyrical analysis this book explores these aspects of rebellious southernness through music as it exists in the ideal sense and as individual men try to live up to these subcultural ideals in their daily lives The southern rock revival is a new social movement carving out a place for an alternative way to live while simultaneously perpetuating stereotypes about poor men reinforcing social disadvantage and marginalization
