Evidence Of Personal Survival From Cross Correspondences Perspectives In Psychical Research:

Evidence of Personal Survival from Cross Correspondences Herbert Francis Saltmarsh,1975 **Introduction to Parapsychology** William Flexner,2004 **The Survival Hypothesis** Adam J. Rock,2014-04-04 Contemporary parapsychology tends to be preoccupied with ESP telepathy clairvoyance precognition and psychokinesis In contrast this cutting edge anthology assembles an international team of experts from the fields of psychology parapsychology philosophy anthropology and neuroscience to examine critically what is referred to as the survival hypothesis the tentative statement or prediction that some aspect of our personhood e g consciousness persists subsequent to the death of the physical body The appraisal of the survival hypothesis will be restricted to the phenomenon of mediumship that is humans who ostensibly communicate with the deceased The book has been divided into four main sections Explanation and Belief Culture Psychopathology and Psychotherapy Empirical Approaches The Present and Future The issue of postmortem survival is supremely relevant to us all because the human encounter with death is of course a certainty **An Introduction to Parapsychology, 5th ed.** Harvey J. Irwin,Caroline A. Watt,2007-03-07 This is a thoroughly updated and revised edition of our highly acclaimed university textbook on the science of parapsychology The objective of this book is to provide an introductory survey of parapsychologists efforts to explore the authenticity and bases of anomalous apparently paranormal phenomena It outlines the origins of parapsychological research and critically reviews investigations of extrasensory perception psychokinesis poltergeist phenomena near death and out of body experiences and the evaluation of parapsychology as a scientific enterprise Instructors considering this book for use in a course may request an examination copy here **Proceedings of the Society for Psychical Research** Society for Psychical Research (Great Britain),1915 List of members in v 1 19 21 24 **Journal of the American Society for Psychical Research** American Society for Psychical Research,1908 List of members in v 1 6 12 **Beyond the Threshold** Christopher M. Moreman,2008-09-18 In every culture throughout history people have asked the same fundamental question about what will happen to them when they die From the underworld to the light at the end of the tunnel beliefs and experiences of death abound And even though we cannot know for sure what happens to us after death our understanding of the afterlife can have a profound impact on how we live Beyond the Threshold is the first book to seriously examine the afterlife through the lens of both world religions and metaphysical experiences Christopher M Moreman includes an introduction to the afterlife beliefs of ancient cultures which are essential to understanding the roots of many modern ideas about death He examines the folklore and doctrines of major world religions including Judaism Christianity Islam Hinduism Buddhism Confucianism and Taoism He also discusses psychic phenomena across traditions such as mediums near death and out of body experiences and past life memories While ultimately the afterlife remains unknowable Moreman s unique in depth exploration of both beliefs and experiences can help readers reach their own understanding of the afterlife and how to live No other book in the field approaches the issue of the

afterlife from so many angles but Moreman weaves them skillfully together into an accessible and engaging book **Library of Congress Catalogs** Library of Congress,1978 Limitless Mind Russell Targ,2010-10-04 The psychic abilities of most humans are dampened by the clatter of our conscious minds In this timely book Russell Targ shows readers how to quiet this noise and see into the far reaches of time and space through remote viewing He also illuminates the phenomena of intuitive medical diagnosis and distant healing in a groundbreaking synthesis of research and empirical data Drawing on a broad range of spiritual traditions Targ demonstrates that these psychic abilities offer a path of self inquiry and self realization and have the power to expand each person s limited awareness into the consciousness shared by all beings Targ explores the scientific and spiritual implications of remote viewing as well as offering practical techniques and exercises to nurture this universally available but often untapped skill **Subject Catalog, 1976** Library of Congress,1976 Journal of the Society for Psychical Research Society for Psychical Research (Great Britain),1918 *Subject Guide to Books in Print* ,1993 *Subject Catalog* Library of Congress, *Monographic Series* Library of Congress,1976 **Books in Print** ,1981 **Bulletin of reprints** ,1975 **An Introduction to Parapsychology** Harvey J. Irwin,1999 This is a new edition of our acclaimed university textbook on the science of parapsychology Dr Irwin outlines the origins of parapsychological research and critically reviews investigations of extrasensory perception psychokinesis poltergeist phenomena near death and out of body experiences and survival of death Also criticisms by the skeptical are presented and the status of parapsychology as a scientific enterprise is assessed Reviews of earlier editions Comprehensive well written high quality Recommended for public college and university libraries Choice clear organization is excellent Journal of Parapsychology fills the gap because it is up to date formally written and wide in scope a particularly useful resource for students and teachers alike As a textbook Irwins book is the best of its kind Journal of the American Society for Psychical Research Evidence of Personal Survival from Cross Correspondences H. F. Saltmarsh,1938 **The Journal of the American Society for Psychical Research** American Society for Psychical Research,1994 List of members in v 1 6 12 Chicorel Index to Parapsychology and Occult Books Marietta Chicorel,1978
