using these to get the most expensive resources he can't afford. We strongly think this is not only barbaric but shows that mankind has failed to think out of the box. We as a people are operating below our potential. Mankind's current system is very wasteful with trillion globally plowed into weapons manufacturing and the military at the expense of other areas. Humanity is changing nevertheless at a slow pace and everyone has now realized that we all ought to be networking and cooperating and working towards becoming friends for global peace's sake. Yet mankind still manufactures weapons and invests heavily in the military when the world is moving toward global peace. Who are we going to use the weapons on especially when sworn enemies like the USA and North Korea are now in talking terms. We know the current system crashed years ago with the last financial crises yet mankind has stuck to this system that is not fit for purpose. We have come up with a global solution to all global problems and our method will emancipate all nations and create wealth levels never witnessed before. Our system is the only answer to global problems and we are going to take mankind to the next stage of development creating wealth never witnessed before. Our method works. We believe in national sovereignty as the answer to all global issues. Affordability and the lack of money has meant mankind making cheaper weapons and using these cheaper weapons to get the most expensive resources like oil. This has meant waging wars unnecessarily to make nationalized resources like oil available and cheaper in the process killing thousands of women and children. How can they preach about global peace as the reasons for waging wars and claim to act for global peace's sake when they kill innocent women and children. I ask you a question: What peace? Whose peace? What about the peace of the women and children who died and are still dying because of wars, sanctions and poverty. For TWO global peace start with these: The women and children dying needlessly as your leaders wage wars impose evil sanctions and ignore poverty warnings. Therefore our system is there to increase national and global wealth to levels never witnessed before through printing money as the only effective and only means of guaranteeing new fresh money and a guaranteed boost of the economy the only way it is intended. We have an effective way to tackle hyperinflation. Our system is the only answer and the only way to solve global problems. Imagine a world without Wars as we are going to put laws that effectively ban global wars forever. Weapons we are going to ban weapons manufacturing, trading and possession globally. Fossil fuels we believe the past wars were waged for oil resources as there were global affordability issues. Innocent women and children have died needlessly due to oil resources and we are going to put an end to that and ban oil and make it mandatory and encourage other alternate clean cheaper and affordable energy sources like electricity. All vehicles and machinery using fossils to be banned by a certain date and phased out. Needlessly killing of women and children banned through new laws. Brand new laws to ban and make it illegal and a crime to kill the innocent and defenseless. New laws to protect soldiers and the military personnel as well. Laws banning sanctions globally. Sanctions and terrorists acts are one and the same thing you can't ban one and allow the other as the methods and aims are the same. So sanctions are banned globally with immediate effect. The only way to deal with global issues is to put a Five Year Continuous Money Printing Plan that will

see increases in global wealth Printing new fresh money is the only solution to all global issues and we have a system that works that will deal with all issues of hyperinflation etc This is the only method that works but it s not just a matter of printing new money we have a comprehensive system that will tackle all other issue regarding the printing of new fresh money corruption mismanagement hyperinflation etc Only our system provides concrete solutions We mean business Imagine a world where every nation has enough money to buy any resources at market prices A World Without Weapons A World Without Wars A World Without Sanctions A World Without Deaths of Women and Children Through Wars Sanctions and Poverty A World Where We Are Networking and Cooperating A World Where There Are No Boundaries A World That Is Very Competitive and Productive A World Without Polluting Fossil Fuels or High Noise Vehicles A Clean World A New World Order A Completely New System One That Works and Solves Issues Like Global and National Debt A New Beginning A New World A New Challenge I am Ready Are You Ready JOIN US TODAY BUY AND READ TODAY Change Is Imminent and Inevitable TOMORROW S WORLD ORDER Your Future Your Say A Huge Investment For You Too Buy Our Currency A Global Currency A Great Investment *The Dire: Shiloh Shepherd Series* A. The divine commands to annihilate the seven nations living in Canaan to devote them to destruction (herem) in Biblical Hebrew are perhaps the most morally troubling texts of the Hebrew and Christian bibles. *Making Sense of Old Testament Genocide: Christian Interpretations of Herem Passages* addresses the challenges these texts pose. It presents the various ways in which interpreters from the first century to the twenty-first have attempted to make sense of them. The most troubling approach was no doubt to read them as divine sanction and inspiration for violence and war. The analysis of the use of herem texts in the crusades, the inquisition and various colonial conquests illustrates this violent way of reading the texts which has such alarming contemporary relevance. Three additional approaches can also be

traced to antiquity viz pre critical non literal and divine command theory readings Finally critics of Christianity from antiquity via the Enlightenment to today have referenced herem texts their critical voices are included as well Christian Hofreiter combines a presentation of a wide range of historical sources with careful analysis that scrutinizes the arguments made and locates the texts in their wider contexts Influential contributions of such well known figures as Augustine Origen Gregory the Great Thomas Aquinas and John Calvin are included as well as those of critics such as Marcion Celsus and Matthew Tindal and less widely known texts such as crusading histories songs and sermons colonial conquest accounts and inquisition manuals The book thus sheds new light on the ways in which these texts have shaped the thoughts and actions of their readers through the centuries and offers pertinent insights into how readers might be able to make sense of them today
