La evolución de las ideas argentinas ... José Ingenieros, 1918 **La evolución de las ideas argentinas** José Ingenieros, 1961 **Evolución de las ideas argentinas** José Ingenieros, 1994 **La evolucion de las ideas argentinas** José Ingenieros, 1961 *La parábola argentina* Miguel Ángel Asensio, 2022-01-21

En un recorrido parabólico de más de dos siglos como nació que tras superar dolorosos conflictos reconoció un ascenso que se aceleró a en la segunda mitad del siglo XIX y se extendió a varias décadas en el XX Argentina perdió impulso y comenzó a retrasarse relativamente dentro de distintos contextos sociales internacionales e institucionales El país que había despertado expectativas desmesuradas distaba mucho de concretarlas Tras intentos anteriores en los que incluso abordó comparaciones clásicas con otras experiencias nacionales el autor retoma el tema del enigma o misterio argentino procurando llamar la atención sobre aspectos humanos culturales relacionales internacionales políticos económicos y sociales que conforman una trama múltiple y lo hacen remontar a los orígenes formativos el posterior aluvión inmigratorio los logros y las transformaciones y convulsiones posteriores que concluyeron en una inocultable declinación que hace tiempo no solo ha concitado la preocupación de propios sino también y en no pocos casos de extraños premios nobel estudiosos personalidades literatos que lo han registrado con expresiones aleccionadoras y también indelebiles Ello permite evocar un recorrido que conecte el arribo inicial y posterior de fragmentos o desprendimientos primariamente europeos luego diversificados y la evolución acaecida hasta una frustrante contemporaneidad donde un pasado de inmigración ya ha conocido expresiones de lo opuesto

Locura y Crimen - Simulación de la Locura por alienados verdaderos Alejandro Korn, José Ingenieros, Principales temáticas PSIQUIATRÍA Y CRIMINOLOGÍA SI TE INTERESA La medicina legal La psicología forense Los médicos y filósofos argentinos Las Tesis Doctorales de Universidades públicas Las vidas paralelas La historia de la medicina TEN S QUE LEER ESTE LIBRO

Ofrecemos como segundo volumen de esta colección las Tesis con las que se doctoraron en Medicina en la Universidad de Buenos Aires quienes están llamados a convertirse en dos grandes psiquiatras y filósofos argentinos Korn luego de ser practicante en una Penitenciaría escogió trabajar la relación entre Locura y crimen obteniendo su título en 1883 En 1900 Ingenieros también daría término a su carrera universitaria abordando las mismas temáticas aunque centrado en la sobresimulación de la locura terminó por limitarse para referirse a la simulación efectuada por verdaderos alienados Entre los valiosos aportes que sus Tesis aún nos dejan ocupa un lugar destacado la inmensa variedad y riqueza de casos clásicos que supieron recoger a temprana edad con gran precisión Los hechos narrados se recuerdan irremediabilmente por la crudeza con que diversas variedades de la degradación desfilan ante la vista la anestesia moral la pérdida de la voluntad la corrupción de la inteligencia el desquicio de los instintos de supervivencia individuos que escuchan voces sugiriéndoles propósitos criminales se enchastran en excrementos atacan salvajemente por placer o sufren por no poder matar La humanidad en lo que tiene de más trágico se desnuda en una galería de tipos funesta En cuanto a la alienación Korn sostiene que Ningún signo

aislado puede resolver el diagnóstico mostrando la necesidad de atender al conjunto de los síntomas y antecedentes en una visión diagnóstica adaptada a la individualidad. La locura encontrar su causa en una base orgánica predispuesta no obstante resultar de máxima importancia el estudio del ambiente donde la personalidad se desarrolla. Aplicando esto igualmente al mundo de la criminalidad. En tanto que Ingenieros enamorado de los casos donde se encuentra una profunda perturbación en la inteligencia la voluntad o la sensibilidad para explicar los actos no pudo evitar sentirse atraído por el problema de la delincuencia. En su pensamiento las categorías biológicas sirven para interpretar fenómenos sociales. Todos los organismos luchan por su vida a través de una diversidad de medios. La simulación incluso la de la locura ser un modo fraudulento de lucha adecuado al medio social sin implicar que sea exclusiva de los criminales. Jonathan Georgalis Licenciado en Filosofía en la misma Facultad en la que Korn e Ingenieros se desempeñaron como decano y vicedecano hace notar en su introducción que estos son algunos de los muchos paralelismos que impregnan las vidas de estos dos grandes hombres hijos de inmigrantes masones que se vieron obligados al exilio durante el siglo XIX por estar dispuestos a defender con sus actos sus más íntimas convicciones. A pesar de hallarnos ante dos temperamentos tan distintos nos encontramos claramente ante un caso autotono de vidas paralelas como aquellas que supo trazar Plutarco entre ilustres personalidades romanas y griegas. Una vez apreciado el dramatismo de los casos con los que estos médicos se toparon adquiere un renovado sentido la medicina que se esforzaron por representar y transmitir hasta el último instante de sus vidas. Primero en el esfuerzo incansable por vencer las coacciones del ambiente tanto como las propias y finalmente en la lucha constante por encarnar el inmenso significado de una libertad que no se obtiene por gracia sino que se crea. Por ser ni más ni menos que la libertad creadora.

Modernización urbana en América Latina: de las grandes aldeas a las metrópolis masificadas Arturo Almandoz, 2024-10-01. Se recorre en este libro un arco de transformaciones iniciadas bajo la guía modernizadora de una burguesía que después de la Independencia cambiaba de comercial a industrial en América Latina. El autor concibe lo urbano como un generador de imaginarios así como un lugar de producción de significados. Incorpora las estructuras habitacionales la distribución de los espacios urbanos la concentración de los barrios suburbios y periferias como un foco de análisis para el entendimiento de las ciudades de América Latina y su evolución desde la concepción de aldea hasta la de metrópoli masificada.

Colegios, 1995 **Cultura interior** Ana Clarisa Agüero, Diego García, 2018-04-05. Entreculturas busca promover herramientas analíticas orientadas al conocimiento de las relaciones de interdependencia que dan forma y condicionan la expresión de culturas particulares. Interdependencias genéticas y espaciales la nación por ejemplo es un hecho esencialmente internacional la producción cultural en Córdoba sólo puede ser comprendida en sus vínculos y oposiciones a la producción en Buenos Aires y otros centros nacionales o extranjeros con los que se han tejido vínculos concretos etc. De allí la centralidad de temas como la traducción la circulación de ideas de personas y de objetos culturales y las geopolíticas de la producción cultural y científica. Frente a la inercia de la actitud como dice Norbert Elias nacimiento de las ciencias sociales y humanas que detienen el estudio de los

hechos culturales en las fronteras políticas de los estados nacionales frente a los regionalismos de toda clase que reifican lo único o auténtico del genio de un pueblo particular frente a las actitudes esencialistas. Entreculturas promueve una mirada relacional para la comprensión de la génesis y las transformaciones de las prácticas sociales y culturales modernas y contemporáneas. Para ello combinamos la traducción de estudios de autores extranjeros escasamente conocidos en el escenario nacional y la promoción de investigaciones locales sensibles a los temas que animan un espacio de conocimientos e intercambios al que esta colección contribuye a dar forma.

Secretaría de Cultura, 1993 *Facundo and the Construction of Argentine Culture* Diana Sorensen Goodrich, 2010-01-01

Domingo F Sarmiento's classic 1845 essay *Facundo* Civilization y Barbarie opened an inquiry into the nature of Argentinian culture that continues to the present day. In this elegantly written study Diana Sorensen Goodrich explores the varied and often conflicting readings that *Facundo* has received since its publication and shows how these readings have contributed to the making and remaking of the Argentine nation and its culture. Goodrich's analysis sheds new light on the intersection between canon formation and nation building. While much has been written about *Facundo* as a primary text in Latin American letters this is the first study that locates it within the problematics of canon formation and the cultural social and political contexts in which conflicting interpretations are constructed. This new approach to *Facundo* illuminates the interactions among institutions cultural ideologies and political life. This book will be important reading for everyone interested in questions of national identity and the institutionalization of a national tradition. América Latina tras bambalinas Leonardo Senkman, Luis Roniger, 2019-12-11

Este libro reflexiona desde las ciencias sociales la historia social y la historia de las ideas acerca de la amplia presencia de narrativas conspirativas en América Latina. Los autores distinguen entre la existencia de complotes algunos exitosos otros fracasados de otro fenómeno paralelo las teorías conspirativas que interpretan el mundo como objeto de siniestras maquinaciones e intrigas clandestinas. Se trata de una lógica epistemológica cuya visión de mundo y narrativa argumentativa fungen de mito movilizador de fuerzas políticas y sociales.
