Evolution Of Educational Theory In The United States:

The Evolution of Educational Theory in the United States Dickson Mungazi, 1999-01-30 There is no better way to understand a society's assessment of its own success or failure than an examination of its theories of education because any attempt to improve national performance will be reflected in educational policy This study is a comprehensive account of the evolution of American educational theory from the colonial period to the present It includes a broad discussion of the foundations upon which early Americans built their educational policy as well as influential factors unique to the American experience From the Revolution to nineteenth century reform efforts to the turbulent twentieth century educational theory has been adapted to suit the needs of an ever changing multicultural society Throughout U S history key objectives have affected the character of education particularly curriculum One main thrust for reform has been the belief that equality in education serves the national interest Examination of the historical attitudes toward the education of African Americans provides a valuable insight into this process Today America is experiencing significant difficulties in making its educational system succeed and the negative social effects of this deterioration are already apparent The future success of educational theory lies in international cooperative efforts The Evolution of Educational Theory John Adams, 1912 The Evolution of Educational Theory Sir John Adams, 2012-08 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy **Annual Catalog of the Michigan State Normal College for ...** Eastern Michigan University, Michigan State Normal College, 1926 *An Outline of the History of Education in the United States* George Leroy Jackson, 1926 **The Bulletin of the University of Minnesota [Announcements]**.
