Carland, 1985-04-01 A study in the relationship between one department of the Colonial Office and the colonies in which it had responsibility      *Political Culture, Change, and Security Policy in Nigeria* Kalu Kalu, 2018-03-15 Demonstrating how political culture facilitates or distorts political preferences and political outcomes this book explores how the historical development of social conditions and the current social structures shape understandings and constrain individual and collective actions within the Nigerian political system Political Culture Change and Security Policy examines the extent to which specific norms and socialization processes within the political and civic culture abet corruption or the proclivity to engage in corrupt practices and how they help reinforce political attitudes and civic norms that have the potential to undermine the effectiveness of government It also delineates specific doctrinal models and strategic framework essential to the development and implementation of Nigeria's national security policy as well as innovative approaches to national development planning Professor Kalu N Kalu offers an exhaustive study that integrates several quantitative models in addressing a series of theoretical and empirical questions that inform historical and contemporary issues of the Nigerian project The general premise is that it is not enough to simply highlight the problems of the state and address the what question we must also address the why and how questions that drive political change policy preferences and competing political outcomes      **Studies in Southern Nigerian History** Boniface I. Obichere, 2005-07-27 First Published in 1982 Routledge is an imprint of Taylor Francis an informa company      **The Inaugural Addresses and Ascension Speeches of Nigerian Elected and Non-Elected Presidents and Prime Minister, 1960-2010** Solomon Williams Obotetukudo, 2011 From Balewa's declaration Today is Independence Day to Azikiwe's impassioned plea Let us bind the nation's wound and let us heal the breaches of the past so that in forging our nation there shall emerge on this continent a hate free fear free and greed free people to Buhari's patriotic fervor This generation of Nigerians have no other country than Nigeria to Obasanjo's confident commitment I will not spare any effort in rising to this challenge of building firmly and decisively on our achievements and to Yar Adua's clarion call Let us set aside cynicism Let us discard the habits of low expectations Let us join together now words by Nigerian leaders invoke common threads that are essential for nationbuilding In a democracy words initiate a relationship between leaders and citizens a relationship deepened by sacred trusts not easily broken This collection of inaugural and ascension speeches facilitates comparison of presidential themes leadership styles personal philosophies and evolutionary communication strategies in Nigerian nationbuilding Each chapter opens with biographical notes on the speaker followed by an introduction to the prevalent political climate and ends with the leader's unabridged speech      *Nigeria's Democratic Experience in the Fourth Republic Since 1999* A. Sat Obiyan, Kunle Amuwo, 2013 This book addresses various issues that have arisen in the practice of democracy in Nigeria since 1999 focusing on the Obasanjo years

1999 2007 Nigeria's return to democratic rule has been marked by developments such as the implementation of reforms to address perceived economic problems and corruption. The introduction of democracy in the country has also witnessed many challenges including the difficult relationship between some political chief executives and their deputies, intriguing intergovernmental relations, the rise and resurgence of sub-national groups that pose serious threat to the hegemony of the state, precarious inter-ethnic inter-sectional relations, attempts to perpetuate the tenure of chief executives through constitutional amendments and developments in electoral politics and conflicts. The book provides incisive analysis into these issues.

**Colonial Origins of Democracy and Dictatorship** Alexander Lee, Jack Paine, 2024-05-30. Why are some countries more democratic than others? For most non-European countries, elections began under Western colonial rule. However, existing research largely overlooks these democratic origins. Analyzing a global sample of colonies across four centuries, this book explains the emergence of colonial electoral institutions and their lasting impact. The degree of democracy in the metropole, the size of the white settler population, and pressure from non-Europeans all shaped the timing and form of colonial elections. White settlers and non-white middle classes educated in the colonizer's language usually gained early elections, but settler minorities resisted subsequent franchise expansion. Authoritarian metropolises blocked elections entirely. Countries with lengthy exposure to competitive colonial institutions tended to consolidate democracies after independence. By contrast, countries with shorter electoral episodes usually shed democratic institutions, and countries that were denied colonial elections consolidated stable dictatorships. Regime trajectories shaped by colonial rule persist to the present day.

*The African Colonial State in Comparative Perspective* Crawford Young, 1994-01-01 In this comprehensive and original study a distinguished specialist and scholar of African affairs argues that the current crisis in African development can be traced directly to European colonial rule which left the continent with a singularly difficult legacy that is unique in modern history Crawford Young proposes a new conception of the state weighing the different characteristics of earlier European empires including those of Holland Portugal England and Venice and distilling their common qualities He then presents a concise and wide ranging history of colonization in Africa from the era of construction through consolidation and decolonization Young argues that several qualities combined to make the European colonial experience in Africa distinctive The high number of nations competing for power around the continent and the necessity to achieve effective occupation swiftly yet make the colonies self financing drove colonial powers toward policies of ruthless extractive action The persistent virulent racism that established a distance between rulers and subjects was especially central to African colonial history Young concludes by turning his sights to other regions of the once colonized world comparing the fates of former African colonies to their counterparts elsewhere In tracing both the overarching traits and variations in African colonial states he makes a strong case that colonialism has played a critical role in shaping the fate of this troubled continent

**Perspectives on Nation-State Formation in Contemporary Africa** Godknows Boladei Igali, 2014-04-15 The challenge of state formation and national integration is evident and the need for a solution is even more demanding in places like Africa where nation states were formed under very special historical circumstances In *Perspectives on Nation State Formation in Contemporary Africa* author Godknows Boladei Igali presents a digest that examines the challenges of state formation and national integration in Africa and offers preferred solutions within the context of the symbolic diversities In this study Igali outlines the immediate context and challenges of national integration in Africa in its human dimension He reviews the political formations of ancient Africa which varied in size philosophical premise and organisational structures and discusses partition military invasions conquest and colonisation He then addresses colonial rule or administration African nationalism and decolonisation and analyses the process of nation state formation in post independent Africa from the perspective of the

political systems and ideologies Reviewing a wide range of time from ancient times through the colonial period and since independence this survey discusses the processes of national integration and nation state formation in Africa providing perspectives that deepen the understanding of these nation building processes      **Black Skin, White Coats** Matthew M. Heaton, 2013-10-15 *Black Skin White Coats* is a history of psychiatry in Nigeria from the 1950s to the 1980s Working in the contexts of decolonization and anticolonial nationalism Nigerian psychiatrists sought to replace racist colonial psychiatric theories about the psychological inferiority of Africans with a universal and egalitarian model focusing on broad psychological similarities across cultural and racial boundaries Particular emphasis is placed on Dr T Adeoye Lambo the first indigenous Nigerian to earn a specialty degree in psychiatry in the United Kingdom in 1954 Lambo returned to Nigeria to become the medical superintendent of the newly founded Aro Mental Hospital in Abeokuta Nigeria's first modern mental hospital At Aro Lambo began to revolutionize psychiatric research and clinical practice in Nigeria working to integrate modern western medical theory and technologies with traditional cultural understandings of mental illness Lambo's research focused on deracializing psychiatric thinking and redefining mental illness in terms of a model of universal human similarities that crossed racial and cultural divides *Black Skin White Coats* is the first work to focus primarily on black Africans as producers of psychiatric knowledge and as definers of mental illness in their own right By examining the ways that Nigerian psychiatrists worked to integrate their psychiatric training with their indigenous backgrounds and cultural and civic nationalisms *Black Skin White Coats* provides a foil to Frantz Fanon's widely publicized reactionary articulations of the relationship between colonialism and psychiatry *Black Skin White Coats* is also on the cutting edge of histories of psychiatry that are increasingly drawing connections between local and national developments in late colonial and postcolonial settings and international scientific networks Heaton argues that Nigerian psychiatrists were intimately aware of the need to engage in international discourses as part and parcel of the transformation of psychiatry at home      **Global Anti-Vice Activism,**

Imperialism and Human Rights Bonny Ibhawoh, 2008-01-03 2007 CHOICE Outstanding Academic Title In this seminal study Bonny Ibhawoh investigates the links between European imperialism and human rights discourses in African history Using British colonized Nigeria as a case study he examines how diverse interest groups within colonial society deployed the language of rights and liberties to serve varied socioeconomic and political ends Ibhawoh challenges the linear progressivism that dominates human rights scholarship by arguing that in the colonial African context rights discourses were not simple monolithic or progressive narratives They served both to insulate and legitimize power just as much as they facilitated transformative processes Drawing extensively on archival material this book shows how the language of rights like that of civilization and modernity became an important part of the discourses deployed to rationalize and legitimize empire
