everywhere and nowhere with a population of astonishing diversity Growing up after World War I and the collapse of the empire Rezzori lived in a twilight world suspended between the formalities of the old nineteenth century order which had shaped his aristocratic parents and the innovations uncertainties and raw terror of the new century The haunted atmosphere of this dying world is beautifully rendered in the pages of *The Snows of Yesteryear* The book is a series of portraits amused fond sometimes appalling of Rezzori's family his hysterical and histrionic mother disappointed by marriage destructively obsessed with her children's health and breeding his father a flinty reactionary whose only real love was hunting his haughty older sister fated to die before thirty his earthy nursemaid who introduced Rezzori to the power of storytelling and the inevitability of death and a beloved governess Bunchy Telling their stories Rezzori tells his own holding his early life to the light like a crystal until it shines for us with a prismatic brilliance

Anxiety, Angst, Anguish in Fin de Siècle Art and Literature Luba Jurgenson, Rosina Neginsky, Marthe Segrestin, 2020-02-06 This volume examines various manifestations of anguish in art literature and philosophy It demonstrates that the experience of anguish manifested itself in a spectacular way in the arts in the late 19th early 20th centuries It makes obvious the extraordinary tension between anguish and art The works discussed here reflect the magnitude of anguish generated by historical events scientific advancements especially in psychology and metaphysical inquiries of the time Through the invention of new artistic languages those works also illustrate the fecundity of anguish for artists

The Art and Artists of the Fifth Zionist Congress, 1901 Gilya Gerda Schmidt, 2003-10-01 Martin Buber and friends successfully lobbied the congress for inclusion of cultural Zionism into the official agenda of the Zionist organization resulting in the establishment of the Bezalel Art Institute in Jerusalem in 1905 In the first book of its kind Gilya Gerda Schmidt places this art exhibition in the context of political Zionism as well as anti-Semitism Jews had been denied the opportunity to be creative and religious Zionists feared that Jewish culture would usurp religion within the Zionist movement Hermann Struck an artist and Orthodox Jew became a founding member of the religious Zionist Party further supporting Buber's assertion that culture and religion were not at odds The forty eight works of art in the exhibition were created by eleven artists all but two of whom were famous in their lifetime Until now their works had been largely forgotten In the last decade contributing artists Ephraim Lilien Lesser Ury Jozef Israels Struck and Maurycy Gottlieb have enjoyed a revival of their work

Art Nouveau and the Classical Tradition Richard Warren, 2017-12-14 Art Nouveau was a style for a new age but it was also one that continued to look back to the past This new study shows how in expressing many of their most essential concerns sexuality death and the nature of art its artists drew heavily upon classical literature and the iconography of classical art It challenges the conventional view that Art Nouveau's adherents turned their backs on Classicism in their quest for new forms Across Europe and North America artists continued to turn back to the ancient world and in particular to Greece for the vitality with which they sought to infuse their creations The works of many well known artists are considered through this prism including those of Gustav Klimt Aubrey Beardsley and Louis Comfort

Tiffany But breaking new ground in its comparative approach this study also considers some of the movement's less well known painters sculptors jewellers and architects including in central and eastern Europe and their use of classical iconography to express new ideas of nationhood Across the world while Art Nouveau was a plural style drawing on multiple influences the Classics remained a key artistic vocabulary for its artists whether blended with Orientalist and other iconographies or preserving the purity of classical form Theatres of Memory Raphael Samuel,2012-09-11 When *Theatres of Memory* was first published in 1994 it transformed the debate about what is to be considered history and questioned the role of heritage that lies at the heart of every Western nation's obsession with the past Today in the age of Downton Abbey and Mad Men we are once again conjuring historical fictions to make sense of our everyday lives In this remarkable book Samuel looks at the many different ways we use the unofficial knowledge of the past Considering such varied areas as the fashion for retrofitting the rise of family history the joys of collecting old photographs the allure of reenactment societies and televised adaptations of Dickens Samuel transforms our understanding of the uses of history He shows us that history is a living practice something constantly being reassessed in the world around us **Freud** Élisabeth Roudinesco,2016-11-07 Élisabeth Roudinesco's bold reinterpretation of Sigmund Freud is a biography for the twenty first century a sympathetic yet impartial appraisal of a genius admired but misunderstood in his time and ours Alert to tensions in his character and thought she views Freud less as a scientific thinker than as an interpreter of civilization and culture *Visual Culture in Freud's Vienna* Mary Bergstein,2024-02-22 *Visual Culture in Freud's Vienna* shows how photography and film in turn of the century Vienna the birthplace of psychoanalysis not only reflected modernist ideas already in force but helped to bring into being what might be referred to as a psychoanalytic imagination Mary Bergstein demonstrates that visual images not only illustrated but also engendered ways of seeing social psychological and scientific ideas during a formative time in the creation and development of psychoanalysis and the modern age Indeed she argues that visual culture initiated significant aspects of psychoanalytic thought *Visual Culture in Freud's Vienna* examines a variety of visual materials and texts ranging from scientific illustrations to popular low culture and even forms of erotica including film Attention is also given to women's dresses and shoes in a social context and as they are represented in photography and circulated as fetish objects Bergstein maintains a commitment to women's history and feminist inquiry throughout particularly in her final chapter which is devoted to the representations of women in the erotic photography and film *Visual Culture in Freud's Vienna* is well illustrated with images drawn from the sources discussed and makes a significant contribution to our understanding of modernism and psychoanalysis **Bookplates and Their Owners in Imperial Russia** Marguerite Studemeister,1991
