Perspectives on Promotion and Database Marketing Robert C. Blattberg, Greg Martin Allenby, 2010 Quantitative marketing as a discipline started around the mid 60 s and has been dominated by only a handful of individuals Robert Blattberg is one of them and has been a leader in setting a research agenda for this discipline The collection of articles in this book along with commentary by some of his doctoral students is a magnificent testament to the genius of Robert Blattberg The chapters in this book are organized into six parts The first part titled Early Bob traces research which he completed during the first decade after he joined University of Chicago The second part is titled Statistical Bob This part comprises papers that Robert wrote in characterizing the response of consumers to dealing The third part is titled Promotional Bob and covers roughly a ten year stretch from 1987 to 1996 The fourth part titled Big Bob describes Robert s contribution to and impact on marketing practice The fifth part is titled Direct Bob and focuses on what customer level data should be gathered how they should be organized linked and analyzed and what metrics should be used to assess customer value The sixth and final part titled Micro Macro Bob is not genre or area specific as much as an illustration of Robert s overall research interests in marketing mix modeling

Management Competence Andreas Enders, 2012-12-06 Eight years ago the production management department of the WHU launched the industry competition Best Factory Industrial Excellence Award jointly with the media

partner Wirtschaftswoche in Germany Two years earlier the competition had been initiated successfully by INSEAD faculty in France Over the years the joint research team experienced first hand that application of Management Quality was a key driver of continuous improvement along the firm's core business processes Moreover those companies that exhibited the highest improvement rates achieved mostly the best business results compared to their industry benchmarks Andreas Enders accompanied us for five rounds of the competition as program manager for the German competition His contributions among others the launch of our web site www.beste-fabrik.de are greatly acknowledged by the academic advisory team The findings of the industry competition greatly influenced this thesis on Management Competence Initially the main research question though was to provide a theoretic foundation and an empirical test for the seven factor Management Quality model as defined in our recent book on Industrial Excellence Management Quality consists of strategy formulation and deployment combined with delegation of tasks to workers and their participation In addition measurement integration communication and training complement the main levers While there exist numerous studies on superior business performance and key success factors there are few sound empirical studies available to date on operational performance and sustained business success
