Distance Jose V. Fuentecilla,2013-04-01 During February 1986 a grassroots revolution overthrew the fourteen year dictatorship of former president Ferdinand Marcos in the Philippines In this book Jose V Fuentecilla describes how Filipino exiles and immigrants in the United States played a crucial role in this victory acting as the overseas arm of the opposition to help return their country to democracy A member of one of the major U S based anti Marcos movements Fuentecilla tells the story of how small groups of Filipino exiles short on resources and shunned by some of their compatriots arrived and survived in the United States during the 1970s overcame fear apathy and personal differences to form opposition organizations after Marcos s imposition of martial law and learned to lobby the U S government during the Cold War In the process he draws from multiple hours of interviews with the principal activists personal files of resistance leaders and U S government records revealing the surveillance of the resistance by pro Marcos White House administrations The first full length book to detail the history of U S based opposition to the Marcos regime Fighting from a Distance provides valuable lessons on how to persevere against a well entrenched opponent *In the Name of Civil Society* Eva-Lotta

Hedman,2005-11-30 *In the Name of Civil Society* examines Philippine politics in a highly original and provocative way Hedman s detailed analysis shows how dominant elites in the Philippines shore up the structures of liberal democracy in order to ensure their continued hegemony over Philippine society This book will be of interest to everyone concerned with civil society and the processes of democratization and democracy in capitalist societies Paul D Hutchcroft University of Wisconsin Madison What is the politics of civil society Focusing on the Philippines home to the mother of all election watch

movements the original People Power revolt and one of the largest and most diverse NGO populations in the world Eva Lotta Hedman offers a critique that goes against the grain of much other current scholarship Her highly original work challenges celebratory and universalist accounts that tend to reify civil society as a unified and coherent entity and to ascribe a single meaning and automatic trajectory to its role in democratization She shows how mobilization in the name of civil society is contingent on the intercession of citizens and performative displays of citizenship as opposed to other appeals and articulations of identity such as class In short Hedman argues the very definitions of civil and society are at stake Based on extensive research spanning the course of a decade 1991 2001 this study offers a powerful analysis of Philippine politics and society inspired by the writings of Antonio Gramsci It draws on a rich collection of sources from archives interviews newspapers and participant observation It identifies a cycle of recurring crises of authority involving mounting threats from above and below to oligarchical democracy in the Philippines Tracing the trajectory of Gramscian dominant bloc of social forces Hedman shows how each such crisis in the Philippines promotes a countermobilization by the intellectuals of the dominant bloc the capitalist class the Catholic Church and the U S government In documenting the capacity of so called secondary associations business lay professional to project moral and intellectual leadership in each of these crises this study sheds new light on the forces and dynamics of change and continuity in Philippine politics and society

Elections and Democratization in the Philippines Jennifer Franco, 2020-03-24 First published in 2001 This study shows how legitimate elections held under centralized authoritarian conditions before 1986 though not democratic still contributed to democratization by creating the political space needed for democratic opposition to arise

Pinoy Capital Benito Vergara, 2009 Home to 33 000 Filipino American residents Daly City California located just outside of San Francisco has been dubbed the Pinoy Capital of the United States In this fascinating ethnographic study of the lives of Daly City residents Benito Vergara shows how Daly City has become a magnet for the growing Filipino American community Vergara challenges rooted notions of colonialism here addressing the immigrants identities connections and loyalties Using the lens of transnationalism he looks at the double lives of both recent and established Filipino Americans Vergara explores how first generation Pinoys experience homesickness precisely because Daly City is filled with reminders of their homeland s culture like newspapers shops and festivals Vergara probes into the complicated ambivalent feelings these immigrants have toward the Philippines and the United States and the conflicting obligations they have presented by belonging to a thriving community and yet possessing nostalgia for the homeland and people they left behind
