*Excavating the Evidence for Jesus* Titus Kennedy, 2022-03-15 Examine the Evidence Surrounding Jesus No other figure has impacted history like Jesus Yet today he is often seen as a mythical character whose legend increased over time So what does the historical and archaeological evidence say about Jesus Archaeologist Dr Titus Kennedy has investigated firsthand the discoveries connected to Jesus birth ministry crucifixion and resurrection He has visited and excavated where Jesus walked and examined the artifacts connected to Jesus life Here he presents an up to date and comprehensive overview of the research and findings that illuminate the historicity of Christ as presented in the Bible *Excavating the Evidence for Jesus* progresses chronologically through the Gospels noting the many relevant archaeological historical geographic and literary findings As you read you will be able to decide for yourself whether the evidence confirms the existence and story of Jesus and determine whether the Gospels are worthy of being approached not as legends but as history Further you will gain a deeper understanding of the historic basis of Christianity a richer knowledge of the ancient world and an evidence based perspective on the reliability of the Bible

**Excavating the Land of Jesus** James Riley Strange, 2023-06-20 How do archaeologists unearth the daily life of people from Jesus's time Contrary to popular belief archaeology of first century Roman Galilee is not about illustrating or proving the Gospels drawing timelines or hunting treasure Rather it is about understanding the lives of people just like us who lived in the time of Jesus How do we understand Jesus and his mission as part of a larger world How do we interpret material culture alongside textual evidence from the Gospels How do we know where and how to dig James Riley Strange teaches students how to address these problems in this essential textbook Drawing on professional experience as a scientific archaeologist in Israel Strange explains current methodology for ground surveying excavating evidence and interpreting data *Excavating the Land of Jesus* is the ideal guide for students seeking answers in the dirt of the Holy Land

Bowker's Complete Video Directory ,2000 Excavating Jesus John Dominic Crossan, Jonathan L. Reed, 2009-08-11 The premier historical Jesus scholar joins a brilliant archaeologist to illuminate the life and teaching of Jesus against the background of his world There have been phenomenal advances in the historical understanding of Jesus and his world and times but also huge lesser known advances in first century Palestine archaeology that explain a great deal about Jesus his followers and his teachings This is the first book that combines the two and it does it in a fresh accessible way that will interest both biblical scholars and students and also the thousands of lay readers of Biblical Archaeology Review 150 000 circulation National Geographic and other archaeology and ancient history books and magazines Each chapter of the book focuses on a major modern archaeological or textual discovery and shows how that discovery opens a window onto a major feature of Jesus's life and teachings Bowker's Complete Video Directory 2001 ,2001 **Excavating Asian History**

Norman Yoffee, Bradley L. Crowell, 2022-05-10 Although history and archaeology each seek to elucidate the past both sets of data are incomplete and ambiguous and thus open to multiple readings that invite contradictory interpretations of human

activity This is particularly true when scholars of each field ignore or fail to understand research in the other discipline

Excavating Asian History contains case studies and theoretical articles that show how archaeologists have been investigating historical social and economic organizations and that explore the relationship between history and archaeology in the study of pre modern Asia These contributions consider biases in both historical and archaeological data that have occasioned rival claims to knowledge in the two disciplines Ranging widely across the region from the Levant to China and from the third millennium BC to the second millennium AD they demonstrate that archaeological and historical studies can complement each other and should be used in tandem The contributors are leading historians and archaeologists of Asia who present data issues and debates revolving around the most recent research on the ancient Near East early Islam India China and Southeast Asian states Their chapters illustrate the benefits of interdisciplinary investigations and show in particular how archaeology is changing our understanding of history Commentary chapters by Miriam Stark and Philip Kohl add new perspectives to the findings By showing the evolving relationship between those who study archaeological material and those who investigate textual data Excavating Asian History offers practical demonstrations of how research has been and must continue to be structured

*Excavating Women* Carina Oliveira Prestes, 2025 Excavating Women investigates the leadership of women in Christian churches in the first six centuries CE through a study of archaeological remains Carina Prestes surveys the role of women in Greco Roman society and examines funerary remains of the first Christian centuries to understand the role of women in Christian communities
