The Mosaics of Antioch Sheila D. Campbell, Pontifical Institute of Mediaeval Studies, 1988 *The Byzantine and Early Islamic Near East* Hugh Kennedy, 2024-10-28 The essays in this volume deal with the history of the Middle East from c 550 to 1000 AD There are three main themes Syria in Late Antiquity and the changes and continuities with the early Islamic period relations between Muslims and the Byzantine Empire from the 8th to the 11th centuries and the development of government and the economy in the early caliphate Throughout there is an emphasis on social and economic trends and the integration of written and archaeological evidence to elucidate the complex developments in this pivotal part of the world In different ways all the papers discuss the formation of the Islamic world and the way in which the legacy of Antiquity economic social and cultural affected the emergence of what we think of as this Islamic World These papers will be of interest to historians of Islam and Byzantium but also western mediaevalists interested in comparing processes of change at opposite ends of the Mediterranean

Antioch II Silke-Petra Bergjan, Susanna Elm, 2018-09-04 During the fourth century Antioch on the Orontes was the most important imperial residence in the Roman Empire and a hot bed of intellectual and religious activity The writings of men such as Libanius the emperor Julian Ammianus Marcellinus John Chrysostom Theodoret and many others provide a density of written sources that is nearly unmatched in antiquity while the archaeological evidence of the city s evolution is much harder to reconstruct This volume assembles state of the art scholarship on these ancient authors within the context of recent archaeological work to offer a rare comprehensive view of this late Roman city Contributors Rudolf Brandle Gunnar Brands Silke Petra Bergjan Susanna Elm Johannes Hahn Gavin Kelly Blake Leyerle Jaclyn Maxwell Wendy Mayer Yannis Papadogiannakis Catherine Saliou Adam M Schor Christine Shepardson Jan R Stenger Claudia Tiersch Edward Watts Jorit Wintjes *European Archaeology as Anthropology* Pam J. Childe the study of the emergence of complex societies has been a central question in anthropological archaeology. However, archaeologists working in the Americanist tradition have drawn most of their models for the emergence of social complexity from research in the Middle East and Latin America. Bernard Wailes was a strong advocate for the importance of later prehistoric and early medieval Europe as an alternative model of sociopolitical evolution, and trained generations of American archaeologists now active in European research from the Neolithic to the Middle Ages. Two centuries of excavation and research in Europe have produced one of the richest bodies of archaeological data anywhere in the world. The abundant data show that technological innovations such as metallurgy appeared very early, but urbanism and state formation are comparatively late developments. Key transformative processes such as the spread of agriculture did not happen uniformly but rather at different rates in different regions. The essays in this volume celebrate the legacy of Bernard Wailes by highlighting the contribution of the European archaeological record to our understanding of the emergence of social complexity. They provide case studies in how ancient Europe can inform anthropological archaeology. Not only do they illuminate key research topics, they also invite archaeologists working in other parts of the world to consider comparisons to ancient Europe as they construct models for cultural development for their regions. Although there is a substantial corpus of literature on European prehistoric and medieval archaeology, we do not know of a comparable volume that explicitly focuses on the contribution that the study of ancient Europe can make to anthropological archaeology.

Public Space in the Late Antique City (2 vols.) Luke Lavan, 2021-01-11. This book investigates the nature of public space in Mediterranean cities A.D. 284-650, meaning places where it was impossible to avoid meeting people from all parts of society, whether different religious confessions or social groups. The first volume considers the architectural form and everyday functions of streets, fora, agorai, market buildings, and shops, including a study of processions and everyday street life. The second volume analyses archaeological evidence for the construction, repair, use, and abandonment of these urban spaces based on standardised principles of phasing and dating. The conclusions provide insights into the urban environment of Constantinople, an assessment of urban institutions and citizenship, and a consideration of the impact of Christianity on civic life at this time.

City of Demons Dayna S. Kalleres, 2015-10-13. Although it would appear in studies of late antique ecclesiastical authority and power that scholars have covered everything, an important aspect of the urban bishop has long been neglected: his role as demonologist and exorcist. When the emperor Constantine made Christianity the official religion of the realm, bishops and priests everywhere struggled to Christianize the urban spaces still dominated by Greco-Roman monuments and festivals. During this period of upheaval, when congregants seemingly attended everything but their own orthodox church, many ecclesiastical leaders began simultaneously to promote aggressive and insidious depictions of the demonic. In *City of Demons*, Dayna S. Kalleres investigates this developing discourse and the church-sponsored rituals that went along with it, showing how shifting ecclesiastical demonologies and evolving practices of exorcism profoundly shaped Christian life in the fourth century.

Bibliography of Syrian Archaeological Sites to 1980 Howard C. Bybee, Conrad E. L'Heureux, 1995 This volume brings under one cover over 1 800 citations about archaeological excavation in Syria from about 1900 to 1980 This bibliography provides students and scholars with an important source for background study into the rise of civilization and its modern antecedents Entries from popular literature are not included nor is the vast epigraphical literature unless accounts of the discovery of epigraphical inscriptions contained archaeological descriptions **Return to Antioch** Dale Albert Johnson, 2016-04-16 This book is a call to the most ancient of churches to return to Antioch the most historic mother city in Christendom outside of Jerusalem **The Eerdmans Encyclopedia of Early Christian Art and Archaeology** Finney, 2017 One of the most widely respected theological dictionaries put into one volume abridged form Focusing on the theological meaning of each word the abridgment contains English keywords for each entry tables of English and Greek keywords and a listing of the relevant volume and page numbers from the unabridged work at the end of each article or section **Rabbi Paul** Bruce Chilton, 2010-06-09 A brilliant new biography of Saint Paul whose interpretations of the life and teachings of Jesus transformed a loosely organized grassroots peasant movement into the structured religion we know today Without Paul there would be no Christianity His letters to various churches scattered throughout the Roman Empire articulated for the first time the beliefs that make up the heart of Christian practice and faith In this extraordinary biography Bruce Chilton explains the changing images of Paul from the early Church period when he was regarded as the premiere apostle who separated Christianity from Judaism to more recent liberal evaluations which paint him as an antifeminist homophobic figure more dedicated to doctrine than to spiritual freedom By illuminating Paul's thoughts and contributions within the context of his time Chilton restores him to his place as the founding architect of the Church and one of the most important figures in Western history Rabbi Paul is at once a compelling highly readable biography and a window on how Jesus message was transformed into a religion embraced by millions around the world Drawing on Paul's own writings as well as historical and scholarly documents about his life and times Chilton portrays an all too human saint who helped to create both the most beautiful and the most troublesome aspects of the Church He shows that Paul sought to specify the correct approach to such central concerns as sexuality obedience faith conscience and spirit to define religion as an institution and to clarify the nature of the religious personality issues that Christians still struggle with today **Revisioning John Chrysostom** Chris de Wet, Wendy Mayer, 2019-01-04 In Revisioning John Chrysostom Chris de Wet and Wendy Mayer harness and promote a new wave of scholarship on the life and works of this famous late antique c 350 407 CE preacher New theories from the cognitive and neurosciences cultural and sleep studies and history of the emotions among others meld with reconsideration of lapsed approaches his debt to Graeco Roman paideia philosophy and now medicine resulting in sometimes surprising and challenging conclusions Together the chapters produce a fresh vision of John Chrysostom that moves beyond the often negative views of the 20th century and open up substantially new vistas for exploration *The Archaeology of the Early*
