Excavations Their Objects Freuds:

Excavations and Their Objects Stephen Barker, 1996-01-01 This is a collection of essays concerned with the thematic implications of Freud's deep interest in the art objects in his collection of antiquity **Inside the Freud Museums** Joanne Morra, 2017-12-11 Sigmund Freud spent the final year of his life at 20 Maresfield Gardens London surrounded by all his possessions in exile from the Nazis The long term home and workspace he left behind in Berggasse 19 Vienna is a seemingly empty space devoid of the great psychoanalyst s objects and artefacts Now museums both of these spaces resonate powerfully Since 1989 the Freud Museum London has held over 70 exhibitions by a distinctive range of artists including Louise Bourgeois Sophie Calle Mat Collishaw Susan Hiller Sarah Lucas and Tim Noble and Sue Webster The Sigmund Freud Museum Vienna houses a small but impressive contemporary art collection with work by John Baldessari Joseph Kosuth Jenny Holzer Franz West and Ilya Kabakov In this remarkable book Joanne Morra offers a nuanced analysis of these historical museums and their unique relationships to contemporary art Taking us on a journey through the site responsive artworks exhibitions and curatorial practices that intervene in the objects spaces and memories of these museums Joanne Morra offers a fresh experience of the history and practice of psychoanalysis of museums and contemporary art **Journey** Laurence Simmons, 2006-01-01 Freud's Italian Journey takes the psychoanalytical texts of Freud on the visual arts and literature as its objects for analysis While the biographical figure of Freud appears throughout its pages it is not simply a psychobiographical reading of Freud his personal circumstances and their relationship to his texts Rather the processes of interpretation begun by Freud are turned on Freud himself thus eventually displacing and questioning his theoretical mastery Freud's Italian Journey also argues that Freud's interest in frequent journeys to and obsession with Italy profoundly shaped and informed his elaboration of psychoanalysis The volume organizes its material around the major Italian cities which were the destinations of Freud's travel and the sites of the artworks he examined Freud's many Italian holidays were crucial for his self analysis and methodology but it is also argued here that his papers on Italian subjects must be read as texts marked by fascination and allurement crossed with anxiety and resistance inscribed by memory and forgetting Journeys to Italy heightened Freud's sense of the visual and it is contended that the visual dimension of Freud's writing is crucial to an understanding of his elaboration of the theory of psychoanalysis The relation between image and text is at the heart of Freud s analysis of works of art as he founds a critical methodology in which the two are interrelated image illustrating idea and idea needing to express itself in image but neither finally resolvable into the other Thus the argument of Freud's Italian Journey follows as its model the famous elaboration of the fort da game by Freud moving back and forth between Freud's life and his texts between psychoanalytical and philosophical systems between the written and the visual This leads to the broader conclusion that Freud might provide the key to a new practice of criticism and a new way of seeing and understanding visual images Nordic Private Collections of Chinese Objects Minna Törmä, 2020-05-27 This book explores

the ways in which Nordic private collectors displayed their collections of Chinese objects in their homes This leads to a reconsideration of how to define collecting and display by analysing the difference between objects serving as decorative or collectible items while tracing collecting and display trends of the twentieth century Minna T rm examines four Scandinavian collections as case studies Kustaa Hiekka Sophus Black Osvald Sir n and Marie Louise and Gunnar Didrichsen all of whom had professional backgrounds a jeweler two businessmen and a scholar and for whom collecting became a passion and an educational endeavour This book will be of interest to scholars in art history museum studies Chinese studies and design **Shadow Sites** Kitty Hauser, 2007-03-29 At certain times of the day at sunrise and sunset the outlines of prehistoric fields barrows and hill forts in the British landscape may be thrown into relief Such shadow sites best seen from above and captured by an airborne camera are both examples of and metaphors for a particular way of seeing the landscape At a time of rapid modernisation and urbanisation in mid twentieth century Britain an archaeological vision of the British landscape reassured and enchanted a number of writers artists photographers and film makers From John Piper Eric Ravilious and Shell guide books to photographs of bomb damage aerial archaeology and The Wizard of Oz Kitty Hauser delves into evocative interpretations of the landscape and looks at the affinities between photography as a medium to capture traces of the past as well as their absence Trauma in Contemporary Literature Marita Nadal, Mónica Calvo, 2014-03-26 Trauma in Contemporary Literature analyzes contemporary narrative texts in English in the light of trauma theory including essays by scholars of different countries who approach trauma from a variety of perspectives The book analyzes and applies the most relevant concepts and themes discussed in trauma theory such as the relationship between individual and collective trauma historical trauma absence vs loss the roles of perpetrator and victim dissociation nachtr glichkeit transgenerational trauma the process of acting out and working through introjection and incorporation mourning and melancholia the phantom and the crypt postmemory and multidirectional memory shame and the affects and the power of resilience to overcome trauma Significantly the essays not only focus on the phenomenon of trauma and its diverse manifestations but above all consider the elements that challenge the aporias of trauma the traps of stasis and repetition in order to reach beyond the confines of the traumatic condition and explore the possibilities of survival healing and recovery

Archaeology and Modernity Julian Thomas,2004-03 This is the first book length study to explore the relationship between archaeology and modern thought showing how philosophical ideas that developed in the seventeenth to nineteenth centuries still dominate our approach to the material remains of ancient societies Addressing current debates from a new viewpoint Archaeology and Modernity discusses the modern emphasis on method rather than ethics or meaning our understanding of change in history and nature the role of the nation state in forming our views of the past and contemporary notions of human individuality the mind and materiality **Studies in Ancient Greek and Roman Society** Robin Osborne,2004-07-15 This 2004 collection of papers includes some of the most innovative history written about Greece and Rome The volume offers a

convenient and enthralling guide to important issues and topics in Greek and Roman history maps the changing interests of ancient historians and raises stimulating questions about historical method The contributors to the volume represent many of the most exciting and influential ancient historians who have been active in the last guarter century. An introduction by the editor which places the papers in the wider context of changing interests in Greek and Roman history sets the scene for papers on Greek warfare the regulation and representation of women and the nature and study of homosexual relationships in Athens the relationship between Rome and its empire whether Rome was democratic the ideology of Augustan Rome games and gaming at Rome the lives of slaves the ancient interpretation of dreams the nature of religious pilgrimage early Christian martyr stories and bandits in the Roman empire **Antiquity Recovered** Victoria C. Gardner Coates, Jon L. Sevdl.2007 Antiquity Recovered presents 13 diverse essays that trace how perceptions of the past have changed over the course of three centuries of excavations They range in subject from a reassessment of the contents of the library at Herculaneum's Villa of the Papyri to the symbolic appearance of the ancient world in classic films Monotheism Jan Assmann, 2009-10-29 Nothing has so radically transformed the world as the distinction between true and false religion In this nuanced consideration of his own controversial Moses the Egyptian renowned Egyptologist Jan Assmann answers his critics extending and building upon ideas from his previous book Maintaining that it was indeed the Moses of the Hebrew Bible who introduced the true false distinction in a permanent and revolutionary form Assmann reiterates that the price of this monotheistic revolution has been the exclusion as paganism and heresy of everything deemed incompatible with the truth it proclaims This exclusion has exploded time and again into violence and persecution with no end in sight Here for the first time Assmann traces the repeated attempts that have been made to do away with this distinction since the early modern period He explores at length the notions of primary versus secondary religions of counter religions and of book religions versus cultic religions He also deals with the entry of ethics into religion s very core Informed by the debate his own work has generated he presents a compelling lesson in the fluidity of cultural identity and beliefs Sensory Design Joy Monice Malnar, 2004 Malnar architecture U of Illinois Urbana Champaign and Vodvarka fine arts Loyala U Chicago explore the nature of sensory response to the spatial constructs that people invest with meaning ranging from buildings of various sorts and purposes to gardens to constructions of fantasy These responses can serve as a typology for the design of si

Oedipus and the Sphinx Almut-Barbara Renger, 2024-05-31 When Oedipus met the Sphinx on the road to Thebes he did more than answer a riddle he spawned a myth that told and retold would become one of Western culture s central narratives about self understanding Identifying the story as a threshold myth in which the hero crosses over into an unknown and dangerous realm where rules and limits are not known Oedipus and the Sphinx offers a fresh account of this mythic encounter and how it deals with the concepts of liminality and otherness Almut Barbara Renger assesses the story s meanings and functions in classical antiquity from its presence in ancient vase painting to its absence in Sophocles s tragedy

before arriving at two of its major reworkings in European modernity the psychoanalytic theory of Sigmund Freud and the poetics of Jean Cocteau Through her readings she highlights the ambiguous status of the Sphinx and reveals Oedipus himself to be a liminal creature providing key insights into Sophocles's portrayal and establishing a theoretical framework that organizes evaluations of the myth's reception in the twentieth century Revealing the narrative of Oedipus and the Sphinx to be the very paradigm of a key transition experienced by all of humankind Renger situates myth between the competing claims of science and art in an engagement that has important implications for current debates in literary studies psychoanalytic theory cultural history and aesthetics The Origin of the Jews Steven Weitzman, 2019-04-02 The scholarly quest to answer the question of Jewish origins The Jews have one of the longest continuously recorded histories of any people in the world but what do we actually know about their origins While many think the answer to this question can be found in the Bible others look to archaeology or genetics Some skeptics have even sought to debunk the very idea that the Jews have a common origin Steven Weitzman takes a learned and lively look at what we know or think we know about where the Jews came from when they arose and how they came to be He sheds new light on the assumptions and biases of those seeking answers and the religious and political agendas that have made finding answers so elusive Introducing many approaches and theories The Origin of the Jews brings needed clarity and historical context to this enduring and divisive topic <u>India</u> Alf Hiltebeitel, 2018-08-07 This book provides a suspenseful exploration of the conflictual relationship between Sigmund Freud and Girindrasekhar Bose the first president as of 1921 of the Indian Psychoanalytic Society and the most prominent promoter though also contester and complicator of Freudian ideas in South Asia from the 1920s to the 1940s Couch, Scott's Buttocks, Brontë's Grave Simon Goldhill, 2011-10-01 The Victorian era was the high point of literary tourism Writers such as Charles Dickens George Eliot and Sir Walter Scott became celebrities and readers trekked far and wide for a glimpse of the places where their heroes wrote and thought walked and talked Even Shakespeare was roped in as Victorian entrepreneurs transformed quiet Stratford upon Avon into a combination shrine and tourist trap Stratford continues to lure the tourists today as do many other sites of literary pilgrimage throughout Britain And our modern age could have no better guide to such places than Simon Goldhill In Freud's Couch Scott's Buttocks Bront's Grave Goldhill makes a pilgrimage to Sir Walter Scott s baronial mansion Wordsworth s cottage in the Lake District the Bront parsonage Shakespeare s birthplace and Freud's office in Hampstead Traveling as much as possible by methods available to Victorians and gamely negotiating distractions ranging from broken bicycles to a flock of giggling Japanese schoolgirls he tries to discern what our forebears were looking for at these sites as well as what they have to say to the modern mind What does it matter that Emily Bront s hidden passions burned in this specific room What does it mean especially now that his fame has faded that Scott self consciously built an extravagant castle suitable for Ivanhoe and star struck tourists visited it while he was still living there Or that Freud's meticulous recreation of his Vienna office is now a meticulously preserved museum of itself Or that Shakespeare

s birthplace features student actors declaiming snippets of his plays in the garden of a house where he almost certainly never wrote a single line Goldhill brings to these inquiries his trademark wry humor and a lifetime s engagement with literature. The result is a travel book like no other a reminder that even today the writing life still has the power to inspire

Possessed Rebecca R. Falkoff, 2021-05-15 In Possessed Rebecca R Falkoff asks how hoarding once a paradigm of economic rationality came to be defined as a mental illness Hoarding is unique among the disorders included in the American Psychiatric Association s DSM 5 because its diagnosis requires the existence of a material entity the hoard Possessed therefore considers the hoard as an aesthetic object produced by clashing perspectives about the meaning or value of objects The 2000s have seen a surge of cultural interest in hoarding and those whose possessions overwhelm their living spaces Unlike traditional economic elaborations of hoarding which focus on stockpiles of bullion or grain contemporary hoarding results in accumulations of objects that have little or no value or utility Analyzing themes and structures of hoarding across a range of literary and visual texts including works by Nikolai Gogol Arthur Conan Doyle Carlo Emilio Gadda Luigi Malerba Song Dong and E L Doctorow Falkoff traces the fraught materialities of the present to cluttered spaces of modernity bibliomaniacs libraries flea markets crime scenes dust heaps and digital archives Possessed shows how the figure of the hoarder has come to personify the economic epistemological and ecological conditions of modernity Thanks to generous funding from New York University and its participation in TOME Toward an Open Monograph Ecosystem the ebook editions of this book are available as Open Access OA volumes from Cornell Open cornellpress cornell edu cornell open and other Freud's Mahabharata Alf Hiltebeitel, 2018-08-06 Though Freud never overtly refers to the Open Access repositories Mahthe companion volume to Freud's India Alf Hiltebeitel offers what he calls a pointillist introduction to a new theory about the Mah On Dangerous Ground Diane O'Donoghue, 2018-10-18 Winner of the 2019 Robert S Liebert Award established jointly by the Association for Psychoanalytic Medicine and the Columbia University Center for Psychoanalytic Training and Research In the final years of the 19th century Sigmund Freud began to construct evidence for the workings of an unconscious On Dangerous Ground offers an innovative assessment of the complex role that his encounters with visual cultures architecture objects from earlier cultural epochs antiquities paintings and illustrated books played in that process Diane O Donoghue introduces often using unpublished archival sources the ways in which material phenomena profoundly informed Freud's decisions about what would and would not constitute the workings of an inner life By returning to view content that Freud treated as forgettable as distinct from repressed O Donoghue shows us a realm of experiences that Freud wished to remove from psychical meaning These erasures form an amnesic core within Freud's psychoanalytic project an absence that includes difficult aspects of his life narrative beginning with the dislocations of his early childhood that he declared not worth remembering What is made visible here is far from the inconsequential surface of experience rather we are shown a dangerous ground that exceeds the limits of what Freud wished to include within his early model of mind In

Freud's relation to visual cultures we find clues to what he attempted in crafting his unconscious to remove from sight **Compulsion for Antiquity** Richard H. Armstrong, 2018-07-05 If psychoanalysis is the return of repressed antiquity distorted to be sure by modern desire yet still bearing the telltale traces of the ancient archive then would not our growing distance from the archive of antiquity also imply that we are in the process of losing our grip on psychoanalysis itself as Freud conceived it from Chapter 1As he developed his striking new science of the mind Sigmund Freud had frequent recourse to ancient culture and the historical disciplines that draw on it A Compulsion for Antiquity fully explores how Freud appropriated figures and themes from classical mythology and how the theory and practice of psychoanalysis paralleled contemporary developments in historiography archaeology philology and the history of religions Drawing extensively from Freud's private correspondence and other notes and documents Richard H Armstrong touches on Freud's indebtedness to Sophocles and the Oedipus complex his interest in Moses and the Jewish religion and his travels to Athens and Rome Armstrong shows how Freud turned to the ancient world to deal with the challenges posed by his own scientific ambitions and how these lessons influenced the way he handled psychic evidence and formulated the universal application of what were initially isolated clinical truths Freud's narrative reconstructions of the past also related to his sense of Jewishness linking the historical trajectory of psychoanalysis with contemporary central European Jewish culture Ranging across the breadth of Freud's work A Compulsion for Antiquity offers fresh insights into the roots of psychoanalysis and fin de si cle European culture and makes an important contribution to the burgeoning discipline of mnemohistory **Mirrors of Memory** Mary Bergstein, 2010 A significant contribution to our understanding of early twentieth century visual culture and an exploration of how photography shaped the ways in which the great archaeologist of the human mind saw and thought about the world
