*Excavations at Tell Deir 'Alla* Hendricus Jacobus Franken,1992      **Bronze-Working Centres Of Western Asia**  
Curtis,2021-09-01 First published in 1988 the present volume contains the texts of papers read at a three day Colloquium on bronzeworking centres in Western Asia from 1000 BC until the beginning of the Achaemenian period in 539 BC which was held in the British Museum in July 1986 Each paper has been revised in the light of the discussion which followed it The Colloquium was organized by Dr J E Curtis on behalf of the Department of Western Asiatic Antiquities and forms the first in a series which it is hoped will be held annually      **Excavations at Tell Deir 'Alla** Hendricus Jacobus Franken,1992 Peeters 1992      Ancient Ammon B. MacDonald,Younker,2023-11-13 This work is a presentation on a people of Transjordan known to readers of the Bible as a neighbour and often an enemy of first millennium B C Israel Topics include a review of archaeological research in Ammon the emergence of the Ammonites and Ammonite territory and sites      *Early History of the Israelite People* Thomas L. Thompson,1992 Archaeological Sources      *The Oxford Handbook of the Phoenician and Punic Mediterranean* Carolina López-Ruiz,Brian R. Doak,2022 The Phoenicians created the Mediterranean world as we know it yet they remain a shadowy and poorly understood group The academic study of the Phoenicians has come to an important crossroads the field has grown in sheer content sophistication of analysis and diversity of interpretation and we now need a current overview of where the study of these ancient seafarers and craftsman stands and where it is going Moreover the field of Phoenician studies is particularly fragmented and scattered While there is growing interest in all things Phoenician and Punic the latest advances are mostly published in specialized journals and conference volumes in a plethora of languages This Handbook is the first of its type to appear in over two decades and the first ever to appear in English In these chapters written by a wide range of prominent and promising scholars from across Europe North America Australia and the Mediterranean world readers will find summary studies on key historical moments such as the history of Carthage areas of culture organized around language religion and material culture regional studies and areas of contact spanning from the Levant and the Aegean to Iberia and North Africa and the reception of the Phoenicians as an idea entangled with the formation of other cultural identities both ancient and modern      **Early History of the Israelite People**  
Thompson,2021-11-08 This is a groundbreaking book on the origins of Israel taking into account the contexts of geography anthropology and sociology and drawing on a careful analysis of archaeological and written evidence Thompson argues that none of the traditional models for the origin of biblical Israel in terms of conquest peaceful settlement or revolution are viable The ninth and eighth century BC State of Israel is a product of the Mediterranean economy The development of the ethnic concept of biblical Israel finds its context in history first at the time of the Persian renaissance The volume presents a clear historical context and an interpretative matrix for the Bible      **Excavations at Tell Deir Alla** H.
