Excavations At York Minster Volume I:

Excavations at York Minster Derek Phillips, Brenda Heywood, 1985 The historical evidence contained in this text offers a detailed account of social economic and ideological change based on excavations at York Minster a place favoured by Roman Anglian Viking and Norman invaders The Archaeology of the 11th Century Dawn M Hadley, Christopher Dyer, 2017-02-10 The Archaeology of the 11th Century explores this formative period of English history and in particular the impact of the Conquest of England by the Normans The volume examines how the Normans contributed to local culture religion and society through a range of topics including food culture funerary practices the development of castles and their impact and how both urban and rural life evolved during the eleventh century Through its nuanced approach to the complex relationships and regional identities which characterized the period this collection stimulates renewed debate and challenges some of the long standing myths surrounding the Conquest **York Minster Excavation Report**, 1980 **Excavations at York Minster** Derek Phillips, Brenda Heywood, 1985 The historical evidence contained in this text offers a detailed account of social economic and ideological change based on excavations at York Minster a place favoured by Roman Anglian Viking and Norman invaders *Ironwork in Medieval Britain: An Archaeological Study: v. 31* Ian H. Goodall, 2017-12-02 This monograph is the definitive survey of iron tools and other fittings in use during the period c1066 to 1540AD Exceptional in a north western European context for its range and coverage of artefacts from both rural and urban excavations much of the material described here was recovered during rescue projects in the 1960s and 1970s funded by the State through the Ministry of Public Works and Buildings and their successors The text contains almost everything necessary to identify date and understand medieval iron objects In scope and detail there is still no published parallel and as such it will be essential for almost any archaeologist working in later medieval archaeology particularly in the fields of excavation finds study museums and research Agency Uncovered Andrew Gardner, 2016-06-16 This book questions the value of the concept of agency a term used in sociological and philosophical literature to refer to individual free will in archaeology using examples from European and Asian prehistory classical Greece and Rome the Inka and other Andean cultures **Edward the Elder** N.J. Higham, D.H. Hill, 2013-10-11 Edward the Elder son and successor of King Alfred was one of the greatest architects of the English state and yet is one of the most neglected kings of English history During his 24 year reign Edward led a series of successful campaigns against the Vikings and by the time of his death controlled most of southern and midland England with his influence also felt in Wales and the north Edward the Elder is a timely reassessment of his reign and helps to restore this ruler to his rightful place in English history The period of Edward's reign is notably lacking in primary materials for historians But by drawing upon sources as diverse as literature archaeology coins and textiles this book brings together a rich variety of scholarship to offer new insight into the world of Edward the Elder With this wealth of perspectives Edward the Elder offers a broad picture of Edward's reign and his relation to the politics and culture of the Anglo Saxon period

TRAC 2000 Gwyn Davies, Andrew Gardner, Kris Lockyear, 2017-06-30 Thirteen papers on Roman archaeology from the 10th TRAC conference in London The tenth Theoretical Roman Archaeology Conference was held in April 2000 at the Institute of Archaeology As the conference was divided into five different sessions In the opening session Representing Romans the methodology of portraying the Romans to the wider world was explored Hunter and Clarke's paper outline the challenge of designing appropriate gallery displays for the new National Museum of Scotland whereas Grew discusses the development of Roman London Fincham's paper discusses the threat of overwhelming military intervention by the imperial power in colonial negotiations Issues of ethnicity gender class and occupation within the later Roman army are addressed here Green's paper presents an important discussion of the nature of human stag hybrids in Iron Age and Gallo Roman iconography and Hawkes presents an analysis of differential foodways preparing and serving meals encountered in Roman Britain Carr considers the role of body decoration and grooming arguing that individuals in different areas of south eastern Roman Britain made different cultural choices to structure their ethnic identities The final set of papers focused on Constructing Childhood in the Roman World reconsidering some long standing truisms regarding the status and treatment of children in the Roman context Pearce's examines Roman infant burial and what role religion plays in burial ceremony

Life in the Limes Rob Collins, Frances McIntosh, 2014-03-31 Lindsay Allason Jones has been at the forefront of small finds and Roman frontier research for 40 years in a career focussed on but not exclusive to the north of Britain encompassing an enormous range of object types and subject areas Divided into thematic sections the contributions presented here to celebrate her many achievements all represent at least one aspect of Lindsay's research interests These encompass social and industrial aspects of northern frontier forts new insights into inscribed and sculptural stones specific to military communities religious cultural and economic connotations of Roman armour finds the economic and ideological penetration of Romanitas in the frontiers as reflected by individual objects and classes of finds evidence of trans frontier interactions and invisible people the role of John Clayton in the exploration and preservation of Hadrian's Wall and its material culture the detailed consideration of individual objects of significant interest and a discussion of the widespread occurrence of mice in Roman art

The Oxford Handbook of Anglo-Saxon Archaeology Helena Hamerow, David A. Hinton, Sally Crawford, 2011-03-31 Written by a team of experts and presenting the results of the most up to date research The Handbook of Anglo Saxon Archaeology will both stimulate and support further investigation into a society poised at the interface between prehistory and history Anglo-Saxon Studies in Archaeology and History 23 Helena Hamerow, 2023-10-27 Volume 23 of Anglo Saxon Studies in Archaeology and History ASSAH a series concerned with the archaeology and history of England and its neighbours during the Anglo Saxon period circa AD 400 1100 **Formative Britain** Martin Carver, 2019-01-14 Formative Britain presents an account of the peoples occupying the island of Britain between 400 and 1100 AD whose ideas continue to set the political agenda today Forty years of new archaeological research has laid bare a

hive of diverse and disputatious communities of Picts Scots Welsh Cumbrian and Cornish Britons Northumbrians Angles and Saxons who expressed their views of this world and the next in a thousand sites and monuments This highly illustrated volume is the first book that attempts to describe the experience of all levels of society over the whole island using archaeology alone The story is drawn from the clothes faces and biology of men and women the images that survive in their poetry the places they lived the work they did the ingenious celebrations of their graves and burial grounds their decorated stone monuments and their diverse messages This ground breaking account is aimed at students and archaeological researchers at all levels in the academic and commercial sectors It will also inform relevant stakeholders and general readers alike of how the islands of Britain developed in the early medieval period Many of the ideas forged in Britain s formative years underpin those of today as the UK seeks to find a consensus programme for its future

Archaeology, Economy and Society David A. Hinton, 2002-03-11 Many books have been written on particular aspects of medieval archaeology or on particular parts of the period but synthesis across the whole spectrum has not been attempted before The aim of this book is to examine the contribution that archaeology can make to an understanding of the social economic religious and other developments that took place in England from the migrations of the fifth and sixth centuries to the beginning of the Renaissance showing how society and economy evolved in that time span Drawing on the latest available material the book takes a chronological approach to the archaeological material of the post Roman period in order to emphasize the changes that can be observed in the physical evidence and some of the reasons for them that can be suggested The environment in which people functioned and how they expressed themselves for example in their houses and burial practices their pottery and their clothes show how they were constrained by social customs and economic pressures

Death in England Peter C. Jupp, Clare Gittings, 1999 Death in England provides the first ever social history of death from the earliest times 500 000 BC to Diana Princess of Wales The book reveals how attitudes practices and beliefs about death have undergone constant change how why and at what ages people died plagues and violence wills and deathbeds funerals and memorials beliefs and bereavement Richly illustrated striking and often very powerful images In time with the spirit of the age and coming Millenium key scholars in their field write on their respective periods With the recent upturn of popular interest in death through films TV books and newspapers this book will prove stimulating to the general reader to students of archaeology art history medicine and sociology

Anglo-Saxon Towers of Lordship Michael G. Shapland, 2019-01-10 It has long been assumed that England lay outside the Western European tradition of castle building until after the Norman Conquest of 1066 It is now becoming apparent that Anglo Saxon lords had been constructing free standing towers at their residences all across England over the course of the tenth and eleventh centuries Initially these towers were exclusively of timber and quite modest in their scale although only a handful are known from archaeological excavation There followed the so called tower nave churches towers with only a tiny chapel located inside which appear to have had a dual function as buildings of elite

worship and symbols of secular power and authority For the first time this book gathers together the evidence for these remarkable buildings many of which still stand incorporated into the fabric of Norman and later parish churches and castles It traces their origin in monasteries where kings and bishops drew upon Continental European practice to construct centrally planned tower like chapels for private worship and burial and to mark gates and important entrances particularly within the context of the tenth century Monastic Reform Adopted by the secular aristocracy to adorn their own manorial sites it argues that many of the known examples would have provided strategic advantage as watchtowers over roads rivers and beacon systems and have acted as focal points for the mustering of troops The tower nave form persisted into early Norman England where it may have influenced a variety of high status building types such as episcopal chapels and monastic belltowers and even the keeps and gatehouses of the earliest stone castles The aim of this book is to finally establish the tower nave as an important Anglo Saxon building type and to explore the social architectural and landscape contexts in which they operated

Excavations at York Minster Vol 1 D. PHILLIPS,B. HEYWOOD,CARVER. CARVER,ROYAL COMMISSION ON THE HISTORICAL MONUMENTS OF ENGLAND - SEE PHILLIPS.,1995 *Mints and Money in Medieval England* Martin R. Allen,2012-02-23 A definitive study of coin production in medieval England tracing the development significance and wider context of mints and money *Death and Changing Rituals* J. Rasmus Brandt,Håkon Roland,Marina Prusac,2014-07-31 The forms by which a deceased person may be brought to rest are as many as there are causes of death In most societies the disposal of the corpse is accompanied by some form of celebration or ritual which may range from a simple act of deportment in solitude to the engagement of large masses of people in laborious and creative festivities In a funerary context the term ritual may be taken to represent a process that incorporates all the actions performed and thoughts expressed in connection with a dying and dead person from the preparatory pre death stages to the final deposition of the corpse and the post mortem stages of grief and commemoration The contributions presented here are focused not on the examination of different funerary practices their function and meaning but on the changes of such rituals how and when they occurred and how they may be explained Based on case studies from a range of geographical regions and from different prehistoric and historical periods a range of key themes are examined concerning belief and ritual body and deposition place performance and commemoration exploring a complex web of practices *The Ruin of Roman Britain* James Gerrard,2013-10-10 How did Roman Britain end This new study draws on fresh archaeological discoveries to argue that the end of Roman Britain was not the product of either a violent cataclysm or an economic collapse Instead the structure of late antique society based on the civilian ideology of paideia was forced to change by the disappearance of the Roman state By the fifth century elite power had shifted to the warband and the edges of their swords In this book Dr Gerrard describes and explains that process of transformation and explores the role of the Anglo Saxons in this time of change This profound ideological shift returned Britain to a series of small worlds the existence of which had been hidden by the globalizing structures of Roman imperialism

Highly illustrated the book includes two appendices which detail Roman cemetery sites and weapon trauma and pottery assemblages from the period **Viking Age England** Julian Richards, 2004-03-25 From shortly before AD 800 until the Norman Conquest England was subject to raids from seafaring peoples from Scandinavia the Vikings However they were not only raiders but also traders and settlers Using the latest archaeological evidence the author reassesses the Viking contribution to Late Anglo Saxon England and examines the creation of the new mixed Anglo Scandinavian identity
