Structural Changes and their Econometric Modeling

Vladik Kreinovich,Songsak Sriboonchitta,2018-11-24 This book focuses on structural changes and economic modeling It presents papers describing how to model structural changes as well as those introducing improvements to the existing before structural changes models making it easier to later on combine these models with techniques describing structural changes The book also includes related theoretical developments and practical applications of the resulting techniques to economic problems Most traditional mathematical models of economic processes describe how the corresponding quantities change with time However in addition to such relatively smooth numerical changes economical phenomena often undergo more

drastic structural change Describing such structural changes is not easy but it is vital if we want to have a more adequate description of economic phenomena and thus more accurate and more reliable predictions and a better understanding on how best to influence the economic situation

Financial Valuation And Econometrics (2nd Edition) Kian Guan Lim, 2015-04-15 This book is an introduction to financial valuation and financial data analyses using econometric methods It is intended for advanced finance undergraduates and graduates Most chapters in the book would contain one or more finance application examples where finance concepts and sometimes theory are taught This book is a modest attempt to bring together several important domains in financial valuation theory in econometrics modelling and in the empirical analyses of financial data These domains are highly intertwined and should be properly understood in order to correctly and effectively harness the power of data and statistical or econometrics methods for investment and financial decision making The contribution in this book and at the same time its novelty is in employing materials in basic econometrics particularly linear regression analyses and weaving into it threads of foundational finance theory concepts ideas and models It provides a clear pedagogical approach to allow very effective learning by a finance student who wants to be well equipped in both theory and ability to research the data This is a handy book for finance professionals doing research to easily access the key techniques in data analyses using regression methods Students learn all 3 skills at once finance econometrics and data analyses It provides for very solid and useful learning for advanced undergraduate and graduate students who wish to work in financial analyses risk analyses and financial research areas

Economic and Financial Modelling with EViews Abdulkader Aljandali, Motasam Tatahi, 2018-10-22 This practical guide in EViews is aimed at practitioners and students in business economics econometrics and finance It uses a step by step

approach to equip readers with a toolkit that enables them to make the most of this widely used econometric analysis software. Statistical and econometrics concepts are explained visually with examples, problems and solutions. Developed by economists, the Eviews statistical software package is used most commonly for time series oriented econometric analysis. It allows users to quickly develop statistical relations from data and then use those relations to forecast future values of the data. The package provides convenient ways to enter or upload data series, create new series from existing ones, display and print series, carry out statistical analyses of relationships among series and manipulate results and output. This highly hands-on resource includes more than 200 illustrative graphs and tables and tutorials throughout.

Abdulkader Aljandali is Senior Lecturer at Coventry University in London. He is currently leading the Stochastic Finance Module taught as part of the Global Financial Trading MSc. His previously published work includes *Exchange Rate Volatility in Emerging Markets*, *Quantitative Analysis Multivariate Methods Forecasting with IBM SPSS Statistics* and *Multivariate Methods and Forecasting with IBM SPSS Statistics*. Dr Aljandali is an established member of the British Accounting and Finance Association and the Higher Education Academy.

Motasam Tatahi is a specialist in the areas of Macroeconomics, Financial Economics and Financial Econometrics at the European Business School, Regent's University London, where he serves as Principal Lecturer and Dissertation Coordinator for the MSc in Global Banking and Finance at The European Business School London.
