Economic Activity and Land Use The Changing Information Base for Local and Regional Studies Michael J. Healey, 2014-10-13 Concerned primarily with statistical data this text aims to provide a guide to the nature, uses, availability and limitations of the main data sources for interpreting and undertaking regional studies of economic activity. Geographers Charles W. J. Withers, Hayden Lorimer, 2015-12-14 This twenty-sixth volume of *Geographers Biobibliographical Studies* brings together essays on leading figures in time geography and regional theory, on GIS, on regional cultural and political geography, on scriptural geography, historical geography and methodology, and on African exploration. Each essay engages with the individual's contribution to geography, their works and their lives, and the intellectual and social contexts in which they worked and which helped shape them. In addition, and to mark the new co-editorial pairing leading the series, the volume has an essay on the history of GBS, on the importance of biographical work in the history of geography, and on issues to be addressed by the scholarly communities engaged in promoting this vital area of geographical research. *Indicators for Urban and Regional Planning* Cecilia Wong, 2006-09-27 This book focuses on the measurement and utilisation of quantitative indicators in the urban and regional planning fields. There has been a resurgence of academic and policy interest in using indicators to inform planning, partly in response to the current government's information-intensive approach to decision making. The content of the book falls into three broad sections: indicators, usage and policy making, methodological and conception issues, and case studies of policy indicators. *International Bibliography of Economics* British Library of Political and Economic Science, 1993 IBSS is the essential tool for librarians, university departments, research institutions, and any public or private institution whose work requires access to up-to-date and comprehensive knowledge of the social sciences. Long-range Futures Research Robert H. Samet, 2009-03-24 This highly readable study explains how complexity science provides an evolutionary model for the civil system with a new world view that out-ranges United Nations reference scenarios to beyond 2150. *Methods of Environmental Impact Assessment* Peter Morris, Riki Therivel, 2001-08-23 Offers a comprehensive coverage of the methods used in environmental impact assessment, which is now firmly established as an obligatory procedure in proposing or launching any development project with possible impacts on the environment. **Methods in Human Geography** Robin Flowerdew, David M. Martin, 2013-10-08 First published in 2004, this text is an essential guide to current research approaches in human geography, covering all aspects of undertaking a geography research project, from the selection of an appropriate topic through to the organisation and writing of the final report. Covering a wide range of contemporary research methods, the authors provide practical advice on how to actually undertake a project. TOOLS FOR POLICY RESEARCH BONARD MWAPE; JOSEPH MUMBA, 2012-05-09 This book is designed as a thesis research manual for students pursuing policy research at a Masters level. It is also intended for
