Economic Reforms, Growth and Inequality in Latin America Gustavo Indart, 2019-06-04 Originally published in 2004 Growth income distribution and labour markets are issues of pivotal importance in the Latin American context Examining unique theoretical issues and the empirical evidence this book provides a critical analysis of the key elements of income distribution determinants labour market functions trade policies and their interrelations As the advance of globalization becomes seemingly unstoppable this book provides an important reappraisal of the impact of this new phenomenon and in particular the pernicious impact it may have on income growth and distribution The key objective of the volume is to integrate more fully the analysis of trade and labour market economists in order to better understand the labour market and income distribution implications of globalization and international integration Forty years after the early calls to appropriately investigate the micro foundations of macroeconomics the separation of the two at the policy level is more damaging than ever before particularly for developing regions this volume therefore makes an important contribution at the theoretical and policy levels by bringing together macroeconomic and microeconomic analyses

Stability with Growth Joseph Stiglitz, José Antonio Ocampo, Shari Spiegel, Ricardo Ffrench-Davis, Deepak Nayyar, 2006-08-31 There is growing dissatisfaction with the economic policies advocated by the IMF

and other international financial institutions policies that have often resulted in stagnating growth crises and recessions for client countries This book presents an alternative to Washington Consensus neo liberal economic policies by showing that both macro economic and liberalization policy must be sensitive to the particular circumstances of developing countries One size fits all policy prescriptions are likely to fail given the vast differences between countries This book discusses how alternative approaches to economic policy can better serve developing countries both in ordinary times and in times of crisis
