Economic And Social Impact Of Aids In Europe:

The Economic and Social Impact of AIDS in Europe David W. FitzSimons, Keith Tolley, 1995 This analysis of the economic and social aspects of AIDS in Europe aims to persuade key policy makers of the continuing need to address HIV and AIDS and fund AIDS prevention Topics covered include treatment costs in selected countries and the impact of HIV on the individual's family

Sexual Behaviour and HIV/AIDS in Europe Michel Hubert, Nathalie Bajos, Theo Sandfort, 2002-03-30 Originally published in 1998 Sexual Behaviour and HIV AIDS in Europe is a detailed study comparing the major population surveys on sexual behaviour and HIV AIDS carried out in Europe at the time of publication Leading European researchers explore the differences and similarities between European countries in patterns of sexual behaviour and responses to the HIV AIDS epidemic As well as providing an empirical and methodological base for future research the comparative analyses lead researchers policy makers health educators and the media to new insights and a deeper understanding of issues that are of central concern in many countries The chapters include discussion of data on sexual initiation homosexual and bisexual behaviour sexual practices sexual partners risk behaviour STDs preventive practices the normative context knowledge of HIV AIDS and attitudes towards people with HIV AIDS The book results from a major European Concerted Action funded by the European Union Biomedical and Health Research programme BIOMED and coordinated by the Centre d'Etudes Sociologiques of the Facultés Universitaires Saint Louis Brussels Belgium It follows Sexual Interactions and HIV Risk published in 1997

Disease and Democracy Peter Baldwin, 2005-05-16 A historical masterpiece Just when we thought we knew everything about the politics and policies of the HIV AIDS pandemic Peter Baldwin surprises us with innovative insights about the sharp differences in policy among countries as well as complex tradeoffs between civil liberties and public goods This is a refreshing and readable book in which AIDS is used as a lens to understand the public health enterprise ranging from leprosy and syphilis to tuberculosis and SARS Baldwin offers a deeply historical and comparative understanding of HIV in the industrialized world Lawrence O Gostin author of Public Health Law Power Duty Restraint Although a vast literature has emerged to chronicle and reflect on the history of the AIDS epidemic since it was first reported almost a quarter of a century ago there is nothing like Peter Baldwin's probing and synthetic analysis of AIDS in the industrialized world Building on his masterful *Contagion and the State in Europe 1830-1930* Baldwin has provided a complex historical tapestry of how an epidemic threat has challenged and exposed democracies that thought infectious threats a thing of the past Ronald Bayer author of *Private Acts Social Consequences Aids and the Politics Of Public Health* and coauthor with Gerald Oppenheimer of *AIDS Doctors Voices from the Epidemic*

Antiviral Strategies Hans-Georg Kräusslich, Ralf Bartenschlager, 2008-12-02 A crucial issue for antiviral therapy is the fact that all antiviral substances rapidly select for resistance thus monitoring and overcoming resistance has become a most important clinical paradigm of antiviral therapy This calls for cautious use of antiviral drugs and implementation of combination therapies In

parallel efforts in drug discovery have to be continued to develop compounds with novel mode of action and activity against resistant strains This book reviews the current status of antiviral therapy from the roads to development of new compounds to their clinical use and cost effectiveness Individual chapters address in more detail all available drug classes and outline new approaches currently under development

Encyclopedia of Government and Politics M. E. Hawkesworth, Maurice Kogan, 2004 This is a brand new edition of the critically acclaimed Encyclopedia of Government and Politics which has been fully revised and updated to provide a systematic account of politics and political studies at the beginning of the new millennium Providing a penetrating analysis of government and politics at a global regional and nation state level the Encyclopedia assesses both traditional and contemporary approaches and projects the paths of future research The articles provide a degree of critical analysis far beyond a simple descriptive outline of the subject Internationally respected contributors have been carefully selected to present contending approaches to related topics both to clarify the political implications of the various methodologies and to enrich the portrayal of political life With its expanded revised and updated coverage Encyclopedia of Government and Politics is more than ever an indispensable tool for students teachers professional analysts and policy makers

HIV/AIDS in Europe World Health Organization. Regional Office for Europe, 2006 Tells the story of HIV AIDS in Europe from a broad variety of perspectives bio medical social cultural economic and political The authors are leading experts from across the region and include both the infected and the affected be they doctors or former drug users United Nations employees or gay men public health researchers or community activists They describe how from the first documented cases in 1981 to the present era of antiretroviral management controlling the human immunodeficiency virus in Europe has provided elusive

The Socioeconomic Impact of COVID-19 on Eastern European Countries Rafał Wisła, Paweł Dykas, 2021-11-15 The year 2020 went down in economic history due to the dramatic and drastic changes in economic and social conditions that resulted from the outbreak of the global pandemic of COVID 19 This book offers a multi level narrative about the pandemic written from national and international perspectives enabling the authors to construct several macro and mega scenarios The book consists of six chapters Four of them discuss the process of the COVID 19 pandemic caused by the SARS CoV 2 virus in Europe in 2020 i e the directions and dynamics of the spread and its socioeconomic consequences and provide a comparative analysis of fiscal and monetary packages employed by Europe with an emphasis on Eastern European countries The remaining two chapters contain forecasts and scenarios The fifth chapter dedicated to forecasts provides readers with a comprehensive description of possible consequences of any epidemic leading to severe social losses such as high percentages of infected and dead limited interpersonal contacts as a result of lockdown a lowered level of general individual and social well being as well as economic losses for example a decline in production as a result of the collapse of aggregate demand and a reduction in the supply capacity of the economy consequently slowing down the pace of capital accumulation The sixth final chapter describes possible scenarios of the spread of the pandemic in Poland

and Ukraine depending on measures taken by the governments of those countries The Socioeconomic Impact of COVID 19 on Eastern European Countries is designed as a practical reference for scholars researchers and policymakers The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Aids in the World Jafar Mahmud,2004 **Economics and HIV** Deborah Johnston,2013-05-29 This book explains how and why economics has been applied to a terrible pandemic using a range of examples mostly drawn from the region most affected sub Saharan Africa Part I shows that microeconomic approaches have found fertile ground in a public health approach that blames individual choices for HIV transmission Despite their attractiveness however these approaches fail to explain contemporary patterns of HIV prevalence illustrating the importance of factors that are excluded from the standard micro economic approach Part II of the book looks at our problems in understanding the economic impact of AIDS and explains why economists cannot agree if epidemic disease is a good or bad thing for economic development In both sections of the book the potential for alternative approaches is shown and the book ends by arguing that a political economy approach can bring meaningful insights to our understanding of the spread and impact of HIV AIDS

The Economic Impact of Digital Technologies Paolo Guerrieri,Sara Bentivegna,2011-01-01 The Economic Impact of Digital Technologies offers a profoundly illuminating examination of ICT transformations in Europe and its critical role in greater social inequality It presents scholars and policy makers with original and practical tools to benchmark and assess the ICT diffusion and inclusion process The core message of book is that a coherent European strategy for embedding ICT technologies in society is long overdue Social differences in ICT use persist and are in some cases widening yet despite this fact there is a dearth of research on remedying digital inequalities This is of particular importance given that relative levels of ICT use investment and research can often explain variations in economic performance between industrialised countries The purpose of this book is to fill the gap in the literature by presenting key evidence on the economic benefits and costs deriving from investment in an inclusive information society The authors propose indicators and indexes of digital development and e Inclusion and its flip side e exclusion to assess the relationship between inclusive ICT and wider economic and social performance in Europe Presenting the methodology to monitor countries performance and ICT use together with original measures and policy suggestions this book will be indispensable to policymakers scholars and postgraduate students in a variety of areas including economic growth innovation industrial and organizational studies information and technology European studies and public and social policy

Abstracts 7103-9613 ,1988 **Tackling the World's Fastest-Growing HIV Epidemic** Feng Zhao,Clemens Benedikt,David Wilson,2020-06-26 The Eastern Europe and Central Asia region has the

world s fastestgrowingHIV epidemic Although still concentrated the epidemic hasdiversified affecting several key populations

in many countries This change has increased the number of people in need the ways the epidemic can spread and the complexity of formulating an effective strategy to combat it At the same time international funding is insufficient to cover the growing need and domestic plans to cover the funding gaps in many cases fall short In this environment the need to use data to make the best possible decisions about using available funds is essential Tackling the World's Fastest Growing HIV Epidemic tells the story of how in 11 countries across Eastern Europe and Central Asia small groups of decision makers and experts came together to carry out innovative groundbreaking analyses for each country It details the steps these nations have taken to strengthen their HIV programs based on the findings while highlighting critical issues for the road ahead In so doing the book also shows the potential of what can be done with a mathematical model and how it can support real life improvements in policy and more efficacious budget allocations It is the record of a unique undertaking to improve public health investments that offers lessons for many communities

AIDS Research at EC Level Andre E. rules taken at an EU and national level **The HIV Pandemic** Peter Piot, 2007-12-14 As we approach the 25th anniversary of the first recognition of HIV AIDS in 1981 this book reflects on the international impact of the disease It has persistently remained a global issue with more than 50 million people worldwide estimated to have been infected since that date This ambitious book written by 165 authors from 30 countries offers a multi country comparative study that examines how the response to the common global threat of HIV is shaped by the history culture institutions and health systems of the individual countries affected Increasingly the shift of health systems has been from prevention only as the main containment strategy to a strategy that includes scaling up HIV treatment and care and prevention services including antiretroviral therapy Thus all parts of the health system must be involved policy makers healthcare professionals and users of the services have been forced to think differently about how services are financed how resources are allocated how systems are structured and organized how services are delivered to patients and how the resulting activity is monitored and evaluated in order to improve the effectiveness efficiency equity and acceptability of the response This book is unique in attempting to describe and assess a range of responses across the globe by situating them within the characteristics of each country and its health system Most chapters combine a health policy expert with an HIV specialist allowing both a top down health system approach and a bottom up HIV specific perspective There are thematic and analytical sections which provide an overview and some suggestions for solutions to the most serious outstanding issues and chapters which analyse specific country and organisational responses There is no perfect health system but the evidence provided here allows the sharing of knowledge and a opportunity to assess the impact and reactions to an epidemic that must be considered a long term issue
