Economic Factor In International Relations A Brief Introduction:

The Economic Factor in International Relations Spyros Economides, Peter Wilson, 2001-10-26 The Economic Factor in International Relations is a timely reminder that economics cannot be treated unquestioningly nor should its importance be overvalued in the world today An ideal guide for students of IR as well as history politics or economics it sets out the principles of that play off between market and policy in the global arena and seeks to establish the basis for an intelligent critique of economics importance in the world order

The Economic Factor in International Relations Spyros Economides, Peter Wilson, 2001-10-26 The Economic Factor in International Relations is a timely reminder that economics cannot be treated unquestioningly nor should its importance be overvalued in the world today An ideal guide for students of IR as well as history politics or economics it sets out the principles of that play off between market and policy in the global arena and seeks to establish the basis for an intelligent critique of economics importance in the world order

International Relations Bilal Karabulut, 2024-03-29 International Relations Theories Concepts and Organizations analyzes the changing dynamics of world politics on a rational scale It presents the conceptual and theoretical codes of International Relations IR to academics journalists politicians and thinkers In addition to concepts and theories intergovernmental and non governmental organizations NGOs that have an important place in IR are examined Under the influence of the globalization process radical changes are taking place in world politics Increasingly complex world politics is transforming into a multi layered structure This book has been prepared to make IR understandable and accessible clearly

The Oxford Handbook of the Political Economy of International Trade Lisa L. Martin, 2015-04-23 The Oxford Handbook of the Political Economy of International Trade presents the most up to date review of scholarship in this field Building on an understanding of the economic interests that drive international trade political scientists integrate theories of domestic society domestic institutions and international organizations to further our understanding of this vital force of globalization This volume both surveys established theory and showcases cutting edge research

A Study of China's Foreign Aid Y. Shimomura, H. Ohashi, 2013-11-20 This book provides a new perspective of China's controversial foreign aid strategy The chapters offer a thorough examination of data to show how China has created knowledge in its long experiences of aid and how this accumulated knowledge could contribute to other developing countries The book also examines China's aid philosophy and strategy through an Asian perspective instead of the Western perspective that is postulated in existing academic literature This is important as China shares a number of common features with other Asian donors including India and Japan Finally the book explores how to utilize the potential effect of this rising major donor for worldwide development and poverty reduction

Liberal Internationalism and the Decline of the State P. Hammarlund, 2005-03-01 This book provides a critical analysis of the liberal ideas of the decline of the state through a historical comparison It takes special note of the implications of state failure to control economic growth and market exigencies for international relations The book is divided into three

sections The first analyzes Cobden Mitrany and Ohmae's empirical claims the second looks at their normative judgements and the third looks at their predictive assertions It concludes that the three primarily propose normative arguments for less state involvement in economic and international relations but conceal them in empirical and predictive assertions The liberal idea of the decline of the state is more of an ideological statement in response to political social and economic trends than an objective observation of an empirically verifiable fact

China's Rise in the Age of Globalization Jianyong Yue, 2018-01-12

This book deconstructs a series of myths surrounding China's economic rise The first myth is that globalization led directly to China's rise the second is that China is another East Asian developmental state the third that China's market reform had been implemented in an incremental way and fourth that China's resilient authoritarianism has been effective in ensuring the country's economic and political transformation Yue argues that the China model is one of crony comprador capitalism that has hindered the country's attempts at economic and political modernity It is argued that the United States strategy of integrating China into the international system is self defeating in the long run not because such an approach has created a restless empire capable of challenging US primacy but because the Chinese miracle has subsequently backfired on the liberal order created after World War Two Covering the entire reform period from the end of the Cultural Revolution in 1976 to the present day the author calls for readers to rethink globalization and leave more policy space for China and the developing nations to pursue national development through internal integration which is more conducive to democratic transition and global peace

Handbook of Public Administration and Policy in the European Union M. Peter van der Hoek, 2005-06-13

The Handbook of Public Administration and Policy in the European Union focuses on the current state of the EU while also demonstrating how its current structure came into being and how it may change in the near future Although most existing literature is either policy oriented or institution oriented this textbook employs a different more comprehensive approach Not only does it analyze selected EU laws and most EU institutions it is also unique in that it brings together EU public administration EU institutions and most importantly EU policies into a comprehensive text Divided into five parts the book provides an overview of theory discourses on European integration followed by an analysis of the development of European organizations Part II explains the nature of the EU highlighting its institutions Part III addresses various dimensions of public administration followed by a review in Part IV of major EU policies including the Common Agricultural Policy The textbook concludes with a history of Economic and Monetary Union and a study of the European Central Bank and the euro

The Power of Currencies and Currencies of Power Alan Wheatley, 2017-10-03

Today a Great Powers arsenal extends well beyond the military embracing soft power and also currency power The dollar dominates the global economy used in settling trade and investment deals but also held in reserve in vast quantities by central banks in case of a payments crisis This demand for dollars keeps US borrowing costs lower than they otherwise would be reinforcing the country's economic power and helping to pay for the world's strongest armed forces This Adelphi sets out how the US has regularly deployed the power of the dollar

to put pressure on foes such as Iran as well as allies including the United Kingdom and Germany Contributors including Robert Zoellick the former head of the World Bank and John Williamson a leading expert on currencies assess how long the US will be able to maintain this exorbitant privilege in tandem with a rising China Beijing sensing that the global crisis might herald the end of the dollars supremacy is eager to gain monetary power by carving out an international role for its own currency the renminbi The book examines the obstacles China must first overcome in its quest and the strategic consequences if it succeeds

Russia's Response to Sanctions Richard Connolly, 2018-07-05 In the first in depth analysis of the effects of sanctions on the Russian political economy Richard Connolly details the Western sanctions targeting the energy defense and financial sectors and the Russian response He explores how the Western sanctions have caused Russian officials to formulate rapid policy responses to enable the country to adapt to the new circumstances The sanctions and the Russian response have caused the state's role in the Russian economy to grow stronger and caused its policymakers to accelerate efforts to shift Russia's foreign economic relations away from the West and toward Asia Connolly analyzes how the political economy in Russia and the nature of the country's integration with the global economy have been fundamentally reshaped He demonstrates that a new system of political economy is emerging in Russia and how it is crucial to understanding Russia's future trajectory

Globalization Jürgen Osterhammel, Niels P. Petersson, 2005 Globalization has become a popular buzzword for explaining today's world The expression achieved terminological stardom in the 1990s and was soon embraced by the general public and integrated into numerous languages But is this much discussed phenomenon really an invention of modern times In this work Jürgen Osterhammel and Niels Petersson make the case that globalization is not so new after all Arguing that the world did not turn global overnight the book traces the emergence of globalization over the past seven or eight centuries In fact the authors write the phenomenon can be traced back to early modern large scale trading for example the silk trade between China and the Mediterranean region the shipping routes between the Arabian Peninsula and India and the more frequently traveled caravan routes of the Near East and North Africa all conduits for people goods coins artwork and ideas Osterhammel and Petersson argue that the period from 1750 to 1880 an era characterized by the development of free trade and the long distance impact of the industrial revolution represented an important phase in the globalization phenomenon Moreover they demonstrate how globalization in the mid twentieth century opened up the prospect of global destruction though nuclear war and ecological catastrophe In the end the authors write today's globalization is part of a long running transformation and has not ushered in a global age radically different from anything that came before This book will appeal to historians economists and anyone in the social sciences who is interested in the historical emergence of globalization

Politics and Policy in Greece Kevin Featherstone, 2013-10-31 This rare focus on the politics of contemporary Greece explores in particular the country's processes of public policy making It is more than thirty years since the restoration of democracy in Greece and in this period the country has undergone a number of major changes Domestic political tensions

have arisen from the pressures of Europeanization as a consequence of Greece's membership in the European Union EU membership has helped define a modernization project latterly associated with Premier Costas Simitis which clashes with traditional practices and paradigms In addition other challenges have arisen of a multi ethnic society of the loss of faith in old ideologies and of the passage of old divisions Greece now faces pressure to adapt to the external environment as well as to the constraints of the will and capability of the domestic system Politics and Policy in Greece addresses core issues such as How far has the politics of modernization penetrated Greek society How far have reforms to state economy relations welfare systems and constitutional rights reflected a liberal agenda and how far have they reflected traditional concerns How has modernization affected Greece's relations with the European Union Containing expert overviews and detailed case studies of the dynamics of domestic politics this accessible and informative volume is essential reading for both Greeks and non Greeks alike

Sociology of Globalization Keri E. Iyall Smith, 2018-04-24 A rich collection of diverse voices Sociology of Globalization examines the processes of globalization as well as its impact on people around the world It looks beyond the headlines stereotypes and hype and features a balanced selection of classic scholarship and theory cutting edge research and engaging journalism Key pieces from prominent scholars journalists and theorists will resonate with students stretch the classroom into their daily lives and give the study of globalization concrete meaning Each of three sections culture economy and politics begins with an original introduction from the editor which familiarizes readers with essential themes and concepts and provides necessary context for the readings that follow Useful resources for further research including websites films and class exercises are also provided to exemplify and add relevance to major topics Accessible and expansive this is the ideal primary reader or supplement for undergraduate courses on the sociology of globalization

International Relations Hubert Zimmermann, Milena Elsinger, Alex Burkhardt, 2024-03-22 The definitive applied theory textbook that helps you make sense of global issues through theoretical concepts Not presupposing any prior knowledge this introduction equips you with the skills to use theories as adaptable tools to tackle complex global issues Adopting a critical and questioning approach you will be equipped in theory as a series of tools to be used adapted combined and applied when grappling with some of the most contested issues in global politics Theoretical perspectives are brought alive as a vital tool to understand concrete historical and contemporary examples This indispensable text starts by examining key theories spanning constructivism and postcolonialism to realism and liberalism with a real world perspective which prioritises empirical purchase From here chapters take a critical questioning approach to tackle core problems of international politics from armed conflict and financial markets to the climate crisis global inequality gender and race This text is the ideal companion for all undergraduate and postgraduate students of global affairs Hubert Zimmermann is Professor of International Relations at Philipps University of Marburg Germany Milena Elsinger is Head of the student information department at Philipps University of Marburg Germany Alex Burkhardt teaches at the Bundessprachenamt in Koblenz Germany and previously

taught at Philipps University Marburg Germany **Self-Determination after Kosovo** Annemarie Peen Rodt, Stefan Wolff, 2017-10-02 Kosovo embodies a key moment in the international practice of dealing with secessionist self determination conflicts For the first time outside of the colonial context and excepting Bangladesh in 1971 an entity s declaration of independence has been widely albeit not universally recognised As such the case of Kosovo has sharpened the focus and intensified the debate on the issue of self determination conflicts and how they are managed by the international community This volume contributes to this debate by examining Kosovo in historical and contemporary comparative perspective and by reflecting on the legal ethical and political implications of its successful declaration of independence This book was originally published as a special issue of Europe Asia Studies **The Diplomacy of International Relations** Johan Kaufmann, 2023-11-27 This work brings together a selection of articles written by Johan Kaufmann which follows Kaufmann s career as a diplomat for the Netherlands mainly involved in trade negotiations Every article is prefaced by a brief introductory note which sets out what the rationale is of including the article The selection covers the following topics International Negotiation Issues the UN System the NIEO and International Trade Policy The work is an interesting collection of academically sound and interrelated pieces of work The brief introductory notes to the essays are to the point and in Kaufmann s usual succinct style The work is aimed at academics in the field of international law international organizations and international relations **Economic Relationships among States** Evan Luard, 1984-06-18
