Privatisation and Its Limits in Central and Eastern Europe H. Engerer, 2001-06-18 Hella Engerer analyses the emergence evolution and theory of property rights and establishes the limits for privatization of state owned enterprises in

the transitional economies of Eastern Europe She counters the assumption that reduction of the state sector helps to create the basis for a private property system showing that privatization actually presupposes a stable framework including property order She makes use of an outstanding methodological approach reaching well beyond the limits of pure economic observation This is a major contribution to the understanding of the emerging economic order of Central and Eastern Europe

The Economics of Transition Marie Lavigne,1999-02-15 Substantially revised and updated the second edition of this highly acclaimed text is both a vital guide and a valuable critical analysis The book provides a contemporary comparative approach to the process of transformation of the economies of Eastern Europe and Russia Supplying a large amount of factual and statistical information it also includes consideration of recent progress in the areas of macro economic stabilisation micro economic restructuring and integration into the world economy *Sixth European Regional Meeting, Geneva, December 2000: Decent work in Europe and Central Asia : ILO activities 1995-2000* ,2000 Transition in Central and Eastern Europe has led to more varied results and in most countries political transition is well ahead of economic restructuring The consolidation of democratic institutions by no means generated rapid economic gains and some of the expectations at the beginning of the 1990s were far too optimistic *European Industrial Policy* James Foreman-Peck,Giovanni Federico,1999 At the end of the 20th century with stagnating industrial output unemployment in many European countries has climbed to levels not seen since the 1930s Interventionist industrial policies thus find new popularity after the gentle flirtation with liberalization in the early 1990s Under the Maastricht Treaty the European Union was granted industrial policy powers for the first time The present study aims to contribute to an understanding of European industrial policy by introducing an historical perspective National policy continuities and the considerable time over which industrial performance responds to changed environments emerge with greater clarity in the long run The chapters in this book take a broad view of industrial policy including those policies that establish the framework such as competition law as well as sector for firm specific policies The overall conclusion is that improved framework policies such as liberalization and re regulation are still essential Monetary union in the core will increase tensions arising from economic inflexibility Although there are often strong political barriers blocking implementation of appropriate industrial policies they will be even more necessary under monetary union **Contemporary Greece and Europe** Achilleas Mitsos,Elias Mossialos,2019-07-17 This title was first published in 2000 Contemporary Greek society is characterized by an all embracing trend for reform This task however is constrained by problems of Greek polity rooted in the historical and political culture This text explores the important facets of divergence between Greece and the EU examining the process through which they affect the relative performance of the country in the economic social political and international relations fronts together with significant attempts to modernize and rationalize internal and external policies and structures The book is in five parts In the first introductory section Greece s Alternate Minister of Foreign Affairs the late Yannis Kranidiotis analyzes the fundamental

objectives of Greek foreign policy whilst the editors explore the challenges of EU membership for Greek domestic and foreign politics and Greece's participation in the process of European integration The second part deals with Greece and the EMU the third analyzes the issues related to state modernization and adjustment A fourth section examines the welfare state and related policies and the final part analyzes Greece's foreign policy and external relations with particular emphasis on the Balkans and Greek Turkish relations

Building Capitalism Anders Åslund, 2002

Political Economy of Transition Jozef M. van Brabant, 2012-11-12 This book addresses the policy questions surrounding the challenge of transforming eastern European economies from their planned administrative past to vibrant market based entities Jozef van Brabant considers in turn the wider set of challenges facing these economies stabilization privatization liberalization institution building and developing and maintaining the sociopolitical consensus before examining the evolving role of the state Using concrete examples from the eastern European countries throughout including the Czech Republic and Bulgaria this work systematically examines in a society wide context the initial conditions of transformation the policy tasks ahead and the manner in which policies have been pursued

Reconstructing the Regional Economy Adrian Smith, 1998-06-25 The book focuses on regional and economic change in Eastern and Central Europe using Slovakia as a case study It explains the relationship between industrial change and regional development and discusses fragmentation within the context of the legacy of the state socialist industrialization model

Integrating Europe J.M. Van Brabant, 2012-12-06 Bringing the eastern European economies in transition defined more precisely in the Introduction under the economic political and security umbrella of the European Union ED has been an ambition of many of these countries from the very start of the so called annus mirabilis in 1989 The road to gratification of this aspiration since then has been rather bumpy however one wants to look at recent events Indeed since 1989 the relationship between the EU and the economies in transition has been ebbing and flowing with the evolution of two main strands of policy stances in the EU One has been deep skepticism about bringing these countries into the Union at all in any foreseeable future This in spite of the fact that after long hesitation in mid 1993 the EU Member States committed themselves eventually to explore accession with selected transition economies as well as Cyprus and Malta The other has been their evolving attitude toward their own integration endeavors Hence the dilemmas in the EU's parlance of the deepening versus widening conundrum That indeed constitutes the paramount issue addressed in the present investigation

Transformation at Work Anna Pollert, 2000-01-13 The book is well written and clearly structured bringing together much dispersed material The most interesting part of the book is the case study of the Czech engineering firm CKD The case study gives an insight into the continuing processes of transition transition is a process rather than a jump from Socialism to capitalism The author provides solid evidence on the ways in which adjusting to the market has proved painful and in the end unsuccessful for CKD which has been merged with another firm Overall Transformation at Work provides a valuable insight into the realities of the transition process at the enterprise level Employee Relations In this

book Anna Pollert questions the values hidden in the burgeoning literature on transformation and addresses the main concerns arising from these In exploring the key issues of post communist transformation the author discusses important theoretical issues about the nature of change and continuity such as historical socio economic and political effects of transformation the broad problems of how workers and their organizations respond to change from command to capitalist economies and case studies of how managers workers and trade unionists experience these changes within their organizations Transformation at Work explores the key issues of post communist transformation in Eastern Europe The author discusses important aspects of the nature of change and continuity including historical socio economic and political effects how workers and their organizations respond to change from command to capitalist economies and how managers workers and trade unionists experience change within their organizations *The Nebi Yearbook 1998* P. Joenniemi, Lars Hedegaard, A. Östhol, Bjarne Lindström, K. Peschel, C.-E. Stalvant, 2012-12-06 Thorvald Stoltenberg Ambassador Chairman of the Editorial Advisory Board Most of us have been overwhelmed by the speed and extent of the changes that have been taking place in Europe since the late 1980s Over the span of a few years we have witnessed the collapse of the Soviet Union and the unification of Germany This process has had far reaching implications for Northern Europe the Baltic states have attained independence and with the establishment of the Baltic Sea regional co operation and the Barents co operation a new type of East West relations has come into being The process of change continues Its latest manifestation is the agreement between Russia and NATO and NATO and EU enlargement is expected to take place over the next few years With such far reaching transformations we need to reflect on what is happening We need a more coherent picture of the new situation in Northern Europe and of where we are heading This Yearbook is an attempt to fulfil this need I would like to thank the editors for taking this initiative which has been long awaited by those of us who have been actively interested in the improved relations between the former East and the old West that have been made possible by the end of the Cold War and particularly in the new opportunities for cross border co operation and integration in the North European and Baltic space **OECD**

Economic Surveys: Austria 2007 OECD, 2007-07-13 This 2007 edition of OECD's periodic survey of Austria reviews recent developments in its economy and examines current challenges including Austria's deepening economic integration with Central and Eastern Europe overcoming labour market **NATO's Empty Victory** Ted Galen Carpenter, 2000 The Clinton administration and the other NATO governments boast that the alliance won a great victory in its war against Yugoslavia

Symposium "Analysing the Dynamics of Social Change in Europe" Richard Berthoud, Katharina Spiess, 2002 This special edition of Schmollers Jahrbuch has been compiled to illustrate the potential value of comparative European studies As Melvin Kohn says cross national research is valuable even indispensable for establishing the generality of findings and the validity of interpretations derived from single nation studies It is equally valuable perhaps even more valuable for forcing us to revise our interpretations to take account of cross national differences and inconsistencies that could never be uncovered in single

nation studies Cross country comparisons are of immense potential value for different actors Within Europe they are of likely significance To the institutions of the EU itself offering a detailed map of variations in social and economic experiences between countries and groups of countries To policy makers at the national level showing how far the social and economic problems observed locally are experienced in common with other European countries To social scientists seeking to understand the processes and results of change If the influences identified in one country are not generalisable to other countries it is necessary to develop hypotheses about the reasons for the differences To analysts of social policy looking for general conclusions about the influence of government actions on individuals lives in Europe There are many different approaches to cross country research Summary macro data may be compared across many countries At the other extreme highly detailed studies can be undertaken of the effects of policy in just two or three countries The papers in this compilation are focused on micro level data about individuals and households in most of the countries in the EU They are mostly based on one cross national survey the European Community Household Panel ECHP Most of them have been contributed by members of the European Panel Analysis Group EPAG
