Economics And Its Enemies Two Centuries Of Anti Economics:

Economics and its Enemies William Oliver Coleman,2002-10-23 Anti economics is described as the opposition to the main stream of economic thought that has existed from the Eighteenth century to the present day This book tells the story of anti economics in relations to Smith Ricardo Mill Walras Keynes and Hicks as well as current economic thinkers William Coleman examines how anti economics developed from the Enlightenment to the present day and analyzes its various guises Right anti economics Left anti economics Nationalist and Historicist anti economics and Irrationalist Moralistic Aesthetic and Environmental anti economics

A History of Heterodox Economics Frederic Lee,2009-06-02 This book presents a social qua community history of heterodox economics The author provides the best and most thorough account of the rise of orthodoxy and the response of heterodoxy within economics

How Economics Can Save the World Erik Angner,2023-01-26 Economics has the power to make the world a better happier and safer place this book shows you how Our world is in a mess The challenges of climate change inequality hunger and a global pandemic mean our way of life seems more imperilled and society more divided than ever but economics can help From parenting to organ donation housing to anti social behaviour economics provides the tools we need to fix the biggest issues of today Far from being a means to predict the stock market or enrich the elite economics provides a lens through which we can better understand how things work design clever solutions and create the conditions in which we can all flourish With a healthy dose of optimism and packed with stories of economics in everyday situations Erik Angner demonstrates the methods he and his fellow economists use to help improve our lives and the society in which we live He shows us that economics can be a powerful force for good awakening the possibility of a happier more just and more sustainable world

Greed, Self-Interest and the Shaping of Economics Rudi Verburg,2018-03-15 Since 2008 profound questions have been asked about the driving forces and self regulating potential of the economic system political control and morality With opinion turning against markets and self interest economists found themselves on the wrong side of the argument This book explores how the past of economics can contribute to today s debates The book considers how economics took shape as philosophers probed into the viability of commercial society and its potential to generate positive sum outcomes It explains how dreams of affluence morality and happiness were built upon human greed and vanity It covers the bumpy road of the construction and reconstruction of this dream exploring the debate on the foundations conditions and limitations of the idea of the social utility of greed and vanity Revisiting this debate provides a rich source of ideas in rethinking economics and the basic beliefs concerning our economic system today

How Economics Should Be Done David C. Colander,Huei-chun Su,2018-01-26 David Colander has been writing about economic methodology for over 30 years but he goes out of his way to emphasize that he does not see himself as a methodologist His pragmatic methodology is applicable to what economists are doing and attempts to answer questions that all economists face as they go about their work The articles collected in this volume are divided with the first part

providing a framework underlying Colander's methodology and introducing Colander's methodology for economic policy within that framework Part two presents Colander's view on the methodology for microeconomics while part three looks at Colander's methodology for macroeconomics The book closes with discussions of broader issues

Advancing the Frontiers of Heterodox Economics Tae-Hee Jo,Zdravka Todorova,2015-07-30 This collection of essays honors the life and work of one of the most prominent and fervent heterodox economists Frederic S Lee who has been at the heart of the heterodox economics movements for the past three decades Authors in this book demonstrate that heterodox economic has transcended the criticism of mainstream economics and more importantly that constructive developments are in the making by way of cross communications among various heterodox economics traditions Frederic S Lee's contributions to heterodox economics are centered on three themes the making of a history and identity of heterodox economics heterodox microeconomics and the heterodox analysis of social provisioning Part I addresses the importance of history theory research methods and institutions in the making of the identity of heterodox economics as an alternative to mainstream economics Part II delves into heterodox microeconomic theories in particular investment pricing competition markets and market governance as foundations of heterodox macroeconomic analyses Part III expands the analysis of the capitalist social provisioning process with an emphasis on its subsystems and their relationships over historical time Part IV encapsulates the life and work of Frederic S Lee Throughout his intellectual life Frederic S Lee has shown to many that the development of heterodox economics is rendered possible by unselfish and ceaseless efforts to build both theory and institutions Essays in this book attest that establishing an alternative critical theory to the status quo is not only possible but also serviceable to the majority of the population

Full-Spectrum Economics Christian Arnsperger,2010-01-08 Offers a philosophical critique of neoclassical and post neoclassical economics

The Romantic Economist Richard Bronk,2009-02-05 Since economies are dynamic processes driven by creativity social norms and emotions as well as rational calculation why do economists largely study them using static equilibrium models and narrow rationalistic assumptions This book argues that economists should look for new techniques in Romantic poetry and

philosophy **The Economics and Sociology of Management Consulting** Thomas Armbrüster,2006-11-16 academic disciplines Book Jacket The Making of the Economy Till Düppe,2011-11-16 How did modern man come to believe in the object of the economy What hopes made us accept scientific authority about this illusive thing What kinds of persons were attracted by objective knowledge in economic discourse And how does this knowledge guide our economic life The Making of the Economy tackles such questions surrounding the modern notion of the economy with a fresh look from phenomenological philosophy In a historical narrative of economic discourses Till D ppe shows that only due to the scientific culture of economics we speak of an economy Economic science made the economy Our economic experiences alone do not trigger an interest in the economy which makes Husserl s case for the forgetfulness of the life world D ppe s historical narrative focuses on the emergence of formal economic analysis out of a series of successive life worlds or concrete historical situations an approach which generates a new substantive understanding of both the history of economics and the current discourse of crisis surrounding economics The book will appeal to historians and philosophers of the social sciences as well as scholars of history philosophy and economics **Only in Australia** William Coleman,2016-06-16 This edited volume is about the Australian difference and how Australia s economic and social policy has diverged from the approach of other countries Australia seems to be following a special path of its own that it laid down more than a century ago Australia s distinctive bent is manifested in a tightly regulated labour market a heavy reliance on means testing and income taxation a geographical centralization of political power combined with its dispersal amongst autonomous authorities and electoral singularities such as compulsory and preferential voting In seeking to explain this Australian Exceptionalism the book covers a diverse range of issues the strength and weakness of religion democratic and undemocratic tendencies the poverty of public debate the role of elites the exploitation of Australian sports stars the politics of railways the backwardness of agriculture deviation from the Westminster system the original encounter between European and Aboriginal cultures and the heavy taxation of tobacco Bringing together contributions from economists economic historians and political scientists the volume seeks to understand why Australia is different It offers a range of explanations from the historical legacy to material factors historical chance and personalities **Models of Risk Preferences** Glenn W. Harrison,Don Ross,2023-10-23 Models of Risk Preferences collects studies that critically review alternatives to Expected Utility Theory from the perspective of experimental economics

Humanistic Perspectives on International Business and Management N. Lupton,M. Pirson,2014-10-28 In Humanistic Perspectives on International Business and Management the authors provide space to global perspectives on how we can rethink and reposition international business and management practice to be a part of the solution to our global problems These contributions provide impetus for further research practice and pedagogy development The Nationalist Dilemma Marvin Suesse,2023-05-11 Nationalists think about the economy Marvin Suesse argues and this thinking matters once nationalists hold political power Many nationalists seek to limit global exchange but others prioritise economic

development The potential conflict between these two goals shapes nationalist policy making Drawing on historical case studies from thirty countries from the American Revolution to the rise of China this book paints a broad panorama of economic nationalism over the past 250 years It explains why such thinking has become influential despite the internal contradictions and chequered record of many nationalist policy makers At the root of economic nationalism s appeal is its ability to capitalise upon economic inequality both domestic and international These inequalities are reinforced by political factors such as empire building ethnic conflicts and financial crises This has given rise to powerful nationalist movements that have decisively shaped the global exchange of goods people and capital The Logic of the Market Weiying

Zhang,2015-01-20 The Logic of the Market by Weiying Zhang considered China s leading market liberal comprises his most influential essays on economics over the past three decades First published in China in 2010 this revised edition contains three new essays which offer those outside China a deeper understanding of the Chinese economy Market competition is a really just competition to create value for others Only through this approach did the Western economy advance over the past 200 years It is also the reason for China s economic marvel over the past 30 years writes Weiying Readers will appreciate Weiying s ability to address both everyday economic issues and the questions that confront a nation s leaders not the least a nation seeking to escape mass poverty The economic reforms and subsequent growth in China may be the most astonishing and hopeful event of our age Weiying was among the leaders who set China on its path of change Here he elucidates the pitfalls and the progress of economic reform celebrating leaders who mixed sustained idealism with judicious compromise Readers seeking to learn from China s successes will find much of interest here Weiying emphasizes the importance of entrepreneurs in the new China He concludes The key for China as the country with the world s largest population to return to being the largest economy lies in allowing the entrepreneurial spirit to develop the potential of the domestic market For that to happen Weiying recommends that China continue to reduce the state owned economy lessen government control over the economy and over the next 30 years emphasize political reform to build a constitutional democracy His thinking is not limited to China Some of these essays also focus on the global financial crisis how Keynesian policies can only be effective for the short term and will bring long term negative consequences Weiying provides a unique perspective on his country s market economy implementation of economic policies and the potential for Chinese economic development I hope that the logic of the market becomes every person s ideal he writes That is my reason for writing this book **Business Ethics and**

Strategy, Volumes I and II Alan E. Singer,2018-10-26 This volume is intended as a reference for those interested in the relationship between business strategy and business ethics broadly conceived Several articles have been selected from various leading journals in management strategy and ethics An introductory chapter provides an overview of the articles but it also relates them systematically to a fundamental dualism involving values ethics and politics all viewed from the perspective of business and business studies *Political Economy as Natural Theology* Paul Oslington,2017-07-28 Since the

early 20th century economics has been the dominant discourse in English speaking countries displacing Christian theology from its previous position of authority This path breaking book is a major contribution to the interdisciplinary dialogue between economics and religion Oslington tells the story of natural theology shaping political economy in the late 18th and early 19th centuries emphasising continuing significance of theological issues for the discipline of economics Early political economists such as Adam Smith Josiah Tucker Edmund Burke William Paley TR Malthus Richard Whately JB Sumner Thomas Chalmers and William Whewell extended the British scientific natural theology tradition of Francis Bacon Robert Boyle and Isaac Newton to the social world This extension nourished and shaped political economy as a discipline influencing its theoretical framework but perhaps more importantly helping legitimate political economy in the British universities and public policy circles Educating the public in the principles of political economy had a central place in this religiously driven program Natural theology also created tensions especially reconciling economic suffering with divine goodness and power that eventually contributed to its demise and the separation of economics from theology in mid 19th century Britain This volume highlights aspects of the story that are neglected in standard histories of economics histories of science and contemporary theology Political Economy as Natural Theology is essential reading for all concerned with the origins of economics the meaning and purpose of economic activity and the role of religion in contemporary policy debates *Ideas in History* Vol. 6:2 Ben Dorfman,2013-05-10 This issue of Ideas in History encompasses a special issue on the history of economic thought plus a provocative paper taking on issues of text historiography and deconstructive thought in cultural history

Social cost-benefit analysis in Australia and New Zealand Leo Dobes,George Argyrous,Joanne Leung,2016-04-28 All is not well with the evaluation of government programs and projects Resources available to any society are limited If governments are to increase the well being of their citizens they must be able to select and implement the socially most beneficial projects and policies But many government agencies lack the expertise to carry out a cost benefit analysis or even to commission one Commercial consultants on the other hand often have some analytical expertise but are not immune from adopting approaches that accommodate the proclivities of their client agencies In order to increase analytical rigour and methodological consistency this publication urges the adoption of a belts and braces set of protocols for use in project evaluation
