Biennial Meeting,Agricultural Economics Society of Southeast Asia,1979 **World Fish Farming: Cultivation and Economics** E. Brown,2012-03-19

Until the First Edition of World Fish Farming Cultivation and Economics was published several years ago there was little or no economic and technical information on commercial aquaculture either by countries or by species I tried at that time to partially fill the gap in the literature In this Second Edition I have updated data originally presented and increased the scope by adding new countries New trout data have been added for 10 western European countries sections on cost of production of food sized catfish and fingerlings in the USA new and improved chapters for Japan Hungary Indonesia the Philippines and the United Kingdom and completely new chapters pertaining to Poland Thailand and Czechoslovakia have all been added to this edition The book now includes 31 countries including all major producing ones Between 5.5 and 6.0 million metric tons of finfish shrimp and crayfish cultured production are represented which accounts for about 90% of the world's total The People's Republic of China and the USSR as well as countries on the continents of Europe Asia North America and Oceania are represented Because of only minimal reported cultured fish production in Africa and South America these continents have been omitted Also according to information received from New Zealand there is no culturing of fish in that country other than for restocking of public waters More than 100 species of cultured fish seven species of shrimp and prawns and six

species of crayfish are discussed **Fisheries And Aquaculture Economics** A D Upadhyay,Ajit Kumar Roy,Pramod Kumar Pandey,2023-06-14 This unique book explores a wide range of analytical issues centered on the aquaculture process management The Economics of Aquaculture in Comparison with Other Rural Development Opportunities in Pacific Island Countries Bill Johnstone,Tim Pickering,2003 **Economics of Aquaculture, Sea-fishing and Coastal Resource Use in Asia** William L.
