

Community Change: Politics, Economy, Culture & Development - Essay Sample Essay

Introduction

A community is a group of people that possess common interests. Sometimes it bears some differences toward achieving its objectives or rather performing its routine duties to the society. Occasionally, change is inevitable, and each community must experience it in the process of either integration. Most common changes and issues within the communities include political power change and leadership, Economic and social-cultural activities, religious perspectives, and finally, development changes. It is through the change some community hiccups manifest themselves as there is a conflict of interest to define what is right for the community. The pay will, therefore, discuss community issues based on the prevailing changes that are roaming within my community, New Square, New York.

Leadership and Political Change

Concerning various changes, the structural development of leadership and political atmospheres are the core area that New Square, New York, have experienced. Leadership was initially organized in terms of the social groups that elected their leaders to manipulate and effectively influence the change within the community. Today elections are done within the constitutional structure that is monitored by the government to ensure that there is a fair and free election of the political leaders. Leaders, therefore, are democratically elected in the community and are given the power to make important decisions within the community. However, it is terrifying that most leaders within the community have developed some aspects of repossessing the legislative seat through non constituted means. The community had embraced authoritative leadership that was much oppressive to the subject. However, with the intrusion of the United Nations policies, leadership strategies have been changed, reducing unjust dealing of the community members. Generally, the development of the leadership has consistently created a good rapport with the community as the New Square village is now experiencing a new glow of democracy.

Hasidism practice often threatened the community; however, after some time, various lights have come to lead the community into development. Education has been the key approach that the current political leaders are using in ensuring that the community access the basic knowledge that is vital for the development and growth. The Hasidic community, my community, has also experienced some constraints in the process of changing leadership within the political context. Very few leaders have been able to address the issues that the community has gone through over decades. The community has severely experienced economic depression alongside other health issues that were induced by poor governance and leadership (Checkoway, 2009). Today, however, the community, through the assistance of the elite leaders, now has access to good health as well as economic development through education introduction and set up of other necessity programs in the village.
