have made him required reading for anyone interested in dissecting culture. *The Daily Beast*. In *Ecstasy and Terror*, Mendelsohn once again casts an eye at literature, film, television, and the personal essay, filtering his insights through his training as a scholar of classical antiquity in illuminating and sometimes surprising ways. Many of these essays look with fresh eyes at our culture's Greek and Roman models; some find an arresting modernity in canonical works like *Bacchae* or the *Aeneid*, while others detect a Greek DNA in our responses to national traumas such as the Boston Marathon bombings and the assassination of JFK. There are pieces on contemporary literature from the aesthetics of victimhood in Hanya Yanagihara's *A Little Life* to the uncomfortable mixture of art and autobiography in novels by Henry Roth, Ingmar Bergman, and Karl Ove Knausgård. Mendelsohn considers pop culture, too, in essays on the feminism of *Game of Thrones* and on recent films about artificial intelligence, a subject he reminds us that was already of interest to Homer. This collection also brings together for the first time a number of the award-winning memoirist's personal essays, including his critic's manifesto and a touching reminiscence of his boyhood correspondence with the historical novelist Mary Renault, who inspired him to study the Classics.
