*Discursive Remembering* Lucas M. Bietti,2014-10-14 This book aims at building a bridge between the social and political aspects of remembering and the cognitive and discourse processes driving such activities By analyzing these cognitive and discursive processes Bietti explores practices of individual and collective remembering in institutional and private settings in relation to periods of political violence in Argentina This books begins to fill the conceptual gap between cognitive oriented approaches to remembering that draw conclusions about how memory functions in the mind without a detailed discourse analysis of the communicative interaction in which this process unfolds and the discourse and pragmatic oriented approaches that are mainly interested in analyzing the rhetorical features of conversational remembering in some cases disregarding that there are underlying cognitive mechanisms that drive the construction of discourses about past experiences The empirical analysis shows that individual and collective remembering in relation to periods of political violence in Argentina vary in pragmatic ways due to the fact that these accounts of the past were constructed with reference to the communicative situation Thus this book also aims at shedding new light on the current practices of commemoration and remembrance related to periods of political violence in Argentina in public and private settings

**State Terrorism and the Politics of Memory in Latin America** Gabriela Fried Amilia,2016-01-28 This book examines the intergenerational transmission of traumatic memories of the dictatorship in the aftermath of the two first decades since the Uruguayan dictatorship of 1973 1984 in the broader context of public policies of denial and institutionalized impunity Transitional justice studies have tended to focus on

countries like Argentina or Chile in the Southern Cone of Latin America. However, not much research has been conducted on the silent cases of transitions as a result of negotiated pacts. The literature on memory, trauma, and impunity has much to offer to studies of transition and post authoritarianism. This book situates the human and cultural experience of state terrorism from the perspective of the experiences of Uruguayan families through an in-depth ethnographic cultural, psycho-social, and political interdisciplinary study. It will be a valuable resource to students, scholars, and practitioners who are interested in substantive questions of memory, democratization, and transitional justice set in Uruguay's scenario, as well as to human rights policy makers, advocates, and educators, and social and political scientists, cultural analysts, politicians, social psychologists, psychotherapists, and activists. It will also appeal to the general public who are interested in the problem of how to transmit the stories and meaning of traumatic experiences as a result of gross human rights violations, the cultural and generational effects of state terror, and the politics of impunity. This book is essential for collections in Latin American studies, political science, and sociology.
