Accounting and Financial Management Peter Harris, Marco Mongiello, 2012-05-31. Accounting and Financial Management developments in the international hospitality industry presents new and innovative research and developments in the field of accounting and financial management as it relates to the work of managing enterprises and organisations in the international hospitality industry. The content contains contributions from a rich source of international researchers, academics, and practitioners, including university and college lecturers, professional accountants, and consultants, and senior managers involved in a wide range of teaching, scholarship, research, and consultancy in the hospitality industry worldwide. The material is drawn from their work and experience and relates directly to the management of hospitality undertakings. Therefore, the up-to-date case studies and examples used are taken from a wide-ranging of companies across the industry, including large international chains such as Sheraton, Holiday Inn, and Intercontinental. Divided into three parts: Performance, Management, Information Management, and Asset Management, the book tackles the following issues, amongst others: Performance management in the international hospitality industry; Benchmarking; measuring financial success; The profit planning framework; Making room rate pricing decisions; Hotel asset management; UK and US perspectives; Lowering risk to enhance hospitality firm value. Accounting and Financial Management developments in the international hospitality industry presents current developments drawn from a combination of live fieldwork and practical experience, and therefore, the content will appeal to a wide-ranging readership, including practising managers and financial controllers in hospitality organisations, professional accountants and consultants, postgraduate candidates studying for master's degrees in hospitality management, and final year undergraduate students of hospitality management who elect to take an accounting option.

Service Breakthroughs James L. Heskett, 1990-09-17 Discover the game changing strategies of Service Breakthroughs where Harvard Business School experts unveil innovative service management techniques breakthrough leadership insights and the self reinforcing service cycle to elevate customer satisfaction retention and profitability in competitive industries What Do Citicorp UPS and Marriott have in common They are breakthrough service providers firms that changed the rules of the game in their respective industries by consistently meeting or exceeding customer needs and expectations To find out how these companies do it service management experts James Heskett Earl Sasser and Christopher Hart put the question to the chief executive officers of fifteen of America s leading service firms attending a workshop at the Harvard Business School Breakthrough leaders they discovered think very differently about their businesses than their competitors Now in Service

Breakthroughs based upon five years of exhaustive research in fourteen service industries Heskett Sasser and Hart show exactly what enables one or two companies in each industry to constantly set new standards for quality and value that force competitors to adapt or fail At the heart of breakthrough performance the authors contend is a sometimes intuitive but thorough understanding of the self reinforcing service cycle that replaces traditional management of trade offs The cycle is a paradigm derived from the research results suggesting direct links between heightened customer satisfaction increased customer retention augmented sales and profit improved quality and productivity greater service value per unit of cost improved satisfaction of service providers increased employee retention and further heightened customer satisfaction With detailed examples and dramatic case studies of Mark Twain Bancshares American Airlines Florida Power and Light Federal Express McDonald s and many other companies Heskett Sasser and Hart show how this self reinforcing cycle of behavior differentiates breakthrough leaders from their merely good competitors The authors describe how breakthrough managers develop counterintuitive even contrarian strategic service visions These companies define their service concept in terms of results achieved for customers rather than services performed They target market segments by focusing on psychographics how customers think and behave instead of demographics And instead of viewing a service delivery system as a facility where the service is produced and sold breakthrough firms see it as an opportunity to enhance the quality of the service These profound differences in thought and action have brought spectacular results For managers who wish to set the pace in their service industries Service Breakthroughs is essential reading
