Smith, Franz Smola, 2024-10-30 This book highlights the intimate relationship between landscape and portraiture in the work of the Austrian Expressionist artist Egon Schiele 1890 1918 Plants natural environments and townscapes determine the spaces Egon Schiele created in his paintings and they also reflect the rich symbolism he employed that is centered around the human condition In particular plants are often endowed with an allegorical meaning Flowers and trees assume the role of portrait subjects and convey an almost human appearance Schiele's landscapes always represent more than their apparent subject matter His portrayal of nature and his rendering of towns and trees epitomize the life cycle and the human condition This catalogue accompanying a spectacular exhibition on view at the Neue Galerie New York will investigate the importance of landscape in the artist's work The contributing authors are internationally distinguished experts on Schiele's landscapes and representatives of museums and universities in Europe and the United States Egon Schiele Kelley D. Art History after Deleuze and Guattari Sjoerd van Tuinen , Stephen Zepke, 2017-11-14 At the crossroads of philosophy artistic practice and art history Though Gilles Deleuze and Felix Guattari were not strictly art historians they reinvigorated ontological and formal approaches to art and simultaneously borrowed art historical concepts for their own philosophical work They were dedicated modernists inspired by the German school of expressionist art historians such as Riegl Wölfflin and Worringer and the great modernist art critics such as Rosenberg Steinberg Greenberg and Fried The work of Deleuze and Guattari on mannerism and Baroque art has led to new approaches to these artistic periods and their radical transdisciplinarity has influenced contemporary art like no other philosophy before it Their work therefore raises important methodological questions on the differences and relations among philosophy artistic practice and art history In Art History after Deleuze and Guattari international scholars from all three fields explore what a Deleuzo Guattarian art history could be today Contributors include Alliez Kingston University Universit Paris VIII Claudia Blumle Humboldt Universit t zu Berlin Jean Claude Bonnecole des Hautes tudes en Sciences Sociales Ann Cathrin Drews Humboldt Universit t zu Berlin James Elkins School of the Art Institute of Chicago Sascha Freyberg Max Planck Institute for the History of Science Antoine l Heureux independent researcher Vlad Ionescu Hasselt University Juan Fernando Mej a Mosquera Pontificia Universidad Javeriana Gustavo Chirolla Ospina Pontificia Universidad Javeriana Bertrand Puvion Universit Bordeaux Montaigne Elisabeth von Samsonow Akademie f r bildende K nste Wien Sjoerd van Tuinen Erasmus University Rotterdam Kamini Vellodi Edinburgh College of Art Stephen Zepke independent researcher

**Erasures and Eradications in Modern Viennese Art, Architecture and Design** Megan Brandow-Faller, Laura Morowitz, 2022-09-23 Erasures and

Eradications in Modern Viennese Art Architecture and Design challenges the received narrative on the artists exhibitions and interpretations of Viennese Modernism The book centers on three main erasures the erasure of Jewish artists and critics erasures relating to gender and sexual identification and erasures of other marginalized figures and movements Restoring missing elements to the story of the visual arts in early twentieth century Vienna authors investigate issues of gender race ethnic and sexual identity and political affiliation Both well studied artists and organizations such as the Secession and the Austrian Werkbund and iconic figures such as Klimt and Hoffmann are explored as are lesser known figures and movements The book s thought provoking chapters expand the chronological contours and canon of artists surrounding Viennese Modernism to offer original nuanced and rich readings of individual works while offering a more diverse portrait of the period from 1890 through World War II and into the present The book will be of interest to scholars working in art history history design history architectural history and European studies

**The Routledge Companion to Art and Disability** Keri Watson, Timothy W. Hiles, 2022-03-30 The Routledge Companion to Art and Disability explores disability in visual culture to uncover the ways in which bodily and cognitive differences are articulated physically and theoretically and to demonstrate the ways in which disability is culturally constructed This companion is organized thematically and includes artists from across historical periods and cultures in order to demonstrate the ways in which disability is historically and culturally contingent The book engages with questions such as How are people with disabilities represented in art How are notions of disability articulated in relation to ideas of normality hybridity and anomaly How do artists use visual culture to affirm or subvert notions of the normative body Contributors consider the changing role of disability in visual culture the place of representations in society and the ways in which disability studies engages with and critiques intersectional notions of gender race ethnicity class and sexuality This book will be particularly useful for scholars in art history disability studies visual culture and museum studies

**The Female Secession** Megan Brandow-Faller, 2020-06-22 Decorative handcrafts are commonly associated with traditional femininity and unthreatening docility However the artists connected with interwar Vienna s female Secession created craft based artworks that may be understood as sites of feminist resistance In this book historian Megan Brandow Faller tells the story of how these artists disrupted long established boundaries by working to dislodge fixed oppositions between art and craft decorative and profound and masculine and feminine in art Tracing the history of the women s art movement in Secessionist Vienna from its origins in 1897 at the Women s Academy to the Association of Austrian Women Artists and its radical offshoot the Wiener Frauenkunst Brandow Faller tells the compelling story of a movement that reclaimed the stereotypes attached to the idea of Frauenkunst or women s art She shows how generational struggles and diverging artistic philosophies of art craft and design drove the conservative and radical wings of Austria s women s art movement apart and explores the ways female artists and craftswomen reinterpreted and extended the Klimt Group s ideas in the interwar years Brandow Faller draws a direct connection to the themes that impelled the better

known explosion of feminist art in 1970s America In this provocative story of a Viennese modernism that never disavowed its ornamental decorative roots she gives careful attention to key primary sources including photographs and reviews of early twentieth century exhibitions and archival records of school curricula and personnel Engagingly written and featuring more than eighty representative illustrations The Female Secession recaptures the radical potential of what Fanny Harlfinger Zakucka referred to as works from women s hands It will appeal to art historians working in the decorative arts and modernism as well as historians of Secession era Vienna and gender history     The Arts of Imprisonment Leonidas K. Cheliotis,2016-12-05 The arts spanning the visual design performing media musical and literary genres constitute an alternative lens through which to understand state sanctioned punishment and its place in public consciousness Perhaps this is especially so in the case of imprisonment its nature its functions and the ways in which these register in public perceptions and desires have historically and to some extent inherently been intertwined with the arts But the products of this intertwinement have by no means been constant or uniform Indeed just as exploring imprisonment and its public meanings through the lens of the arts may reveal hitherto obscured instances of social control within or outside prisons so too it may uncover a rich and possibly inspirational archive of resistance to them This edited collection sheds light both on state use of the arts for the purposes of controlling prisoners and the broader public and the use made of the arts by prisoners and portions of the broader public as tools of resistance to penal states The book also includes a number of chapters that address arts in prisons programmes making distinctive contributions to the literature on their philosophy formation operation effectiveness and research evaluation as well as taking care to explore the politics surrounding and underpinning these multiple themes     Gustav Klimt A. N. Hodge,2019-12-16 Gustav Klimt s exotic sensuous paintings recall the art of ancient civilizations their patterns and ornamentation reminiscent of Byzantine mosaics and Egyptian murals But from what context did these masterworks spring This beautifully illustrated book is a guide to the life and work of Gustav Klimt Klimt is one of the most influential artists of the Art Nouveau movement first achieving fame as a decorative painter before turning to portraiture and erotic art The decorative style persisted in his work leading to abstract compositions with flattened glowing surfaces embellished with gold and silver leaf This technique is perhaps best identified in Klimt s two portraits of Adele Bloch Bauer The book serves as a perfect introduction to Klimt s work showcasing a selection of his paintings as well as providing fascinating biographical detail ABOUT THE SERIES The Great Artists series by Arcturus Publishing introduces some of the most significant artists of the past 150 years looking at their lives techniques and inspirations as well as presenting a selection of their best work
