Power and Illicit Drugs in the Global South Maziyar Ghiabi, 2020-04-28 More than a hundred years have passed since the adoption of the first prohibitionist laws on drugs Increasingly the edifice of international drug control and laws is vacillating under pressures of reform Scholarship on drugs history and policy has had a tendency to look at the issue mostly in the Western hemisphere of the globe or to privilege Western narratives of drugs and drugs policy This volume instead turns this approach upside down and makes an intellectual attempt to redefine the subject of drugs in the Global South Opium heroin cannabis hashish methamphetamines and khat are among the drugs discussed in the contributions to the volume which spans from Sub Saharan Africa to Southeast Asia including the Middle East North Africa Latin America and the Indian Subcontinent The volume also makes a powerful case for an interdisciplinary approach to the study of drugs by juxtaposing the work of historians political scientists geographers anthropologists and criminologists Ultimately this edited volume is a rich and diverse collection of new case studies which opens up venues for further research This book was originally published as a special issue of Third World Quarterly
