

Eleanor of Aquitaine

Patron and Politician

Edited by William W. Kibler

Eleanor Of Aquitaine Patron And Politician

Alison Weir

Eleanor Of Aquitaine Patron And Politician:

Eleanor of Aquitaine William W. Kibler, 2014-07-03 Eleanor of Aquitaine was the wife of two kings Louis VII of France and Henry II Plantagenet of England and the mother of two others Richard the Lionhearted and John Lackland In her eventful often stormy life she not only influenced the course of events in the twelfth century but also encouraged remarkable advances in the literary and fine arts In this book experts in five disciplines history art history music French and English literature evaluate the influence of Eleanor and her court on history and the arts Elizabeth A R Brown views Eleanor as having played a significant role as parent and politician but not as patron Rebecca A Baltzer takes a new look at the music of the period that was written by and for Eleanor her court and her family Mosh Lazar reexamines her relationship to the courtly love literature of the period Eleanor S Greenhill and Larry M Ayres reassess her influence in the realm of art history Rossell Hope Robbins traces the lines extending from the French courtly literature of Eleanor s period down into fourteenth century Chaucerian England The essays reflect divergent but generally complementary assessments of this remarkable woman s influence on her own era and on future times as well This volume is the result of a symposium held at the University of Texas in 1973

Eleanor of Aquitaine: patron and politician ed , **The Cultural Patronage of Medieval Women** June Hall McCash, 1996 The Cultural Patronage of Medieval Women is the first volume exclusively devoted to an examination of the significant role played by women as patrons in the evolution of medieval culture The twelve essays in this volume look at women not simply as patrons of letters but also as patrons of the visual and decorative arts of architecture and of religious and educational foundations Patronage as a means of empowerment for women is an issue that underlies many of the essays Among the other topics discussed are the various forms patronage took the obstacles to women s patronage and the purposes behind patronage Some women sought to further political and dynastic agendas others were more concerned with religion and education still others sought to provide positive role models for women The amusement of their courts was also a consideration for female patrons These essays also demonstrate that as patrons women were often innovators They encouraged vernacular literature as well as the translation of historical works and of the Bible frequently with commentary into the vernacular They led the way in sponsoring a variety of genres and encouraged some of the best known and most influential writers of the Middle Ages Moreover they were at the forefront in fostering the new art of printing which made books accessible to a larger number of people Finally the essays make clear that behind much patronage lay a concern for the betterment of women

Women in Medieval History and Historiography Susan Mosher Stuard, 2016-11-11 What was the status of women in the Middle Ages How have women fared in the hands of historians And what is the current state of research about women in the Middle Ages Susan Mosher Stuard addresses these questions in a collection of essays that delve in to the history and historiography of women in medieval England France Italy and Germany Contributors include Barbara Hanawalt Diane Owen Hughes Suzanne Wemple Denise Kaiser and Martha Howell One of the most interesting

observations made in *Women in Medieval History and Historiography* is the way in which the history of women in each country has followed a distinct course that is in rhythm with other concerns of national historical writing. *Women in Medieval History and Historiography* will interest historians, scholars of women's studies and medievalists. *Imprisoning Medieval Women* Dr Gwen Seabourne, 2013-07-28

The non-judicial confinement of women is a common event in medieval European literature and hagiography. The literary image of the imprisoned woman, usually a noblewoman, has carried through into the quasi-medieval world of the fairy and folk tale in which the maiden in the tower is one of the archetypes. Yet the confinement of women outside of the judicial system was not simply a fiction in the medieval period. Men too were imprisoned without trial and sometimes on mere suspicion of an offence, yet evidence suggests that there were important differences in the circumstances under which men and women were incarcerated and in their roles in relation to non-judicial captivity. This study of the confinement of women highlights the disparity in regulation concerning male and female imprisonment in the middle ages and gives a useful perspective on the nature of medieval law, its scope and limitations, and its interaction with royal power and prerogative. Looking at England from 1170 to 1509, the book discusses the situations in which women might be imprisoned without formal accusation or trial, how social status, national allegiance and stage of life affected the chances of imprisonment, the relevant legal rules and norms, the extent to which legal and constitutional developments in medieval England affected women's amenability to confinement, what can be known of the experiences of women so incarcerated, and how women were involved in situations of non-judicial imprisonment aside from themselves being prisoners. *Queens of the Crusades* Alison Weir, 2021-02-23

Packed with incredible true stories and legendary medieval intrigue, this epic narrative history chronicles the first five queens from the powerful royal family that ruled England and France for over three hundred years. The Plantagenet queens of England played a role in some of the most dramatic events in our history: Crusading queens, queens in rebellion against their king, seductive queens, learned queens, queens in battle, queens who enlivened England with the romantic culture of southern Europe. These determined women often broke through medieval constraints to exercise power and influence for good and sometimes for ill. This second volume of Alison Weir's critically acclaimed history of the queens of medieval England now moves into a period of even higher drama from 1154 to 1291: years of chivalry and courtly love, dynastic ambition, conflict between church and throne, baronial wars, and the ruthless interplay between the rival monarchs of Britain and France. We see events such as the murder of Becket, the Magna Carta, and the birth of parliaments from a new perspective. Weir's narrative begins with the formidable Eleanor of Aquitaine, whose marriage to Henry II established a dynasty that ruled for over three hundred years and created the most powerful empire in western Christendom, but also sowed the seeds for some of the most destructive family conflicts in history and for the collapse under her son, King John, of England's power in Europe. The lives of Eleanor's four successors were just as remarkable: Berengaria of Navarre, queen of Richard the Lionheart; Isabella of Angoulême, queen of John; Alienor of Provence, queen of Henry III; and finally

Eleanor of Castile the grasping but beloved wife of Edward I Through the story of these first five Plantagenet queens Alison Weir provides a fresh enthralling narrative focusing on these fascinating female monarchs during this dramatic period of high romance and sometimes low politics with determined women at its heart **Queen Jeanne and the Promised Land** David Bryson,1999-09-08 Jeanne III d Albret 1528 1572 queen of Navarre is a subject of great controversy and fascination yet only two modern monographs have been written about her and both are general biographies This book fills the gap for scholars by concentrating on Jeanne s leading role during the Wars of Religion in the vast territory of Guyenne in southwestern France Part One The Promised Land portrays the growth of Protestantism in Guyenne the rise of the Albret dynasty and Jeanne s evangelisation In part Two Exodus Queen Jeanne emerges as a Huguenot war leader in the attempt shown in Part Three Sanctuary to create a Protestant Guyenne by force of arms The book makes extensive use of contemporary sources including unpublished diplomatic and military dispatches and a controversial collection of copies of Jeanne s private correspondence Liturgies in Honour of Thomas Becket Kay Brainerd Slocum,2004-01-01 Slocum analyzes the image of Thomas Becket as presented in the liturgies composed in his honour and examines these within the context of the political and social history of the late twelfth and early thirteenth centuries *Medieval Women and War* Sophie Harwood,2020-07-23 For the first time Sophie Harwood uses the Old French tradition as a lens through which to examine women and warfare from the 12th to the 14th centuries The result is a skilled analysis of gender roles in the medieval era and a heightened awareness of how important literary texts are to our understanding of the historical period in which they circulated Medieval Women and War examines both the text and illustrations of over 30 Old French manuscripts to highlight the ways in many of the texts differ from their traditionally assumed usually classical sources Structured around five pivotal female types women cited as causes for violence women as victims of violence women as ancillaries to warriors women as warriors themselves and women as political influences this important book unpicks gendered boundaries to shed new light on the social political and military structures of warfare as well as adding nuance to current debates on womanhood in the middle ages World Monarchies and Dynasties John Middleton,2015-06-01 Throughout history royal dynasties have dominated countries and empires around the world Kings queens emperors chiefs pharaohs czars whatever title they ruled by monarchs have shaped institutions rituals and cultures in every time period and every corner of the globe The concept of monarchy originated in prehistoric times and evolved over centuries right up to the present Efforts to overthrow monarchies or evade their rule such as the American French Chinese and Russian revolutions are considered turning points in world history Even today many countries retain their monarchies although in vastly reduced form with little political power One cannot understand human history and government without understanding monarchs and monarchies This fully illustrated encyclopedia provides the first complete survey of all the major rulers and ruling families of the world past and present No other reference work approaches the topic with the same sense of magnitude or connection to historical

context Arranged in A Z format for ease of access World Monarchies and Dynasties includes information on major monarchs and dynasties from ancient time to the present This set includes overviews of reigns and successions genealogical charts and dynastic timelines addresses concepts problems and theories of monarchy provides background and information for further research highlights important places structures symbols events and legends related to particular monarchs and dynasties includes a master bibliography and multiple indexes

Women In Dark Age And Early Medieval Europe c.500-1200 Helen Jewell,2006-10-04 The period 1200 1550 opened in a time of population expansion but went on to suffer the demographically cataclysmic effects of the plague beginning with the Black Death of 1347 51 The period dawned with a confident papacy and the Albigensian crusade against heretics and ended with the Catholic church torn apart by the Protestant Reformation Huge challenges were affecting society in various ways but they did not always affect men and women in the same ways Helen M Jewell provides a lively survey of western European women s activities and experiences during this timeframe The core chapters investigate The function of women in the countryside and towns The role of women in the ruling and landholding classes Women within the context of religion This practical centre of the book is embedded in an analysis of the gender theories inherited from the earlier Middle Ages which continued to underpin laws which restricted women s activity an education system which offered them inferior institutional provision and a church which denied them ministry Three individuals who vastly exceeded these expectations crashing through the glass ceilings of their day are brought together in a fascinating final chapter Combining a historiographical survey of trends over the last thirty years with more recent scholarship this is as indispensable introduction for anyone with an interest in women s history from the late Medieval period through to the Reformation

The Cambridge Companion to Medieval Music Mark Everist,2011-03-03 From the emergence of plainsong to the end of the fourteenth century this Companion covers all the key aspects of medieval music Divided into three main sections the book first of all discusses repertory styles and techniques the key areas of traditional music histories next taking a topographical view of the subject from Italy German speaking lands and the Iberian Peninsula and concludes with chapters on such issues as liturgy vernacular poetry and reception Rather than presenting merely a chronological view of the history of medieval music the volume instead focuses on technical and cultural aspects of the subject Over nineteen informative chapters fifteen world leading scholars give a perspective on the music of the Middle Ages that will serve as a point of orientation for the informed listener and reader and is a must have guide for anyone with an interest in listening to and understanding medieval music

Chronicle of Hainaut Gislebertus (of Mons),2005 First full English translation of the 12C Chronicle of Hainaut offering fascinating insights into European history of the time The importance of the late twelfth century Chronicle of Hainaut Chronicon Hanoniense as an historical record cannot be overestimated Gilbert of Mons was an eye witness to important events affecting Count Baldwin V of Hainaut and provides much significant information about persons and affairs within France and the Empire particularly Count Philip of Flanders

King Philip Augustus and Emperor Frederick Barbarossa he had a keen interest in noble marriages making his chronicle an unmatched source for genealogical and prosopographical material for this region Moreover his work is a mine of information on a great many subjects such as the crusades political events noble women the lives of saints lord tenant relationships customary practices and the association of churches with lay advocates it is particularly informative on military matters giving detailed accounts of sieges campaigns and tournaments This volume presents a clear translation accompanied by detailed annotations clarifying the text and identifying people events and concepts an introduction and bibliography **The Reign of Richard Lionheart** Ralph V Turner, Richard Heiser, 2014-06-11 This ground breaking and substantive new history considers Richard s reign from a perspective that is as much French as English Viewing the king himself as a great military commander it also shows him as a more competent administrator than previously acknowledged Modern revisionist work allows the authors to correct many misconceptions about Richard s French possessions and recent scholarship on his rival Philip Augustus permits examination of the formidable threat that the resurgent Capetian monarchy represented

Between Courtly Literature and Al-Andaluz Michelle Reichert, 2014-02-04 Chr tien de Troyes uses repeated references to Spain throughout his romances despite past suggestions that they contain Mozarabic and Islamic themes and motifs these references have never been commented upon The book will demonstrate that these allusions to Spain occur at key moments in the romances and are often coupled with linguistic riddles which serve as roadmaps to the manner in which the romances are to be read These references and riddles seem to support the idea that some of their themes and motifs in Chr tien s romances are of Andalusian origin The book also analyzes Chr tien s notion of conjointure and shows it to be the intentional elaboration of a sort of Mischliteratur which integrates Islamic and Jewish themes and motifs as well as mystical alchemical symbolism into the standard religious and literary canons of his time The contrast afforded by Chr tien s use of irony and his subtle integration of this *matiré d'Orient* into the standard canon constitutes a carefully veiled criticism of the social and moral conduct as well as spiritual beliefs of twelfth century Christian society the crusading mentality chivalric mores and even the notion of courtly love The primary interest of the book lies in the fact that it will be the first to comment upon and analyze Chr tien s references to Spain and the rich *matiré d'Orient* in his romances while suggesting channels for its transmission through scholars merchants and religious houses from northern Spain to Champagne *Race and Gender in the Western Music History Survey* Horace J. Maxile, Jr., Kristen M. Turner, 2022-06-22 Race and Gender in the Western Music History Survey A Teacher s Guide provides concrete information and approaches that will help instructors include women and people of color in the typical music history survey course and the foundational music theory classes This book provides a reconceptualization of the principles that shape the decisions instructors should make when crafting the syllabus It offers new perspectives on canonical composers and pieces that take into account musical cultural and social contexts where women and people of color are present Secondly it suggests new topics of study and pieces by composers whose work fits

into a more inclusive narrative of music history A thematic approach parallels the traditional chronological sequencing in Western music history classes Three themes include people and communities that suffer from various kinds of exclusion Locales Forms Responses Reception Each theme is designed to uncover a different cultural facet that is often minimized in traditional music history classrooms but which if explored lead to topics in which other perspectives and people can be included organically in the curriculum while not excluding canonical composers **British Women's History** ,1996 This is one of a series of bibliographical guides designed to meet the needs of undergraduates postgraduates and their teachers in universities and colleges of further education All volumes in the series share a number of common characteristics They are selective manageable in size and include those books and articles which are considered most important and useful All are edited by practising teachers of the subject in question and are based on their experience of the needs of students The arrangement combines chronological with thematic divisions Most of the items listed receive some descriptive comment
