New-Dialect Formation in Canada Stefan Dollinger, 2008-01-15 This book details the development of eleven modal auxiliaries in late 18th and 19th century Canadian English in a framework of new dialect formation The study assesses features of the modal auxiliaries tracing influences to British and American input varieties parallel developments or Canadian innovations The findings are based on the Corpus of Early Ontario English pre Confederation Section the first electronic corpus of early Canadian English The data which are drawn from newspapers diaries and letters include original transcriptions from manuscript sources and texts from semi literate writers While the overall results are generally coherent with new dialect formation theory the Ontarian context suggests a number of adaptations to the current model In addition to its general Late Modern English focus New Dialect Formation in Canada traces changes in epistemic modal functions up to the present day offering answers to the loss of root uses in the central modals By comparing Canadian with British and American data important theoretical insights on the origins of the variety are gained The study offers a sociohistorical perspective on a still understudied variety of North American English by combining language internal features with settlement history in this first monograph length diachronic treatment of Canadian English in real time **Indians,**

Lesbian Modernism English Elizabeth English, 2014-11-11 The first book length study to explore the importance of genre fiction for the body of literature we call lesbian modernism Elizabeth English explores the aesthetic dilemma prompted by the censorship of Radclyffe Hall's novel *The Well of Loneliness* in 1928 Faced with legal and financial reprisals women writers were forced to question how they might represent lesbian identity and desire Modernist experimentation has often been seen as a response to this problem but English breaks new ground by arguing that popular genre fictions offered a creative strategy against the threat of detection and punishment Her study examines a range of responses to this dilemma by offering illuminating close readings of fantasy crime and historical fictions written by both mainstream and modernist authors English introduces hitherto neglected women writers from diverse backgrounds and draws on archival material examined here for the first time to remap the topography of 1920s 1940s lesbian literature and to reevaluate the definition of lesbian modernism Key Features Rethinks the lesbian modernist project to demonstrate that genre fiction not only influenced modernist writers such as Woolf and Stein but also found its way into their ostensibly highbrow work Brings to light hitherto neglected mainstream writers working in popular genres who contributed to the lesbian modernist aesthetic Situates Katharine Burdekin within the context of lesbian modernism for the first time employing
